General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 - 7 days prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) up to 7 days prior to your sailing date. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Please visit MySilversea (my.silversea.com) for the most up-to-date information. Discounts for children under 12 years of age are available on some, but not all tours. Silversea Cruises reserves the right to adjust itineraries and tour departures as local conditions dictate. Please note that pier departure times are also listed in MySilversea (my.silversea.com)

SILVERSEA SHUTTLE SERVICE

Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. Visby (Gotland) - Sweden

VBY-A / MEDIEVAL VISBY DIFFICULTY 

Price:\$99; Duration:3.50 hrs

This comprehensive tour will acquaint you with the rich history of Visby, the 'Town of Roses and Ruins.' Its interesting past dates from the Viking Age to the flourishing medieval period when Visby became a Hanseatic town. Many of the trading houses, churches and convents built during the Hanseatic era came into ruin when Visby gradually lost its importance as a trade town. Since the end of the 19th century, the ruins and the town wall are protected historical monuments. Today, Visby is known as one of Sweden's most beloved holiday resorts. Today you will enjoy the following highlights:

Högklint

From the port, the drive takes you a short distance along the coast to the Högklint viewpoint for a panoramic view of the walled town and the Baltic Sea.

Almedalen - The Valley of the Elm Trees

Next, visit the site of Visby's first harbour and where the Hanseatic town had its beginnings at the end of the 12th-century. Today the old harbour is a green park, popular for walking. Enjoy a leisurely walk through this 'Valley of the Elm Trees.' Note the Kruttornet (powder tower), Visby's oldest remaining structure.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Botanical Gardens

Continue your walk through these lovely gardens created in the middle of the 19th-century. Trees, bushes and flowers from all over the world thrive in this mild climate.

The Walled Town

Rejoining the coach, follow the fortress wall past Jungfrutornet (Maiden's Tower), part of the remaining almost two-mile long (three kilometres) 13th-century city wall to Dalmansporten. Continue with a guided walk down through the narrow, winding medieval streets passing the impressive Cathedral of St. Mary's, the only one of Visby's medieval churches still in use today. It has been beautifully restored, boasting baroque cupolas instead of the original spires.

Gotlands Fornsalen Museum

Gotland's historical museum is noted for its extensive collections reflecting 8,000 years of local history. Exhibits include the unique Iron Age picture stones and gold and silver treasures from the Middle Ages when Visby was a powerful Hanseatic town. The museum also has a fine gift shop, selling exclusive copies of articles displayed in the museum and genuine local handicrafts.

Afterwards, rejoin the coach and return to the ship.

DIFFICULTY

Price:\$79; Duration:2.00 hrs

Experience the historic landmarks of Tallinn in a unique new way during this Soviet-style tour exclusive to Silversea guests sightseeing excursion through Tallinn with a Soviet snack at Maarjamäe Memorial.

Tallinn

Board a Soviet VIP bus for a tour of Tallinn! This is the motto of the tour conducted in the style of histo-tainment by a militiaman Comrade Jerjomin. He is a charismatic person who can play guitar and flute, tell great stories about Soviet life, sing such Russian songs as Katyusha and Kalinka, and guide you around Tallinn. He demonstrates brilliantly how foreign tourists were welcomed in the USSR; line up, passport control and suspicious interviewing.

Vodka shots, pickles and other snacks smooth the throat while Soviet propaganda is made in the authentic Soviet bus.

Among the sites to be seen are: The 'unfinished bridge to Finland'-a monument to the Great Patriotic War (WWII) erected in Soviet Estonia, Estonia's pocket-sized Moscow-the Soviet housing complex Lasnamäe.

Visit Maarjamäe Memorial and enjoy a Soviet style snack in the bus. Jerjomin delivers a pie and a glass of local beverage that reminds him of his childhood. Enjoy a brief photo stop at the Pirita Olympic Center, built to host the 1980 Olympic Sailing events. On the way back to the pier, Jerjomin teaches participants some Soviet songs and some expressions in Estonian.

DIFFICULTY

Price:\$199; Duration:8.00 hrs

Embrace the two most popular museums of St. Petersburg - the world-famous Hermitage Museum and the new private Faberge Museum.

Hermitage Museum

No visit to St. Petersburg would be complete without a tour of the world-famous Hermitage Museum - the "Crown Jewel" on the museum list in St. Petersburg. Founded in 1764 as a private museum of Catherine the Great to which only she and her closest courtiers had access, today it is Russia's largest art museum that owns an astounding collection of about 3 mln pieces of art.

Start from the Jordan Staircase that will strike you with its splendor, the glimmer of the golden stuccowork and the dazzling whiteness of the marble statues. View the Winter Palace superb staterooms: the Field-marshal's Hall, the Small Throne Room commemorating Peter the Great and his deeds, the Emblem Hall with its vast gilded columns, the Gallery of 1812 displaying portraits of Russian military heroes of the Napoleonic war, the Hall of St. George fitted in Cararra marble and gilt bronze.

Marvel the Pavilion Hall with its slender marble columns supporting an elegant gallery and 28 scintillating cut-glass chandeliers. A real gem in the Hermitage collection is the famous Peacock Clock in a glass cage made by a celebrated English clockmaker in the middle 18th century and presented to Catherine II by her favorite, prince Potyomkin.

You will continue the tour moving from one building into another by covered galleries. Visit the Old Hermitage that houses a vast Italian collection of art boasting such names as Leonardo Da Vinci, Titian, Rafael and Michelangelo. Next, proceed to the New Hermitage and admire spacious Skylight Halls featuring 17-18th century Italian art and Spanish leading artists of the golden age from El Greco to Murillo, Zurbaran, Velasquez and Goya. Do not miss the Hermitage Rembrandt collection of 23 paintings as well as some great examples of Dutch and Flemish art.

Following your visit to the main Hermitage building, continue to the recently opened General Staff Building of the Hermitage Museum, which now comprises the famous Impressionists and Post-Impressionists collections. You will have a chance to marvel the works of Renoir, Monet, Gauguin, Van Gogh, Cezanne and others.

Next, take a break for lunch at a local restaurant within walking distance from the Hermitage.

Faberge Museum

The private Faberge Museum opened its doors at the renovated Shuvalov Palace in St. Petersburg on November 19, 2013. Here billionaire Viktor Vekselberg has placed his priceless collection of Faberge Eggs on display for the public. The collection includes over 4,000 works of art from the late 19th and early 20th century, including fifteen Faberge eggs, nine of which are the famous Imperial Faberge eggs previously owned by the Romanov family.

It took 10 years to create the current collection, and it is still growing. You will see many unique exhibits, among which are other works of the famous jeweler, royal silverware, precious icons and other religious ornaments, collection of paintings on enamel, other objects of decorative and applied art, paintings by famous Russian and foreign artists.

Viktor Vekselberg purchased the famous Malcolm Forbes Faberge Collection from the Forbes family in 2004 for about \$100 million. Most notable amongst this collection are the Rosebud Egg, Lilies-of-the-Valley Egg, Coronation Egg and, particularly the Hen Egg and the Order of St. George Egg that represent the first and last eggs received by Empress Maria, wife of Alexander III.

The first Faberge egg was crafted for Emperor Alexander III who had decided to give his wife Maria an Easter Egg in 1885 to celebrate the 20th anniversary of their betrothal. Known as the Hen Egg, this first Faberge egg was crafted from gold. Its opaque white enameled "shell" opens to reveal its first surprise - a matte yellow gold yolk. This in turn opens to reveal a multicolored gold hen that also opens.

Empress Maria was so delighted by the gift that Alexander appointed Faberge a "goldsmith by special appointment to the Imperial Crown" and commissioned another egg the next year. After that Peter Carl Faberge was apparently given complete freedom for future Imperial Easter Eggs, and their designs become more elaborate. It is believed that even the Tsar didn't know what form they would take: the only requirement was that each contain a surprise.

Vekselberg's nine Imperial Easter Eggs are of the 50 that are left in the world today. Ten are in the Moscow Kremlin Collection, five are at the Virginia Museum of Fine Arts in Richmond, Va., and Britain's Queen Elizabeth II. The whereabouts of eight are unknown. The others are in various displays throughout the U.S., Switzerland and Monaco.

Following the visit to the museum rejoin the coach for the transfer back to the pier.

Please note: This tour involves an extensive amount of walking for approximately 3-4.5 miles. This excursion is not suitable for guests with limited mobility or those who utilize a wheelchair. Due to the popularity of this venue, expect dense crowds, lines and a possibility of delays. Flash photography is not allowed. Flat, comfortable shoes are recommended and shorts are not permitted. LED-B / ST. PETERSBURG IN DEPTH

DIFFICULTY

Price:\$199; Duration:9.00 hrs

Enjoy the splendor of St. Petersburg during this memorable full-day experience visiting the magnificent Peterhof followed by lunch and inside visits to the remarkable landmarks of the city such as St. Isaac's Cathedra and Peter & Paul Fortress.

Depart the pier for a one-hour drive to Peterhof - the town of palaces, fountains and gardens, the most brilliant of all the former summer residences of the Russian tsars conceived by Peter the Great to rival Versailles. The grounds of Peterhof include the Upper and Lower Park and a number of delightful little palaces and pavilions. Crowning the hill is Peter's Grand Palace. It has a commanding view over the Lower Park and the Gulf beyond.

Peterhof Palace

Upon arrival to Peterhof you will proceed to the Upper Park designed as a French formal garden and enter the Grand Palace for an hour-long tour. The original palace was built for Peter the Great in 1714-25 and in 1745-55 it was remodeled to its present baroque glory by Bartolomeo Rastrelli, the favorite architect of Empress Elizabeth. Despite all the damage done to the Grand Palace during WWII, it has been carefully restored and is truly breathtaking.

Enjoy the palace's startling interiors: the Gala Staircase, the Dancing Hall, the Audience Hall and a suite of drawing rooms to Rastrelli's design. You will certainly be impressed by the classical decoration of architect Felton such as the Chesma Hall, the opulent Throne room, the White Dining Room with its unique Wedgwood dinner service. Peter's Oak Study is one of the few rooms to have survived unaltered from the days of Peter the Great. Some of the oak panels are originals by Nicolas Pineau.

Lower Gardens Tour

Descend into the Lower Gardens, a 300-acre fountain park with a number of pavilions and palaces overlooking the Gulf of Finland. The park comprises about 150 fountains including four cascades decorated with gilded statues of mythological characters. Enjoy a stop at the Grand Cascade, the largest fountain ensemble in the world that is justly considered the chief delight of the grounds. A great variety of fountains concentrated in the Lower Park includes the Checker Board Hill Cascade, Golden Hill Cascade, Lion's Cascade, Adam and Eva fountains, the Sun fountain, the Pyramid and lots of others.

After lunch, continue exploring the splendid art, architecture and beauty of the Russian Orthodox churches of St. Petersburg.

Your first stop in the city will be a visit to St. Isaac's Square, which is dominated by the magnificent St. Isaac's Cathedral.

St. Isaac's Cathedral

The opulent interior of this spectacular cathedral spans 43,000 square feet (4,000 square metres), and is filled with hundreds of impressive 19th-century works of art - the iconostasis of white marble with gilding and three rows of mosaic icons surrounding the Royal Gate flanked by two lapis columns and ten columns of malachite. The central iconostasis door reveals a stain glass window. Above the doors is Klodt's gilded sculpture, Christ in Glory. The icons in the church are 19th century design, executed in a virtuoso mosaic technique, with stones of thousand of tints laid out in such a smooth manner that only from a short distance the mosaic appears to be paintings. The interior of the dome, painted by famous Russian master Carl Brullov, depicts the "Virgin surrounded by Saints". The silver dove, hanging in the cupola, is a symbol of the Holy Spirit. Some 100 kg of pure gold went into gilding the huge dome. The décor of the church was most expensive. The architect used Russian rose

marble, gray marble from Finland, green from Genoa, yellow from Sienna; the floors are finished in Russian, Italian and French marble. 14 colored marbles and 43 other types of semiprecious stones and minerals were used for the decoration of the Cathedral.

A 15-minute photo stop will be made at the Spilled Blood Cathedral - one of the landmarks of the city. Next re-board your coach for the visit to Peter & Paul Fortress.

Peter and Paul Cathedral

Your final stop is at the Peter and Paul Cathedral, which stands in the heart of the Peter and Paul Fortress. Constructed between 1712 and 1733 by the first architect of the city Domenico Trezini, the Cathedral is the highest building in the city - 404 feet high. The spire of the church is topped by an angel holding a cross. This weather-vane is one of the most prominent symbols of St Petersburg.

The interior of the Cathedral is light and airy, with its glittering chandeliers, pink and green Corinthian columns and an opulent gilt iconostasis. This masterpiece of gilded woodcarving was designed by Ivan Zarubny and executed by Moscow Craftsmen.

After Peter's death in 1725, the Cathedral became the burial place of the tsars. All the tombs are of uniform white marble with the exception of especially remarkable tombstones over the graves of Alexander II and his wife Maria. They are carved out of monoliths - green Altai jasper (about 5 tons) and pink Ural rhodonite (over 6.5 tons). Peter himself chose a place for his own grave to the right of the iconostasis. A bronze bust of the tsar and a Pieta group above the tombstone distinguish it. It is often adorned with fresh flowers.

In July 1998 the remains of the last Russian tsar - Nicholas II, his wife and children and the servants who died together with them were buried in St. Catherine's chapel of the Cathedral.

Following your visit, re-board your coach for the approximately 30-minute return drive to the pier.

Please note: This tour involves an extensive amount of walking over flat, cobbled and gravel surfaces, with numerous stairs to negotiate and no elevators. This tour is not recommended for children or toddlers, guests with limited mobility or guests who utilise a wheelchair. Guests are encouraged to wear seasonal clothing and flat, comfortable shoes. Guests are provided with special overshoes to wear over their shoes inside the Grand Palace. Due to the popularity of this venue, expect dense crowds, lines and a possibility of delays. DIFFICULTY

Price: \$99; Duration: 4.00 hrs

Explore the history of Russian jewellery and view some of its most splendid pieces during this memorable visit to the Gold and Diamond rooms of the Hermitage.

Depart the pier for the scenic, approximate 30-minute drive to the Hermitage Museum. Upon arrival, a visit is made to the Diamond Room.

The Diamond Room

The Diamond Room is home to a significant collection of archaeological finds; the famous Scythian and Greek gold, numerous royal gifts and a fabulous collection of Western European jewellery crafted by the most prominent jewellers of the time. On display are numerous rings, pendants, watches, table decoration, fans, perfume bottles, and bouquets adorned with gold, enamels, emeralds, rubies, sapphires, and pearls once worn by royalty.

A portion of the exhibit is highlighted by a superb collection of royal snuffboxes fashioned by many brilliant masters of the 18th century. The 19th-century jewellery reached its culmination in the works of Carl Fabergé. His fantasy pieces are found throughout the world, and are represented in the collection of the Diamond Room by a copy of the Russian Royal Regalia made for the World Exhibition in Paris.

The Gold Room

A visit is then made to the Gold Room, which feature a unique; three-section collection of jewellery amassed over two centuries and designed by Russian, European and Oriental artists and craftsmen. It was known as the 'Treasure Gallery' under Catherine the Great and augmented to yet greater splendour by her successors.

LED-H / MYSTERIOUS STORIES IN RUSSIAN HISTORY

DIFFICULTY

Price: \$109; Duration: 4.00 hrs

During the 300 years of its existence St. Petersburg has acquired so much historical importance and witnessed so many turning events that there inevitably appeared a countless number of legends and mysterious stories. During this unique tour you will learn many interesting facts, rumors, legends and tales about tsars and nobles, writers and musicians, squares and streets, palaces and mansions.

Yusupov Palace

Depart the pier for a 30-minute transfer via coach to the Yusupov Palace associated with one of the most controversial personalities in the Russian history - Grigory Rasputin, and his dramatic assassination.

The Yusupov Palace on the Moika Embankment is an outstanding historic and architectural monument of the late 18th - early 20th centuries. It presents a fine example of the Russian classicism, full of quiet dignity and laconic chic, and preserves the memory of its noble owners, the Yusupov Princes whose wealth could be compared only to that of the Romanovs.

The Yusupovs were great collectors of art, and their collection was known well beyond Russia. After the revolution most of the collection was moved to the Hermitage, though traces of the incredible wealth that once kept this palace pulsating with life still remain: sitting rooms sumptuously decorated in various architectural styles, intricate chandeliers and candelabras, sculptures and paintings. Wandering around the halls of the Yusupov Palace that preserve a sense of the past, you will learn about the refined luxury, exquisite taste, and splendor of the high life, family happiness and human tragedies of the past.

You will be amazed by the sumptuously decorated Yusupov's private theater that looks like a cozy version of the Mariinsky. Composers Franz Liszt and Alexander Dargomyzhsky, opera singer Feodor Chaliapin and ballerina Anna Pavlova performed at concerts in this home theatre, a genuine gem of the Palace.

Not only is the Palace a remarkable architectural monument, but it is also one of the most mysterious places in the city, full of occult memories, a historical site, tied to the fall of Imperial Russia. It was here that Grigory Rasputin, a peasant who had gained control over the tsar's family through his alleged supernatural powers, was murdered by the young prince Felix Yusupov and his associates on the night of December 16-17, 1916, and his death was as mysterious as his life. Your guide will escort you to the cellar, where 'Madame Tussauds' style wax figures reconstitute the whole event for you.

Canal Boat Ride

Following the visit to Yusupov Palace embark a boat for a short cruise along the canals of St. Petersburg that is often called "Venice of the North". Enjoy the beautiful palaces, mansions and churches from a totally different perspective.

Spilled Blood Cathedral

Your next stop is the stunning Spilled Blood Cathedral - certainly one of the symbols of St. Petersburg. This marvelous Russian-style multicolored, onion-domed church was built on the spot where Emperor Alexander II was assassinated on March 1, 1881. Emperor Alexander III decided to build a church at the spot where his father was mortally wounded. Constructed in 1883-1907, the church is designed in the spirit of sixteenth- and seventeenth century Russian architecture, inspired particularly by St. Basil Cathedral on the Red Square in Moscow.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

The church stands out for its complicated and picturesque outline, as well as rich and multicolored decoration. Both the interior and exterior of the church is decorated with incredibly detailed 7000 square meters of mosaics, designed and created in Frolovs' workshop to the originals by the most prominent Russian artists of the day: Vasnetsov, Nesterov, Riabushkin and Vrubel. These mosaics are far from being ordinary; their surface was left unpolished, so that they reflect sunlight, which impresses visitors to present day. Inside the cathedral the very spot of the assassination is marked with a marble Shatrovy Cen, a monument to Alexander.

The facades are faced with glazed shaped brick and ceramic tiles as well as decorated with mosaic panels. In the decor of interiors Italian marbles and Russian semiprecious stones are used. Five cupolas of the church, some 1000 square meters in area are covered with jewelry enamel. The belfry is decorated with mosaic coats-of-arms of cities and regions of the Russian empire. The church is interesting as a kind of an architectural accent in classical surroundings.

Please note: Tour involves moderate walking with stairs to negotiate and is not suitable for guests who use a wheelchair. We suggest guests dress in seasonal attire and wear flat, walking shoes. In the event of inclement weather, the boat ride may be substituted with a coach transfer. Order of sites visited may vary.

St Petersburg - Russian Federation

LED-D / CATHERINE'S PALACE, PARKS & PAVLOVSK

DIFFICULTY

Price:\$179; Duration:8.00 hrs

Explore St. Petersburg's most spectacular suburban residences during this memorable, full-day tour of the Catherine and Pavlovsk Palaces.

Catherine Palace

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Following an hour-long drive, you will tour the Catherine palace that is considered to be one of the masterpieces of the world architecture. The lavish imperial palace was designed by architect Rastrelli in 1752 for Empress Elizabeth. She named it Catherine Palace in honor of her mother, Catherine I, who originally owned the estate.

You start the tour of the palace from the Great staircase by Monighetty which takes you to the state rooms on the first floor. The interior consists of a seemingly interminable succession of state-rooms, which give the impression of a golden corridor. The highlight of the visit is the splendid Great Hall. Light streams into this glittering hall illuminating the mirrors, gilded carvings and the vast ceiling painting. Of special interest is the Amber Room of the palace that was once considered to be the "Eighth Wonder of the World". You will learn the fascinating story of this room.

After the palace tour, take a brief guided stroll in the 1,400-acre (566-hectare) park. Following your visit to Catherine's Palace, re-board your coach and proceed to a *Podvorie Restaurant* for a traditional Russian lunch accompanied by folkloric music.

Pavlovsk Palace

Following lunch, you will visit the Palace of Pavlovsk, one of Russia's most beautifully restored palaces which belonged to Emperor Paul I and his wife Maria. The palace remained a residence of the Romanov family until 1915. Though the palace and the park were destroyed in 1941-44, they have been completely restored and present the most complete picture of a royal suburban residence. Pavlovsk is a place that has retained an atmosphere of warm intimacy and sumptuous coziness, which still enchants visitors.

Following your palace tour, take a guided walk in the romantic, 1,800-acre (728-hectare) Pavlovsk Park, one of the finest landscaped parks in Europe. Leaving Pavlovsk Park, re-board your coach for the approximate 1.25-hour return drive to the pier.

Please note: This tour involves an extensive amount of walking, at times over flat and gravel surfaces, with many steps to negotiate inside the palaces. This tour is not recommended for infants and toddlers, guests with limited mobility or guests who utilise a wheelchair. There are no elevators inside the palaces. Guests are encouraged to wear layered clothing and flat, comfortable shoes. Guests are provided with special slipcovers to wear over their shoes inside the palaces. Expect dense crowds, lines and a possibility of delays at the palaces. The tour sequence may vary.

LED-F / PERSONAL TREASURES FROM ST. PETERSBURG - SHOPPING!

DIFFICULTY

Price: \$69; Duration: 3.50 hrs

Find your own treasures and memories to take back home during this half-day shopping and browsing opportunity. This program will allow you some free time in the city at your leisure.

Your tour will begin with a short drive to the Square of Arts dominated by the famous monument to Alexander Pushkin. Every single building facing the square is either a theater or a museum. Here you will find the world-known Russian Museum, the Museum of Ethnography, Mikhailovsky Theater of Opera and Ballet and the State Philharmonic Society. Here the coach will be waiting for you while you enjoy time at leisure walking and shopping along the city's main street - Nevsky Prospect.

Nevsky Prospect, certainly one of the best-known streets in Russia. Cutting right through the St. Petersburg historical center, it runs from the Admiralty to the Moscow Railway Station and then, making a slight curve, to the Alexander Nevsky Monastery. Since the 18th century it has been the very center of the bustling, rapidly growing city. The street is lined with some of St. Petersburg's most impressive buildings, including beautiful palaces, theaters and churches. You will be passing the beautiful Cathedral of Our Lady of Kazan, the Catholic Church of St. Catherine, and view the fairytale Spilled Blood Cathedral. Nevsky is also the main shopping area for the citizens and guests of St. Petersburg. Here you will find such large shopping centers as Gostiny Dvor, Passage and Grand Palace Boutique Gallery.

The guide will assist and direct you to the type of treasure you are seeking.

After approximately 2,5 hours of free time in the city center with your guide close at hand, re-join the coach for the 20-minute drive back to the pier.

Please note: This is not a guided tour, but a programme that will allow you to have some free time in the city-centre under the supervision of a licensed guide. An individual visa is not required for this programme. This programme involves minimal to moderate walking and is suitable for guests with limited mobility and for those who use a wheelchair. Guests must be able to embark and disembark the coach with minimal assistance. We recommend guests dress in seasonal attire and wear flat walking shoes. Major credit cards and Rubles are accepted in the main stores.

LED-J / PETERHOF PALACE & HYDROFOIL RIDE

DIFFICULTY

Price: \$119; Duration: 4.50 hrs

Take a tour to Peterhof - the town of palaces, fountains and gardens, the most brilliant of all the former summer residences of the Russian tsars conceived by Peter the Great to rival Versailles.

The grounds of Peterhof include the Upper and Lower Park and a number of delightful little palaces and pavilions. Crowning the hill is Peter's Grand Palace. It has a commanding view over the Lower Park and the Gulf beyond.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Peterhof Grand Palace

Upon arrival to Peterhof you will proceed to the Upper Park designed as a French formal garden and enter the **Grand Palace** for an hour-long tour. The original palace was built for Peter the Great in 1714-25 and in 1745-55 it was remodeled to its present baroque glory by Bartolomeo Rastrelli, the favorite architect of Empress Elizabeth. Despite all the damage done to the Grand Palace during WWII, it has been carefully restored and is truly breathtaking.

Enjoy the palace's startling interiors: the Gala Staircase, the Dancing Hall, the Audience Hall and a suite of drawing rooms to Rastrelli's design. You will certainly be impressed by the classical decoration of architect Felton such as the Chesma Hall, the opulent Throne room, the White Dining Room with its unique Wedgwood dinner service. Peter's Oak Study is one of the few rooms to have survived unaltered from the days of Peter the Great. Some of the oak panels are originals by Nicolas Pineau.

Lower Gardens Tour

Descend into the Lower Gardens, a 300-acre fountain park with a number of pavilions and palaces overlooking the Gulf of Finland. The park comprises about 150 fountains including four cascades decorated with gilded statues of mythological characters. Enjoy a stop at the Grand Cascade, the largest fountain ensemble in the world that is justly considered the chief delight of the grounds. A great variety of fountains concentrated in the Lower Park includes the Checker Board Hill Cascade, Golden Hill Cascade, Lion's Cascade, Adam and Eva fountains, the Sun fountain, the Pyramid and lots of others.

Following an hour-long tour of the grounds, board a comfortable hydrofoil and commence on a 30-minute return ride to St. Petersburg.

Please note: This tour involves an extensive amount of walking over flat and gravel surfaces, with numerous stairs to negotiate and no elevators. LED-JG / PETERHOF PALACE & HYDROFOIL RIDE GUIDED IN GERMAN

DIFFICULTY

Price:\$119; Duration:4.50 hrs

Take a tour to Peterhof - the town of palaces, fountains and gardens, the most brilliant of all the former summer residences of the Russian tsars conceived by Peter the Great to rival Versailles.

The grounds of Peterhof include the Upper and Lower Park and a number of delightful little palaces and pavilions. Crowning the hill is Peter's Grand Palace. It has a commanding view over the Lower Park and the Gulf beyond.

Peterhof Grand Palace

Upon arrival to Peterhof you will proceed to the Upper Park designed as a French formal garden and enter the **Grand Palace** for an hour-long tour. The original palace was built for Peter the Great in 1714-25 and in 1745-55 it was remodeled to its present baroque glory by Bartolomeo Rastrelli, the favorite architect of Empress Elizabeth. Despite all the damage done to the Grand Palace during WWII, it has been carefully restored and is truly breathtaking.

Enjoy the palace's startling interiors: the Gala Staircase, the Dancing Hall, the Audience Hall and a suite of drawing rooms to Rastrelli's design. You will certainly be impressed by the classical decoration of architect Felton such as the Chesma Hall, the opulent Throne room, the White Dining Room with its unique Wedgwood dinner service. Peter's Oak Study is one of the few rooms to have survived unaltered from the days of Peter the Great. Some of the oak panels are originals by Nicolas Pineau.

Lower Gardens Tour

Descend into the Lower Gardens, a 300-acre fountain park with a number of pavilions and palaces overlooking the Gulf of Finland. The park comprises about 150 fountains including four cascades decorated with gilded statues of mythological characters. Enjoy a stop at the Grand Cascade, the largest fountain ensemble in the world that is justly considered the chief delight of the grounds. A great variety of fountains concentrated in the Lower Park includes the Checker Board Hill Cascade, Golden Hill Cascade, Lion's Cascade, Adam and Eva fountains, the Sun fountain, the Pyramid and lots of others.

Following an hour-long tour of the grounds, board a comfortable hydrofoil and commence on a 30-minute return ride to St. Petersburg.

Explore the magnificent beauty and amazing restoration of the Catherine Palace during this scenic and informative half-day visit to Pushkin.

Depart the pier for a scenic, one-hour drive to Pushkin. En route, pass by the landmarks, industrial and residential areas of St. Petersburg. Upon arrival to the parking area, leave the coach for an approximately 15-minute walk to the palace complex, which is embellished with blue and gold tones.

Catherine Palace

Located in Tsarskoye Selo, or 'Tsar's Village', the estate was presented by Peter the Great to his wife Catherine in 1710, and served as the Imperial family's summer residence until the time of the last tsar. A romantic park with mysterious arbours, pavilions, grottoes, and statues surrounds the Catherine Palace. Upon arrival, admire the palace's beautiful, 984-foot (300-metre) azure facades, and then ascend the Great Staircase en route to the beautiful staterooms on the second floor. See the Picture Gallery, Green Dining Room, and the gilded and opulent Great Hall, where official balls and receptions were held.

The highlight of your visit is the restored Amber Room, opened to the public in May 2003 to coincide with the 300th anniversary of St. Petersburg. German emperor Frederick William I originally presented the approximate 16-foot (about 5-metre) high mosaic panels consisting of nearly 100,000 perfectly-fitted pieces to Peter the Great. They were dismantled by German troops in 1941 and shipped to Germany, never to be found again. In 1982, Russian architects and craftsmen studied the old methods of working with amber, and began re-creating the panels and restoring the Amber Room to its original glory.

Following your visit, take a guided, 45-minute walk through the 1,400-acre (566-hectare) park en route to the coach, then commence the one-hour return drive to the pier.

Please note: This tour involves an extensive amount of walking, and numerous steps to negotiate. This tour is not recommended for infants or toddlers, guests with limited mobility and guests who utilise a wheelchair. Guests are encouraged to wear seasonal clothing with flat, comfortable shoes. LED-M / BACK TO THE TIME OF PETER THE GREAT

DIFFICULTY

 Price:\$99; Duration:4.00 hrs

The whole world knows that St. Petersburg owes its existence to Peter the Great for all the great accomplishments of his reign including the foundation of a new city on the banks of the Neva River, a new capital of Russia which became the countries "window to the West". On this tour you will visit several sights that still remember the great tsar and retain the atmosphere of the early 18th century.

Menshikov Palace

Depart the pier for a 15-minute coach ride to enjoy an inside visit to the Palace of Alexander Menshikov (1673-1729) who was the best friend and companion of Peter the Great. He came from a very humble background, but was quickly promoted by Peter and eventually became the Governor General of St. Petersburg. Many constructions of the new capital were carried out under his supervision, including the Peter and Paul Fortress and Kronshtadt. Being the Governor General, he commissioned for himself a large palace on Vasilevsky Island where he lived until 1727. The palace was the most luxurious mansion in St. Petersburg and was therefore chosen to host various official functions.

After Peter's death in 1725, Menshikov did his best to ensure that the throne would pass safely to Peter's wife Catherine I, and during the two years of her reign Menshikov effectively ruled the country. In 1727, a few weeks before his daughter's marriage to the young Emperor Peter II, Menshikov was accused of treason and embezzlement and was exiled with his whole family to Siberia where he died in poverty two years later.

Today Menshikov Palace is part of the Hermitage Museum. On the tour of the Palace you will view the original interiors, including the hall, the gala staircase, some rooms decorated in Dutch style with tiles covering the walls and the ceilings. The interiors of the palace are adorned with gold, silver, marble, precious kinds of wood, paintings, moldings, antique Italian sculptures, large Venetian mirrors, crystal chandeliers, walls are upholstered with Chinese silk and tapestries. The palace features rich collections of applied art, sculpture, coins and canvases by Russian and European artists. The Walnut study is especially remarkable. The restorers of the study discovered a fresco dating back to the first quarter of the 18th century under the plafond painted in 1717-1719 by F. Pilmann. It depicts Peter the Great as a victorious warrior.

Log Cabin of Peter the Great

Following the tour of the Menshikov Palace, you will reboard your coach and drive to the Peter's Embankment where the earliest structure of the city still stands - the Log Cabin of Peter the Great. It was built in May 1703 by a team of soldiers for the Tsar just in three days and Peter stayed there from 1703 to 1708. The cabin is only 60 square meters in area. In 1784 the original wooden house was hidden from wind and rain inside a red-brick pavilion, so you will follow your guide inside that brick "case" to view the cabin with your own eyes, but only from outside. However through the open windows you will be able to see the interior of this tiny house - a strange combination of a traditional Russian *izba* and a Dutch home with large and elaborate windows and high roof, covered with wooden tiles. The living room, the bedroom, and the study, filled with Peter's original belongings, still bear the mark of his presence.

During the Second World War the Cabin of Peter the Great was the first museum to reopen in 1944 after the dramatic 900-day Siege of Leningrad.

Summer Garden Stroll

Across the river from the Log Cabin you can find an old park behind the beautiful wrought iron fence - the Summer Garden. It was the first garden of the new city intended for public promenades and it witnessed the most spectacular moments of the city's early history. It was laid out in the regular geometrical design fashionable in Europe in the early 18th century: all trees and bushes were trimmed in the most elaborate way, all the alleys were decorated with Italian marble statues and fountains. Inside the Summer Garden you will also view from the outside the Summer Palace of Peter I (now on restoration) - a beautiful example of St. Petersburg's early 18th century architecture.

Scenic Boat Cruise

Following the walk around the Summer Garden, proceed to the pier located in front of the main entrance to the Garden for a 45-minute boat ride to view more of the city's sites from the water. St. Petersburg was built around a network of canals and rivers, with a total length of about 300 km. They contribute to the unique atmosphere creating a glittery mirror in which the golden domes and fairytale palaces of the city are reflected.

The boat ride ends at the pier where you re-board the coach for the transfer back to your ship.

Please note: Tour involves extensive walking over uneven surfaces, and numerous steps to negotiate. It is not recommended for guests with limited mobility or for those who use a wheelchair. We suggest wearing seasonal clothes. The route of the boat ride may vary due to high water level and bridge repair works. In case of stormy weather, the boat ride may be cancelled

LED-N / FABERGE MUSEUM AND CANAL BOAT RIDE

DIFFICULTY

 Price:\$109; Duration:4.00 hrs

This tour will introduce you to the treasures of Russian jewelry art exhibited in the private Faberge Museum, and allow you to enjoy the great city views from water in a leisurely manner.

Faberge Museum

The private Faberge Museum opened its doors at the renovated Shuvalov Palace in St. Petersburg on November 19, 2013. Here billionaire Viktor Vekselberg has placed his priceless collection of Faberge Eggs on display for the general public.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

The collection includes over 4,000 works of art from the late 19th and early 20th century, including fifteen Faberge eggs, nine of which are the famous Imperial Faberge eggs previously owned by the Romanov family.

It took 10 years to create the current collection, and it is still growing. You will see many unique exhibits, among which are other works of the famous jeweler, royal silverware, precious icons and other religious ornaments, collection of paintings on enamel, other objects of decorative and applied art, paintings by famous Russian and foreign artists.

Viktor Vekselberg purchased the famous Malcolm Forbes Faberge Collection from the Forbes family in 2004 for about \$100 million. Most notable amongst this collection are the Rosebud Egg, Lilies-of-the-Valley Egg, Coronation Egg and, particularly the Hen Egg and the Order of St. George Egg that represent the first and last eggs received by Empress Maria, wife of Alexander III.

The first Faberge egg was crafted for Emperor Alexander III who had decided to give his wife Maria an Easter Egg in 1885 to celebrate the 20th anniversary of their betrothal. Known as the Hen Egg, this first Faberge egg was crafted from gold. Its opaque white enameled "shell" opens to reveal its first surprise - a matte yellow gold yolk. This in turn opens to reveal a multicolored gold hen that also opens.

Empress Maria was so delighted by the gift that Alexander appointed Faberge a "goldsmith by special appointment to the Imperial Crown" and commissioned another egg the next year. After that Peter Carl Faberge was apparently given complete freedom for future Imperial Easter Eggs, and their designs become more elaborate. It is believed that even the Tsar didn't know what form they would take: the only requirement was that each contain a surprise.

Canals of St. Petersburg

After visiting the museum, board a canal boat for an hour long ride along the rivers and canals of St. Petersburg to view more of the city's sites from the water. St. Petersburg was built around a network of canals and rivers, which contribute a lot to the great atmosphere of this "Venice of the North".

The canal boat ride ends at a pier where you will re-board the coach for the transfer back to the ship.

Please note: This tour involves a moderate amount of walking, with a few steps to negotiate. This tour is suitable for guests who utilise a wheelchair who can get on and off the coach and boat with little assistance. Canal boat and canal boat pier are not wheelchair accessible. Guests are encouraged to wear layered clothing and flat, comfortable shoes. Photo and video are not allowed in the Faberge Museum. Due to the popularity of this venue, expect dense crowds, lines and a possibility of delays. The order of sites visited may vary. The route of the boat ride may vary due to high water level and bridge repair works. In case of stormy weather, the boat ride may be cancelled

LED-P / THROUGH THE EYES OF RUSSIANS

DIFFICULTY

Price: \$79; Duration: 3.50 hrs

Dramatic political, economic and social changes in Russia have attracted attention of the whole world. Yet, the fact remains that few westerners really understand life in today's Russia. Enjoy a unique look inside country's life affected by the collapse of the Communist regime and subsequent liberalization of the country.

Your tour will start with a short drive to one of the closest underground stations.

Metro Ride

The St. Petersburg subway that is called "metro" in Russian is certainly worth a visit. The first plans to build a metro in St. Petersburg were drawn in 1899, but were not implemented due to the outbreak of WWI and then the Revolution of 1917. In 1941, 8 years after the Moscow metro was opened, construction works began on the Leningrad metro, but a few months later the U.S.S.R. was forced to enter WWII. After the war the construction work resumed and the first metro line (from Avtovo to Ploschad Vosstania) was opened on November 15, 1955 linking all the five railway stations of the city.

From the moment it opened, it was acclaimed as one of the best in the world not only because of its efficiency and cleanliness, but also for its architecture. Today it is the quickest, safest, most reliable and comfortable means of travel. Most of the stations are equipped with escalators. The older stations are richly decorated with polished granite, marble of various colors, stainless steel, bronze, aluminium, synthetic materials, glass, various mosaics, bas-reliefs and sculptures. The new stations are mostly simple and modern in design, but not less impressive. Each station has its own unique design.

The St. Petersburg Metro is also the deepest subway in the world with some stations located more than 100 meters under the ground surface.

Farmer's Market

You will leave Metro at one of the central stations and find yourself near the **Kuznechny FoodMarket**. Follow your guide to the market and enjoy a huge variety of food sold there as well as friendly atmosphere. You will even have a chance to sample some of the food.

Russian Vodka Tasting

After the visit to the market, continue to a local Russian restaurant for an enjoyable vodka tasting. You will be treated to a variety of vodkas together with traditional Russian condiments served to complement this famous Russian drink before your return to the ship.

Please note: This tour involves an extensive amount of walking and is not suitable for guests with limited mobility or those who utilise a wheelchair. Guests are encouraged to wear seasonal clothing with flat, comfortable shoes. Photos and video are not allowed during the
