General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 - 7 days prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) up to 7 days prior to your sailing date. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Please visit MySilversea (my.silversea.com) for the most up-to-date information. Discounts for children under 12 years of age are available on some, but not all tours. Prices for children, if available, will be adjusted onboard. Please meet with the Shore Concierge team prior to your excursion to discuss the availability of children's pricing.

ON-TIME TOUR DEPARTURES

As a courtesy to fellow guests, tour departures generally will not be announced unless there is an unforeseen change. Departure times from the ship are published in the ships daily newspaper, the Silversea Chronicle. Guests are kindly requested to proceed ashore at least ten minutes prior to the tour departure time. The Shore Concierge team will be pier-side to direct you to the appropriate transportation. When the ship is at anchor, guests must allow additional time to tender ashore.

Silversea Cruises reserves the right to adjust itineraries and tour departures as local conditions dictate. Please note that pier departure times are also listed in MySilversea (my.silversea.com)

SILVERSEA SHUTTLE SERVICE

Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. This service may not be possible in ports where a strong taxi union exists, preventing Silversea from providing a complimentary shuttle. Such harnesses' and secure seating cannot be guaranteed. Silversea reserves the right to refuse children under the age of 8 years old on any tour on the basis of safety.

OSA-B / KYOTO BY HIGH-SPEED SHINKANSEN TRAIN

DIFFICULTY

Price:\$299; Duration:9.50 hrs

Experience Kyoto in a unique new way during a full-day, sightseeing excursion to this historic city via bullet train.

Bullet Train to Kyoto and the Golden Pavilion

Your tour begins with a 45-minute drive to the Shin-Osaka Station. Upon arrival, board the high-speed Shinkansen bullet train for the 15-minute ride to Kyoto, then board a coach and drive to the Golden Pavilion, or 'Kinkaku-ji Temple' for an exterior visit. Built as a villa during the Muromachi Period in 1397, the Golden Pavilion was later converted into a temple. The temple burned down in 1950 and rebuilt in 1955. It is three stories in height, and the second and third stories are covered with pure gold foil. The mirror reflection on the still-pond in the garden is marvellous.

Nijo Castle and Lunch

Next, re-board your coach and drive to the Nijo Castle, completed in 1626 as the Kyoto residence of Tokugawa Ieyasu. The Main Court, or 'Honmaru', burned down in 1788. The only original part remaining is the Second Court, or 'Ni-no-maru'. The present 'Honmaru', built in 1827, is a replica of the one that originally stood on the grounds of the Kyoto Imperial Palace. The castle is also renowned for its many cultural treasures dating from the 16th-century Momoyama Era, including the Chinese Gate, or 'Karamon', and the Ni-no-maru Garden. After a stop for lunch, proceed to the Heian Shrine.

Please note that Kyoto City has put together a 21 year plan to restore all 28 of the historical buildings on the Nijo Castle grounds. This is the biggest repair and restoration project since the castle was built by Tokugawa Ieyasu in 1603. Some of the buildings may be covered.

Heian Shrine

The shrine, also known as the Shrine of Peace, was built in 1895 to commemorate the 1,100th anniversary of the founding of the Heian-Kyo capital (Kyoto). It is dedicated to two emperors: Emperor Kammu, the first emperor to rule Kyoto, and Emperor Komei, the last emperor to live out his reign in the city.

Kyoto Handicraft Centre

Your final stop offers a chance to see a glimpse of local flavour and shop at the Kyoto Handicraft Centre, which caters to foreign tourists. During your visit, some time is made available to browse among the seven stories of traditional crafts, artwork and clothing. Japanese souvenirs, including handcrafted dolls, paper lanterns, kites and Japanese sandals, are also available for sale.

Afterwards, re-board your coach for the approximate 105-minute drive back to the pier.

Please note: This tour involves an extensive amount of walking for approximately 1.5 miles (about 2.4 kilometres) over flat, uneven and gravel surfaces, with a few steps to negotiate to get on/off the coach, approximately 30 steps at the Golden Pavilion, ten steps at the Heian Shrine and 20 steps at the Nijo Castle. This tour is not suitable for guests with limited mobility or those who utilise a wheelchair. Photography is not permitted inside of the Nijo Castle and the Heian Shrine. Guests must remove their shoes at the Nijo Castle. Japanese yen is required for any purchases: guests are advised to exchange money at the airport prior the cruise.

OSA-C / KYOTO AND NARA

DIFFICULTY

Price:\$299; Duration:10.50 hrs

Explore the religious legacy and landmarks of Nara during this picturesque, full-day sightseeing excursion.

Todai-ji Temple

Depart the pier for the scenic, approximate 75-minute drive to Nara, and a visit to the Todai-ji Temple. The temple is famous for its great image of Buddha, a symbol of Nara, and the temple building itself is the largest existing wooden structure in the world. The present temple building was reconstructed in the mid-Edo Period (1603-1867). It measures 187 feet (57 metres) wide, 164 feet (50 metres) deep and 157 feet (48 metres) in height. Leaving the temple, your next stop is the Kasuga Taisha Shrine.

Kasuga Taisha Shrine

Originally constructed in 768 A.D. by the Fujiwaras, a prominent feudal family, the shrine has been rebuilt over 50 times in accordance with Shinto custom to purify the site. More than 2,000 stone lanterns line the pathways, and are lit only three times a year on special festival days. Upon arrival, pass through the torii gate to experience the unique architectural style of the shrine, including the shape of the roof and the brilliant vermilion and green halls. Proceed to a local hotel for lunch.

Kinkaku-ji Temple

After lunch, an exterior visit is made at the Golden Pavilion, or 'Kinkaku-ji Temple'. Built as a villa during the Muromachi Period in 1397, the Golden Pavilion was later converted into a temple. The temple burned down in 1950 and was rebuilt in 1955. It is three stories in height, and the second and third stories are covered with pure gold foil. Note the mirror reflection on the still pond.

Ryoanji Temple

Your next stop is Ryoan-ji Temple, famous for the greatest Zen rock garden. Authorities argue over when the garden was created; none disagree on its elegance. The garden is 3600 square feet in area and features 15 rocks set in meticulously raked white gravel. The rocks rise from the gravel like small islands; they are so arranged that one is always hidden from view. It is said that all 15 are visible to enlightened.

Following your visit, commence the approximate 105-minute drive back to the pier.

Please note: This tour involves an extensive amount of walking for approximately 2.9 miles (about 4.7 kilometres) over flat and uneven surfaces, with a few steps to negotiate to get on/off the coach, approximately 30 steps at the Golden Pavilion, 20 steps at the Todai-ji Temple, 52 steps at the Kasuga Taisha Shrine, and 30 steps at the Ryoanji Temple. This tour is not suitable for guests with limited mobility or those who utilise a wheelchair. The tour of the Kasuga Shrine does not include an interior visit to the Treasure Hall. Japanese yen is required for any purchases: guests are advised to exchange money at the airport prior the cruise.

Depart the pier for the 50-minute journey from the port area to Beomeosa Temple, one of the largest and best known temples in the forest outside of Busan City.

Beomeosa Temple

Located at the edge of Mt. Geumjeongsan, Beomeosa Temple was constructed by monk Ui Sang in the year of 678. Renovated in 1713, the temple is one of the most delicate and luxurious architectures of the Joseon Dynasty (1392-1910). Jeju Mok Office

The Jeju Mok Office, the seat of the local governor during the Joseon dynasty (1392-1910), sits on a site that was probably used during the Tamna kingdom as a government office. In 1434 the existing office facilities burned down and were replaced the following year with buildings approximating those now found on the site. Modifications to the structures continued throughout the Joseon dynasty, but unfortunately, the offices were completely razed during the Japanese colonial era (1910-1945). In the 1990s, the Jeju city government sponsored four separate excavations aimed at restoring the Jeju Mok Office to an approximation of its past form. The excavations uncovered numerous relics dating back

Price: \$129; Duration: 7.75 hrs

Discover an eclectic blend of modern and Old World architecture, cultures and traditions during this full-day sightseeing excursion to Seoul.

Seoul City Tour

Depart the pier for the scenic, approximately 1.5-hour ride through Seoul. Along the way, see the city's modern and historic sights, and pass by the Presidential House, or 'Blue House', home of the Korean president. After a photo stop, a visit is made to the splendid Gyeongbokgung palace.

Gyeongbokgung Palace

Built in 1395, Gyeongbokgung Palace is also commonly referred to as the Northern Palace because its location is furthest north when compared to the neighboring palaces of Changdeokgung (Eastern Palace) and Gyeonghuigung (Western Palace) Palace. Gyeongbokgung Palace is arguably the most beautiful, and remains the largest of all five palaces.

The premises were once destroyed by fire during the Imjin War (Japanese Invasions, 1592-1598). However, all of the palace buildings were later restored under the leadership of Heungseondaewongun during the reign of King Gojong (1852-1919).

Remarkably, the most representative edifices of the Joseon Dynasty, Gyeonghoeru Pavilion and Hyangwonjeong Pond have remained relatively intact. Woldae and the sculptures of Geunjeongjeon (The Royal Audience Chamber) represent past sculptures of contemporary art.

Insadong

Next, proceed for a traditional Korean lunch at a local restaurant. After lunch, re-board your coach for the drive to Insadong, the centre of Korean culture from 1392 to 1910 and former location of the Ministry of Art. Insadong is today home to over forty percent of the nation's antique stores, and renowned for its main art collection, fine porcelain and high-quality ceramics. Its famous shops have attracted patrons that include Queen Elizabeth II. Some time is made available here to browse for souvenirs.

National Museum

Your last stop is at the National Museum of Korea, home to approximately 150,000 works of art. Upon arrival, view permanent collections of rare artwork and ancient, cultural, and historical artifacts. This spacious museum also hosts social, educational, cultural, and entertainment events. The lovely garden outside the museum offers an exhibition of stone pagodas and a variety of historic stone relics.

DIFFICULTY

Price:\$109; Duration:6.50 hrs

Experience the storied past of a nation divided by civil war for nearly 60 years during this memorable visit to the DMZ and the 3rd Tunnel.

Unification Road and the Freedom Bridge

Depart the pier for the approximately 70-minute drive to the DMZ area. Along the way, travel along Unification Road and see the Freedom Bridge. This narrow wooden structure crosses the Injin River, and served as the path to freedom for the many North Koreans that were able to cross to the south at the end of the Korean War.

Imjingak and the DMZ

Upon arrival at Imjingak Park, you are near the area known as the Demilitarized Zone (DMZ). The DMZ, which separates the countries of North and South Korea, winds 155 miles (243 kilometres) across the Korean Peninsula from the Han River estuary in the west to just below the 39th parallel on the east coast. Down the centre of the 2.5 mile-wide (four-kilometre-wide) strip, largely undeveloped in the years since the truce was signed, runs the Military Demarcation Line. It bisects the Joint Security Area in Panmunjom, where meetings and conferences are held between north and south.

Third Tunnel and Exhibition Hall

Next, climb down 230 feet (70 metres) into this tunnel, which was designed to facilitate a surprise attack on Seoul. The tunnel measures a mile (1.6 kilometres) in length and 240 feet (73 metres) below ground. It is approximately six feet (about 1.8 metres) wide and high in many places. After exploring the area, climb back out of the tunnel and make your way to the exhibition hall for a unique insight into the Korean War and DMZ. Exhibits depict the typical lifestyle of North Koreans, jets and tanks used in the Korean War, and memorials that represent the wishes for unification and the pain the war caused to Korea's people.

Dora Observatory

Your tour continues with a visit to the Dora Observatory, situated on top of Mount Dora, or 'Dorasan'. The observatory offers panoramic views of both North and South Korea across the Demilitarized Zone.

From here, proceed for lunch at a Korean-style barbecue lunch at a local restaurant before commencing the approximately 1.5-hour drive back to the pier. En route, pass through downtown Incheon City to see China Town, the area's oldest Catholic Church and other historic landmarks.

Due to the premium charged for alcohol in this port, tea and soft drinks only are included with lunch. The tour sequence may vary. Space on this tour is limited. The coach portion of the tour at the DMZ may not be exclusive to Silversea guests. TSN-D / HIGHLIGHTS OF TIANJIN

DIFFICULTY

Price:\$199; Duration:9.00 hrs

Experience the major points of interests in Tianjin, including Ancient Culture Street, Tianjin Museum and Shi Family Mansion, on this full-day outing to the city.

Tianjin

Departing the port, a 75-minute drive takes you into Tianjin city. Home to nearly six million people, Tianjin boasts an interesting history as a foreign concession. Since the mid-20th century, Tianjin has been a centre of major industrialization and production of a wide range of consumer goods known for their excellent quality.

Upon arrival in Tianjin, a sightseeing drive through the city centre highlights the major points of interest. Its European architecture from the turn of the 20th century gives the impression of an outdoor museum, while new, high-rise buildings of glass and steel puncture the city's skyline.

Next, visit the Ancient Culture Street, an interesting and historically accurate street depicting life in 19th-century Tianjin. Note the splendidly replicated classical architecture in the folk style of the Qing Dynasty. Afterwards, lunch of Chinese cuisine is served at a local hotel restaurant before continuing to the Tianjin Museum. Newly renovated, this state-of-the-art museum not only tells the history of the city of Tianjin, but also has a large collection of arts and crafts treasures.

Shi Family Mansion

Re-board the coach for a drive to the Shi Family Mansion. Built in 1875 and occupying over 19,000 square feet (1,765 sq. metres), this mansion boasts 12 courtyards, each originally with specific functions and now the site for a Folklore Museum. Its brick, wood and stone carvings are among the best in north China.

Finally, the 75-minute drive takes you back to the pier and the ship.

Please note: This tour not suitable for guests with limited mobility or those who utilise a wheelchair. Wear casual clothing and comfortable walking shoes. The driving distance between the pier and Tianjin is approximately 1.25 hours. Space is limited; we suggest you book in advance to avoid disappointment.

TSN-E / HISTORICAL TIANJIN

DIFFICULTY

Price:\$199; Duration:10.00 hrs

Experience the spectacular beauty, architecture and history of Tianjin during a picturesque, full-day sightseeing excursion to this bustling city.

Tianjin City, Jingyuan Garden and Ancient Culture Street

Depart the pier for the scenic, approximately 90-minute drive to Tianjin City. Your first stop is at the Jingyuan Garden, or 'Garden of Serenity', the former residence of Puyi, last emperor of the Qing Dynasty. Built in 1921, this lovely garden home has two, two-story Western-style villas as its main buildings. In 2007, a year-long restoration project transformed the residence into a museum about the emperor's life. Next, some free time is made available for a leisurely stroll along Ancient Culture Street. This 600-year-old street is home to a wonderful blend of architectural styles. Along the way, marvel at its classic cultural features, perhaps purchase various folk crafts and sample the delicious local Tianjin snacks.

Lunch and Yangliuqing New Year Painting Museum

After a Chinese lunch at a local restaurant, proceed for a guided tour of the Yangliuqing New Year Painting Museum. The famous, 17th-century knives, wood plates and woodcarving paintings displayed here reflected the local citizenry's hopes for a better life amidst a turbulent society. The early paintings gradually formed their own characters with an auspicious festive tone, and today, locals decorate their homes with Yangliuqing New Year paintings ahead of the Chinese Lunar New Year. During your visit, marvel at the beautiful artwork and observe a local artisan make the painting using wood plates.

Five Avenue Area and Former Mansion of Prince Qing

Next, re-board your coach for a drive through the Five Avenue Area. A Tianjin icon and showcase of modern Chinese history, this historical area features more than 2,000 garden buildings constructed in various architectural styles during the 1920s and 1930s. Your final stop is at the Former Mansion of Prince Qing. Renowned for its exquisite blend of Chinese and Western architectural styles, the main building of the mansion still maintains its original appearance. Following your guided tour, relax with a Chinese afternoon tea served with snacks at the mansion's bistro. Time permitting, visit the Prince Qing Mansion History Exhibition, then re-board your coach and commence the approximately 1.5-hour drive back to the pier.

Please note: This tour involves a moderate amount of walking for approximately one mile (1.6 kilometres), with a few steps to negotiate to get on/off the coach, 20 steps at the Jingyuan Garden and steps at the sights visited. SHA-A / SHANGHAI OLD & NEW

DIFFICULTY

Price: \$69; Duration: 4.00 hrs

Experience a sample of Shanghai's old and new attractions on this introductory half-day overview excursion. On your sightseeing drive through this bustling metropolis, see the major points of interest that include the following:

The Bund

Drive through the most famous of Shanghai's streets - the symbolic Bund. To the Europeans, the Bund was Shanghai's Wall Street, a place where fortunes were made and lost. Along this waterfront embankment stand some of the city's most prominent landmarks.

The Former French Concession Area

In the 1920s and 1930s, the French Concession was known for its lawlessness and decadence. As the foreign diplomatic quarter, it features top hotels, great shopping, bars and restaurants in art deco buildings. Huahai Road, the former Avenue Joffre, is one of Shanghai's favourite shopping streets.

People's Square

Located at the very center of the city, People's Square is a garden-type open space surrounded by buildings and facilities for administration, cultural activities, transportation and commerce. The total green areas in the square cover 80,000 square meters. Seemingly the only broad expanse in the city, spreading before the newly built Museum, People's Square is now the most popular place for city residents to unwind.

Pudong New Area

Your sightseeing drive takes you through this area established in 1990 and through the tunnel under the Huangpu River. Pudong is the city's hot spot for investment in China. It consists of four key areas: the Finance and Trade Zone, the Jinqiao Export Processing Zone, Bonded Zone and Hi-Tech Zone.

Oriental Pearl Tower

At a height of 1,535 feet (468 metres), this is the tallest TV tower in Asia and the third highest in the world after Toronto and Moscow. Stop for photos at this Pudong landmark.

Shanghai World Financial Centre

The 1,600-foot-high (492 meters) Shanghai World Financial Centre (SWFC) is currently the world's second tallest completed building by roof, and the tallest building in China. It is a mixed use skyscraper which consists of offices, hotels, conference rooms, observation decks, and shopping malls on the ground floors.

Jin Mao Building

A silvery pagoda, a rising bamboo shoot, an upright pen - these are images evoked by the 88-storey-high Jin Mao Building in Pudong. It is the second tallest skyscraper in China and a soaring monument to Shanghai's economic boom. Enjoy the panoramic view from the Observation Lounge on the 88th floor.

From here, the coach returns you to the ship.

Please note: This tour requires a minimal amount of gentle walking only and is suitable for guests with limited mobility and those who utilise a wheelchair. A minimum number of guests per guide is required for operation of this tour.

Depart the pier and travel by coach to the Bund, one of the symbols of Shanghai. The Bund shows off Shanghai's outstanding foreign buildings, most of which were erected before 1937. To the Europeans, the Bund was Shanghai's answer to Wall Street. In the 1930s, the string of buildings hosted the city's financial and commercial centres, and the world's greatest banks and trading empires established a base here.

New Economic Zone

Continue the drive to the New Economic Zone in the Pudong New Area. Prior to 1990, the Pudong New Area was farmland and rice paddies. Today, it is an urban experiment that is expected to become Asia's financial, economic and commercial centre. Stop for photos near the oddly futuristic Oriental Pearl TV and Radio Tower. The sixth-tallest structure in the world, this peculiar tower has become a symbol of the city and fully captures the boldness and glitz that are today's Shanghai. Next, proceed to the tallest building of China, the Shanghai World Financial Centre (SWFC), which was completed in 2008. Marvel at this 1,600-foot (492-meter)-high new landmark of Shanghai and take a picture.

Jin Mao Building

Visit to nearby Jin Mao Building, the second tallest skyscraper in China and a soaring monument to Shanghai's economic boom. A silvery pagoda, a rising bamboo shoot, and an upright pen are images evoked by the 88-storey-high Jin Mao Building in Pudong. Enjoy the panoramic view from the Observation Lounge on the 88th floor.

Jin Jiang Hotel

Midway through your busy sightseeing program, a Chinese-cuisine lunch is served at the *Jin Jiang Hotel*. A witness to history, the *Jin Jiang Hotel* has received more than 400 heads of state and government from countries all over the world since its opening. The hotel was once the place where Chairman Mao Zedong and his colleagues held meetings and it was also the site of the signing of the 1972 Sino-America joint communiqué by Chairman Mao and U.S. President Nixon.

Shanghai Old Town & Yu Yuan Gardens

Continuing on, discover Shanghai's Old Town and wander among its maze of narrow alleys and cobblestone lanes. As locals bustle about their daily activities, experience one of China's most famous dumpling cookeries and admire the area's remarkable architecture. From here, proceed to the 16th-century Yu Yuan Garden. This cultivated oasis captures the essence of the landscape art and architectural style of the Ming and Qing dynasties. It has also served as the inspiration for the famous willow-pattern chinaware. High walls adorned with huge, stone dragons shelter teahouses, pavilions, rockeries and carp ponds. Make your way back to the coach by way of a small lake, which is spanned by a picturesque zigzag bridge.

Jade Buddha Temple

Next head northwest to Jade Buddha Temple, founded in 1881. Its rare statues of Buddha, each carved from a single piece of white Burmese jade, are of special interest. Depending on the schedule of resident monks, you may be able to peek inside one of the temples to witness a prayer session.

All too soon, bid farewell to Shanghai and return to the ship.

Please note: This tour requires an extensive amount of walking for a distance of about 1.25 miles (two kilometres) and climbing of approximately 150 narrow steps. This tour is not suitable for guests with limited mobility or those who utilise a wheelchair. Casual clothing and comfortable walking shoes are suggested; there are no clothing restrictions to enter the temple. Photography is allowed in most areas of the temple but is not permitted inside the area where the Jade Buddha is located.

In the crowded maze of cobbled alleyways that comprise the old Chinese city of Shanghai, catch a glimpse of part of this city's rich history. Here, visit the Yu Yuan, or Mandarin Gardens, which inspired the famous willow pattern chinaware. Built for the Pan family, wealthy Ming dynasty officials of the mid-16th century, the garden is surrounded by high walls adorned with huge stone dragons. Inside, numerous halls and pavilions of characteristic architectural style are connected by moon gates and zigzag bridges designed to discourage the entrance of demons who can only move in a straight line.

Next, proceed to the new Shanghai Museum, located at Renmin, or People's Square.

Shanghai Museum

Opened in 1995 and regarded as the world's finest showcase of Chinese art and antiquities, the museum contains an excellent and well-displayed collection of old bronzes and ceramics as well as paintings and scrolls. As your tour of the museum concludes, re-board the coach and return to the ship.

SHA-G / THE WATER TOWN OF ZHUJIAJIAO

DIFFICULTY

Price:\$99; Duration:7.50 hrs

Venture beyond the modern metropolis of Shanghai to discover one of East China's traditional waterside towns on this intriguing, full-day excursion. Situated beside the Dianshanhu Lake, Zhujiajiao illustrates the customs and culture of old-world China.

Commencing your journey at the pier, travel by coach for approximately an hour and a half past rustic farms and rippling fields of rice to Zhujiajiao, an ancient water town well-known throughout the country with a history of more than 1,700 years. Covering an area of 18 square miles (47 square kilometres), the little fan-shaped town glimmers like a bright pearl in the landscape of lakes and mountains. Endowed with another elegant name - Pearl Stream - the little town is the best-preserved among the four ancient towns in Shanghai. Unique old bridges across bubbling streams, small rivers shaded by willow trees, and houses with attached courtyards all transport people, who are living amidst the hustle and bustle of the modern big city, to a world full of antiquity, leisure and tranquillity.

Upon arrival in this small town, leisurely make your way along meandering streets and narrow alleyways on foot. Admire Zhujiajiao's numerous stone bridges and centuries-old buildings of white wall or black brick. Reminiscent of Venice's canals, local women display their wares from wooden boats bobbing in the water. Although this community boasts 36 moss-covered bridges, the most famous is the five-arched Fangsheng Bridge, a remnant of the Ming dynasty.

Continue your exploration at Daqing Youju, a post office that dates back to the Qing dynasty, the only remnant of its kind in East China. Visit the Tongtianhe Traditional Chinese Pharmacy, the largest in Zhujiajiao that accounted for almost half of the business scale of all pharmacies in the area in late Qing dynasty. For centuries, this Pharmacy has established its fame among the locals as it has adhered to the principle of 'Healing the Pain & Saving the Life' based on traditional Chinese ethics and medical culture. Today, the essence of traditional business and prescription practices as well as the original 'Shikumen'-style front gate and some of the old furniture have been well retained.

A traditional lunch of Chinese-style cuisine is served at a local restaurant.

Following lunch, visit a silk factory where you have the opportunity of observing some of the ancient techniques in producing this elegant fabric. See the workers removing the fibres from cocoons before winding them onto spools. Later see how the fibres are woven into silk threads.

Re-board the coach for the return drive to the ship.

Please note: This tour requires an extensive amount of walking for about 1.5 miles (2.5 kilometres) with approximately 80 steps to climb. It is not suitable for guests with limited mobility or those who utilise a wheelchair. Dress in casual layers and wear comfortable walking shoes. The order of sights visited may vary. Bring local currency for any purchases.

SHA-H / SHANGHAI'S JEWISH HERITAGE

DIFFICULTY

Price:\$69; Duration:4.50 hrs

Learn about the modern Jewish history in Shanghai on this half-day outing that includes visits to the Ohel Moishe Synagogue, the old Jewish ghetto area, Huo Shan Park, the Jewish settlement region, and the Arts & Crafts Research Institute.

From the mid-19th century when the Sephardic Jewish merchant group began to appear in Shanghai, to the early 1940s, the Jews in Shanghai rose to become the largest Jewish community in the Far East. While the Nazis persecuted and massacred the Jews in Europe in the 1930s and during World War II, Shanghai was the only city in the world that freely allowed Jews to enter, requiring of them no visa, guarantee, or other documents. The city became a major destination of the Jewish people seeking asylum. From 1937 to 1939 approximately 30,000 European Jews swarmed into Shanghai - more than the total number of the Jewish refugees taken in by Canada, Australia, India, South Africa and New Zealand during the same period.

After settling down in Shanghai, the Jews lived together peacefully among the inhabitants of Shanghai and played a large role in promoting the economic and cultural development of the city with their outstanding creative power and wisdom. The Chinese and Jewish people each shared wealth and woe together in the hardships of the war years, forging a profound friendship. Since China's opening and reform policy, many

'Shanghai Jews' have come in succession to Shanghai to visit relatives, invest, make efforts or offer advice for the economy and construction of Shanghai, thus composing a new chapter in the history of Chinese and Jewish friendship. The coach takes you from the pier to the Huo Shan Park, for a brief look at the Memorial Tablet for the Jews living in Shanghai during World War II. Next, follow your guide on foot through the Old Jewish ghetto area. Visit the Ohel Moishe Synagogue; while no longer an actively-functioning synagogue, today it serves as a museum.
