General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 - 7 days prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) up to 7 days prior to your sailing date. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. SILVERSEA SHUTTLE SERVICE

Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. Juneau - USA

JNU-001 / TAKU GLACIER VIA HELICOPTER AND AIRBOAT

DIFFICULTY

Price:\$529; Duration:3.50 hrs

Explore the heart of the Alaskan wilderness from three unique perspectives during this panoramic, half-day sightseeing excursion.

Juneau City and Ice Field, Helicopter-Ride, Tongass National Forest, Gastineau Channel, Taku River

Depart the pier for the short drive through Juneau City en route to Juneau International Airport, located in the Mendenhall Valley. Upon arrival at the heliport, receive your pre-flight safety briefing and gear before boarding the helicopter. After lift-off, your helicopter flight-seeing tour begins with a flight high above Juneau, then continues over the Tongass National Forest, Juneau Ice Field, Gastineau Channel and Taku River.

Take Point, Airboat Ride, Taku River and Glacier

Upon arrival at Taku Point, you are greeted by the staff and provided with flotation jackets, hearing protection and an airboat safety briefing. This is an ideal location to capture photos of the incredible glacier landscape across the river. The captain assists you with embarking the airboat, which is covered for your comfort and protection from the elements, whilst the sides remain open for the best possible views and photo opportunities. During your approximately one-hour airboat adventure along the Taku River, marvel at up-close views of the Taku Glacier whilst cruising the five-mile (about eight-kilometre) terminus of the only advancing glacier of the Juneau Ice Field.

Taku Glacier, Taku Point, Helicopter-Ride, Glacier Walk

While gazing from the river, the immense size of this glacier becomes evident as you zoom by, within arm's reach of the ice. En route, learn about the glacier and river basin it has carved over the years, and stop for photos in various locations. Once back at Taku Point, leave the airboat and re-board the helicopter for a flight to the apex of the Taku Glacier. Upon arrival, step off the helicopter for a guided glacier walk on the amazing, approximately 4,500-foot-thick (about 1,371-metre-thick) ice. This vantage point offers splendid panoramic views and photo opportunities in all directions whilst your pilot shares details about the ice field, and facts specific to the Taku Glacier. Following your visit, re-board the helicopter for the flight back to the Juneau International Airport, then re-board your coach for the short drive back to the pier.

Please note: This tour involves a moderate amount of walking for approximately 547 yards (about 500 metres), at times over slippery surfaces, with a few steps to negotiate to board/de-board the helicopter and embark/disembark the airboat, and 20 steps to access the helicopter. This tour is not suitable for guests prone to airsickness, guests prone to motion sickness, guests with limited mobility and guests who utilise a wheelchair. Guests are advised to wear warm, comfortable clothing in layers with a hat, gloves, scarf and flat, closed-toe walking shoes, and bring sun protection, a weatherproof jacket and bottled water from the ship; rain pants, over-shoe boots and ear protection are provided. Bags and backpacks are not allowed in the helicopter. Use of iPads, selfie sticks or handheld GoPro mounts and drones are not permitted. Guests must be at least seven years old to participate on this tour. A surcharge fee of 150 USD is assessed to guests weighing 250 pounds (about 113 kilograms) or more. Musher

SGY-C / CHILKOOT LAKE WILDLIFE QUEST

DIFFICULTY

Price:\$259; Duration:6.50 hrs

Chilkoot Lake has something to offer the nature lover all summer long. In May, June and July, the wildflowers bloom in profusion, and bald eagles nest along the river corridor. Brown bear are often sighted in the area, feeding on grass, dandelions, and later, sockeye salmon. Just before the beginning of August, the pink or Humpback ('Humpies') salmon begin to run. This attracts brown bear, bald eagles and other wildlife to the Chilkoot River to feed. This search for bear and other river-area resident animals combines a round-trip fast ferry ride to Haines with a guided wildlife viewing tour to the Chilkoot River and Lake, and a nice picnic lunch.

High-speed Catamaran

Along the way, keep an eye out for wildlife; migratory birds, brown bear, and harbour seals are often seen here.

Wildlife Search

In May, June and July, you may see bald eagles bringing food to their young on the nest, and harbour seals and sea lions chasing salmon as they work their way upstream. Beginning in August, pink salmon, the smallest and most abundant of the Pacific salmon varieties, begin their run up the Chilkoot River to spawn. Look for the male salmon, with a pronounced humpback, giving these fish the nickname of 'humpies'. Your guide, having scoped out the area prior to identify the best wildlife feeding areas, will take you to the best vantage point where river life can be observed. This is the best opportunity to see brown bear as they are often witnessed feeding along the banks of the river. Listen as your guide explains brown bear behaviours and help you to identify and spot other wildlife.

SGY-S / CHILKOOT TRAIL HIKE & FLOAT ADVENTURE

DIFFICULTY

Price: \$119; Duration: 4.25 hrs

Trek the path of those stampedeers who ventured along the Chilkoot Trail in search of gold on this half-day hike and raft excursion down the Taiya River.

Board your private van at the pier and head through Skagway and drive out of town along the coast for approximately 30 minutes, to historic Dyea where your off-the-beaten-path excursion begins.

Chilkoot Trail Hike

The Chilkoot Trail, once a Tlingit trade route over the Coast Mountains, is a 33-mile (53-kilometre) trail through the Coast Mountains that leads from Dyea, Alaska, to Bennett, British Columbia. It was a major access route from the coast to Yukon goldfields in the late 1890s and today is the centre piece of the Gold Rush National Historical Park. During the Klondike Gold Rush, prospectors disembarked at the port in Dyea and used the Chilkoot Trail to head off in search of gold. Although Dyea is no longer the town it was, many animals such as brown and black bears feeding on salmon in July and August, and eagles are known to frequent this U.S. National Historic Landmark.

Begin your hike along the first two scenic miles (3.2 kilometres) of the Chilkoot Trail, now a tranquil place of incredible beauty. On this fast paced hike, walk through a rain forest alive with birds and wild flowers as your guide explains the natural history of the trail, as well as the folklore and legends of the gold-rush era.

Taiya River Float Trip

Arriving at the shore of the Taiya River, board an 18-foot (5.5 metre) inflatable raft for the relaxing trip back to Dyea. As you float along this scenic river, through the temperate rainforest, keep an eye out for the variety of fauna and flora in the valley. Although fed by small glaciers and the icefield, the water is relatively shallow. Gain a sense of what the early settlers experienced during this 40-minute trip.

Following the river voyage, come ashore to enjoy a light snack before the return drive to Skagway.

Please note: This tour is suggested for guests in good physical condition able to walk for approximately 2.5 miles (4 kilometres) over unpaved and uneven terrain with a 350-foot (over 100-metre) elevation gain. Total time on the river is approximately 30-40 minutes. This tour is not recommended for guests with limited mobility or those who utilise a wheelchair, or guests who exceed 350 pounds (158 kilos). Dress in layers, wear comfortable hiking shoes, and bring insect repellent and an extra pair of socks. Rubber boots, life jacket (for rafting), trekking poles and rain gear are provided where needed. Guests must sign a waiver to participate. Space is extremely limited; we suggest you book in advance to avoid disappointment.

SIT-L / SITKA SALMON FISHING

DIFFICULTY

Price: \$249; Duration: 4.00 hrs

Discover why Sitka is one of south east Alaska's best places for salmon fishing during this memorable fishing and wildlife-viewing experience. Depart the pier for the short walk to your fishing boat. Upon embarkation, proceed to Sitka Sound and its adjacent waters, then commence fishing for king, silver, chum, and pink salmon, depending on the month. Chinook salmon, 'Kings', are at the height of their season May through July. Coho salmon, or 'Silvers', peak in August and September. Chum or 'Dog' salmon run June and July and are great smoked. Pink salmon, or 'Humpies' as they are commonly called, start arriving in June and are fished until August.

Salmon fishing is performed via 'trolling'. When trolling, two to four lines are fished off downriggers while the boat is underway and hooked fish are played on a rotational basis.

After approximately three hours of fishing, return to the dock. If you wish, meet with the local fish processor to have your catch sent to your home (within the continental U.S.A.) Your fishing excursion concludes at the pier.

Please note: Alaska State law requires a fishing license be purchased for \$25 per person and an additional \$15 is required for a king salmon stamp, to be paid directly to the boat captain in cash. This tour requires some walking down a variable sloped ramp that can have a steep pitch depending on the tides and guests must be able to embark/disembark the boat. Guests with limited mobility can be accommodated; however, this tour is not suitable for those who utilise a wheelchair. The actual fishing time is approximately three hours. Dress warmly in layers and wear comfortable, rubber-soled shoes. All equipment is provided. You may catch and release; however, fish processing (vacuum packing and shipment) is available for an additional charge (credit cards are accepted). The catching of fish is not guaranteed. Catch cannot be brought to the ship.

These local waters jump with an abundance of salmon - the elusive King (Chinook) in May and June, the plentiful Pinks in June and July, and the fighting Silvers (Coho) salmon from mid-July through September. The preferred method of fishing is trolling by downrigger, with rods placed in holders and lowered to specific depths. Once the fish have been hooked, take the rod on a rotating basis in order to land the fish.

During your three and half-hour hunt for salmon, your skipper provides refreshments, fishing tips, and stories about the ones that did not get away. Keep an eye out for the local mammals and birds such as seals, sea lions, and sea otter. Eagles are known to swoop down near the salmon boats, fishing for their own catch of the day and allowing you a stellar photo opportunity.

Catch and release your salmon, or if you wish, your catch can be processed locally and shipped to your home (within the continental USA) for an additional charge. Return to the marina where your transfer vehicle awaits to take you back to the ship.

Please note: This tour requires a minimal amount of walking; however, guests must be able to walk about 100 yards (91 metres) up and down a steep ramp at the marina and board the boat by stepping over the bull rail. This tour is not suitable for guests who utilise a wheelchair. A fishing license must be purchased for \$25, plus an additional \$15 for the King Salmon stamp and these fees are to be paid in CASH directly to the boat captain. The minimum participant age is 5 years. Guests must weigh less than 300 pounds (136 kilograms/21.4 stone). Dress in layers and wear deck or rubber-soled shoes; rain jackets, fishing gear, tackle and bait are provided. You may catch and release. Fish processing (vacuum packing and shipment) is available for an additional charge (credit cards are accepted). The catching of fish is not guaranteed. Catch cannot be brought to the ship.

DIFFICULTY

Price: **\$3499** ; Duration: **2.75** hrs ; Capacity: **10**

Experience Alaska's pristine natural beauty and wildlife from a unique perspective during this half-day floatplane adventure to the Misty Fjords National Monument.

After meeting your pilot and boarding the floatplane, your narrated flight proceeds above Alaska's spectacular natural terrain. Once back aboard the plane, your visit to Misty Fjords concludes with an equally-scenic return flight to Ketchikan.
