General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 - 7 days prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) up to 7 days prior to your sailing date. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. Sorrento - Italy

RRO-A / ANCIENT POMPEII

DIFFICULTY

Price:\$119; Duration:4.50 hrs

The famous archaeological site of Pompeii is regarded as the world's finest example of an ancient Roman town, and offers visitors an insight into the life of a bygone era. Buried for centuries, it was not until 1748 that the Pompeii was rediscovered and its excavations began. Explore the ruins of this city on this half-day excursion.

After tendering ashore, board the local shuttle to the uptown meeting point where your coach will be waiting. A drive of approximately 45-60 minutes takes you to the excavated town of Pompeii. En route, you may be able to catch a glimpse of Mount Vesuvius.

Pompeii

Upon arrival in Pompeii, your guided walking tour begins through the ancient streets, providing a unique opportunity to learn about the historical events and the tragic end of the city's 20,000 people. The catastrophic eruption of Mount Vesuvius in 79 A.D. surprised the population of this prosperous provincial capital and resort town, burying it under 20 feet (6 metres) of ash and pumice stone, yet preserving an entire city.

City Tour

See the mansions and artwork of the wealthy residents who moved to Pompeii to escape the turmoil of Ancient Rome. On display are numerous paintings and inscriptions, including notices about wine sales, apartment vacancies, upcoming events, political announcements, and even personal love notes. In addition to several homes, highlights also include the Forum, open and covered theatres, and the Stabian Baths. The pathways are endless and the buildings fascinating. Some of the mansions still retain their original marble decorations, well-preserved frescoes and splendid mosaics. Following your visit to this amazing site, return to the coach parking area and re-board your coach for the drive back to Sorrento.

Upon arrival at the bus terminal, change to the local shuttle bus for the ride down to the harbour, or remain in the main centre for individual exploration and return to the ship on a later shuttle (time permitting).

Please note: This tour takes place entirely on foot and requires an extensive amount of walking on cobblestones and uneven surfaces. This tour is not suitable for guests with limited mobility or those who utilise a wheelchair. Comfortable walking shoes are recommended. A minimum number of guests per guide are required to operate this programme.

Explore the small streets and walk in the footsteps of history where the beauty of this ancient place comes alive.

Amalfi Coastal Drive

On arrival at the pier, shuttle buses take you to the upper terrace of Sorrento where your coach awaits. Travel approximately 1.5 hours along the Amalfi Drive. Pass Positano, a pretty fishing village, which has become a colony of artists and writers.

Amalfi

Amalfi is a romantic, Moorish-style resort town overlooking the Bay of Salerno at the foot of the steep Lattari Hills. In the center of the town stands the 11th-century Cathedral of St. Andrew, said to hold the remains of the apostle. Head out from the Piazza del Duomo and explore the narrow alleyways lined with shops and boutiques and enjoy free time for own lunch.

Walking Tour

For those interested, follow your guide and visit the monumental complex of the Cathedral of St. Andrew: the Bell Tower, the Cloister of Paradise, the Basilica of Crucifix, with its frescoed chapels and the museum with sacred treasure, The Crypt, built in 1206 to hold the sacred remains of St. Andrew Apostole, the Moorish style Cathedral, which features stunning the 11th century bronze door from Constantinople.

Continue on to the Amalfi Paper Museum, located in a 14th century medieval paper-mill and which hosts machineries and instruments used in the ancient paper-mills. The ancient technologies, restored and active, reconstruct the entire production cycle of the paper. Among the century-old tools in the museum it is possible to admire the ancient wooden mauls, operated by a hydraulic wheel; the press used to remove the water in excess from the paper; the continuous printing machine. The museum gives also the opportunity of assisting the handmade paper production and the functioning of the ancient water-mills, moved by the waters of the Canneto torrent.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Amalfi

In the centre of the town stands the 11th-century Cathedral of St. Andrew, said to hold the remains of the apostle. Upon arrival, your guide leads you to the main square, the Piazza del Duomo pointing out the main highlights, including the cathedral along the way. The next two hours are yours to explore the narrow alleyways lined with shops and boutiques and enjoy free time and lunch at any one of its many cafés on your own.

At the designated time, re-board the coach at the meeting area for the return drive to Sorrento via Vietri sul Mare.

Please note: This tour requires a moderate amount of walking, some of which is up/down inclines and over uneven surfaces. The majority of walking is at each guest's discretion and this tour is suitable for guests with limited mobility. It's the perfect microcosm of Mediterranean appeal - a smooth cocktail of chichi piazzas and cool cafes, Roman ruins and rugged seascapes.

Ana Capri

While in Ana Capri, browse the many shops or explore some of the main attractions. Visit the famous Villa San Michelle, or take a ride on the chair-lift to Monte Solaro, the highest point on the island and a favourite of Emperor Augustus. Ample time is made available for lunch in one of the hotels or seaside cafés (*al fresco* dining is recommended). Next, re-board the mini-bus for the brief drive to lovely Capri Town.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

The total time spent in Positano is approximately 1.5 hours. A minimum number of participants are required to operate. This tour is not suitable for children under 12. Nora

Continue to the ancient Roman and pre-Roman town of Nora situated on a peninsula near Pula and Cagliari in Sardinia. Nora was an important trading town in its time, with two protected harbours, one on each side of the peninsula. According to legend, Nora was founded by a group of Iberians from Tartessus led by Norax, a mythological hero (the son of Eriteide and the god Hermes). It is believed to be the first town founded in Sardinia and to have been settled by the ancient Sherden or the Nuraghi people, and later colonized by Phoenicians.

The Nora Stone, a Phoenician inscription found at Nora in 1773, has been dated by paleographic methods to between the late 9th century and early 8th century BC, and has been interpreted as referring to a Phoenician military victory and conquest of the area. After a period of domination by Carthage the town came under Roman control after the conquest of Sardinia in 238 BC. It went into decline from the 4th century AD and appears to have been abandoned during the 8th century.

Several different building styles can be seen in the excavated buildings. Visit a promontory in the foreground of a 16th-century tower. DIFFICULTY

Price:\$129; Duration:9.50 hrs

Discover the exquisite beauty, art and architecture of Florence during a full-day tour of this historic city, along with some time for independent shopping and exploration.

Florence is the Italian city most celebrated by artists and poets. Each street, palace and building is living evidence of its glorious past and proud people.

Depart the pier in Livorno via coach for the approximate two-hour drive to Florence, with a comfort stop made en route. Upon arrival, meet your guide and commence your walking tour of the city.

Piazza del Duomo

Your tour begins at the Piazza del Duomo, where an inside visit is made at the huge Cathedral, St. Mary of the Flower. The church is adorned with an impressive façade decorated in white, green and pink Tuscan marble. Highlights to be seen during your visit include the Bell Tower, designed in 1334 by Giotto, and the Baptistery. Its celebrated doors, known as the 'Gates of Paradise', were commissioned in 1401 and designed by Lorenzo Ghiberti.

Piazza della Signoria

Your next stop is the Piazza della Signoria. It is Florence's second major piazza, and the political centre of the city because of its Town Hall, or 'Palazzo Vecchio'. The Piazza della Signoria is also known as an open-air museum thanks to its many statues, which include Cellini's Perseus, Giambologna's The Rape of the Sabine Women, Ammannati's Neptune Fountain and a replica of Michelangelo's famous David.

Ponte Vecchio

Your tour continues on with a visit to Ponte Vecchio, also known as the 'Old Bridge'. Ponte Vecchio dates back to 1345, and is the only bridge in Florence to escape being blown up during World War II. It originally housed the workshops of the butchers before they were driven away by the Grand Duke, Ferdinando I, due to the terrible noise and stench they created. Ponte Vecchio was subsequently used as a workplace for goldsmiths and silversmiths; their shops still remain here to this day.

Piazza di Santa Croce

The final stop on your guided tour is the eastern quarter of Santa Croce, home of the Piazza di Santa Croce. Upon arrival, an outside visit is made to the Franciscan Basilica that dominates this large square. Over the years, the basilica's construction involved a renowned cast of Florentine architects and masters, including Brunelleschi, Vasari, Giotto and Donatello. Each summer, the Piazza Santa Croce plays host to the 'Calcio in Costume'. During this historical game, the hefty men of the four quarters of Florence battle it out in an ancient mix of wrestling and soccer, and are cheered on by residents and visitors alike. For most of the year, however, the square is a peaceful open space surrounded by stately palazzo, and intimate pizzerias and restaurants.

Following your guided tour, ample time is made available for lunch on your own and shopping. At the conclusion of your visit, walk from the Piazza Santa Croce to the pick-up point at Lungarno Pecori Giraldi, then re-board your coach for the 1.5-hour return drive to the pier.

Please note: This tour requires an extensive amount of walking, some of which is over cobblestone streets. It is not recommended for guests with limited mobility or those who utilise a wheelchair. On Sundays and religious holidays, inside visits of cathedrals and churches are not possible due to religious services in progress. Headsets are provided during the guided tour of Florence. A minimum number of guests per guide are required to operate this programme.

LIV-C / MEDIEVAL LUCCA

DIFFICULTY

Price:\$79; Duration:4.25 hrs

Explore the fascinating streets and squares of Lucca during a scenic and memorable half-day tour of this historic medieval city. Lucca endears itself to everyone who visits, hidden behind imposing Renaissance walls with cobbled streets, handsome piazzas and shady promenades; it makes for a perfect destination to explore by foot.

Depart the pier for the approximate 45-minute drive to Lucca. Upon arrival, your tour begins inside the massive red bricks walls, which were built between 1504 and 1645, and are amongst the best-preserved Renaissance defenses in Europe.

Lucca

Lucca is enclosed by massive red brick walls, which help to give the city its special character by shutting out traffic and the modern world. Within these walls, Lucca is a peaceful city of narrow lanes, preserving intact its ancient Roman street plan. Unlike several other Tuscany's cities, Lucca is flat; many locals use bicycles, which impart an additional charm to the city. This memorable outing is ideal for those looking to experience a Tuscan city that is rich in history, art and architecture, but is hidden from the crowds of tourists.

Church of San Michele

Along the way, an outside visit is made to the Church of San Michele in Foro, which stands on the site of the ancient Roman Forum. It has a wonderfully-rich Pisan Romanesque façade that competes in splendour with that of St. Martin.

Guinigi Tower

Another outside visit is then made to the Guinigi Tower, one of many in Lucca that belonged to the Guinigi family, rulers of the city in the 15th century. The tower has a small roof garden, with some trees sprouting incongruously at the top.

Anfiteatro Romano

Next, proceed to the Anfiteatro Romano, formerly the ancient Roman Amphitheatre. Today, it is enclosed by medieval houses that were built up against the walls of the amphitheatre. It's perfectly-preserved shape reminds us that Lucca was founded by the Romans in 180 B.C.

Church of San Frediano

From here, continue on to the Church of San Frediano, which is adorned with a striking façade and a 13th-century mosaic (outside visit only). Inside, there is a splendid Romanesque font and beautiful frescoes. In the chapel dedicated to Santa Zita, her well-preserved body is interred.

Church of San Martino

Your next stop is the Church of San Martino (outside visit only). Lucca's extraordinary cathedral, its façade abuts incongruously on to the campanile. St. Martin is the Roman soldier depicted on the façade dividing his cloak with a sword to share with a needy beggar.

Via Fillungo

The guided portion of your visit concludes at Via Fillungo, Lucca's principal shopping street, which winds its way through the heart of the city towards the Roman Amphitheatre.

Following your walking tour, some free time is made available for exploring the area and browsing the shops at your leisure before re-boarding your coach for the return drive to the pier.

Please note: This tour requires a moderate amount of walking for approximately 3.5km (2.17 miles), some of which is over cobblestone surfaces, and there are steps to climb. It is not suitable for guests with limited mobility or those who utilise a wheelchair. There will be an exterior visit only should a mass be in progress at the church. Guests may be able to enter on an individual basis to view the interior. Tour sequence may vary.

LIV-D / MONUMENTS OF PISA

DIFFICULTY

Price: \$99; Duration: 4.25 hrs

Discover the beauty of Pisa during this scenic, half-day tour of the city's historic landmarks, including the world-renowned Leaning Tower of Pisa. Since the beginning of the tourist brochure, Pisa has been known for just one thing, the Leaning Tower. However, this world-renowned landmark is but one component of the city's amazing religious core, the Campo dei Miracoli. Here, the Duomo, Baptistery and Camposanto complete an unrivalled quartet of medieval masterpieces. These and a dozen or so churches and *palazzo* scattered about the town belong to Pisa's 'Golden Age', which took place from the 11th to the 13th centuries when the city was still a port, and one of the maritime powers of the Mediterranean.

Pisa

Depart the pier for the approximate 45-minute drive to Pisa. Upon arrival at the parking area, walk to the Campo dei Miracoli and commence the guided portion of your tour.

Campo dei Miracoli

Since it was first laid out, Pisa's ecclesiastical centre has been known as the Campo dei Miracoli, or 'Field of Miracles'. The sight of it is as stunning today as it must have been to medieval travellers. Nowhere in Italy are the key buildings of a city arrayed with such precision, and nowhere else is there so beautiful a contrast of stonework and surrounding meadow.

Leaning Tower of Pisa

Your next stop is the Leaning Tower of Pisa (outside visit only). Underneath the pavement and turf of the Campo dei Miracoli lies a platform of saturated sandy soil, whose instability accounts for the tilting of the Leaning Tower. Begun in 1173, construction of the tower subsided when it had reached just three storeys in height. Over the ensuing 180 years, a succession of architects continued to extend it upwards until it was finally completed and topped with a bell-chamber in 1350. Leaving the Leaning Tower, proceed to the Duomo.

The Duomo

The Duomo was built in 1064, a century before the Campanile. With its four levels of variegated colonnades and subtle interplay of dark grey marble and white stone, the Duomo is the archetype of the Pisan Romanesque style; a model often imitated but never surpassed.

The Baptistery

A visit is then made to the Baptistery. The third building of the Miracoli ensemble, the circular Baptistery is a bizarre mix; its three storeys of Romanesque arcades peak in a crest of Gothic pinnacles and its dome is shaped like the stalk of a lemon.

Piazza dei Cavalieri

Leaving the Campo dei Miracoli, visit the Piazza dei Cavalieri. One of Pisa's most interesting sites, the Piazza dei Cavalieri is a large square that opens unexpectedly from the narrow back streets, and includes the site of the Roman Forum. The central civic square of Medieval Pisa, the Roman Forum was subsequently remodelled by Vasari and became the headquarters of the Knights of St. Stephen.

Palazzo dell'Orologio

On the western side of the square is the Renaissance-adapted Palazzo dell'Orologio. In 1208, the military leader Ugolino della Gherardesca, along his sons and grandsons, was starved to death in its tower as punishment for his alleged duplicity with the Genoese enemy.

Following your guided walking tour, some free time is made available for independent exploration before walking back to the parking area and re-boarding the coach for the approximate 45-minute drive back to the pier.

Please note: This tour requires a moderate amount of walking for approximately 2.6km (1.62 miles) with some steps to climb. It is not recommended for guests with limited mobility or those who utilise a wheelchair. Tour includes an exterior visit of the Leaning Tower only. Recently re-opened, admittance to the Tower is strictly limited and not possible on this excursion.

LIV-F / CASTAGNETO CARDUCCI & EXCLUSIVE VISIT OF THE CASTLE DELLA GHERARDESCA

DIFFICULTY

Price:\$349; Duration:5.00 hrs

Castles and historic mansions in Italy have traditionally been family inheritances; Italy and France have a few notable examples of estates that survived their respective political upheavals. These are also notable because of their new found rarity. Make an exclusive visit to the Castle of Castagneto owned by the Della Gherardesca Counts.

Meet your English speaking guide and your driver at the port and drive towards Castagneto Carducci, approximately 1-hour away. This is one of the most popular villages on the Etruscan Coast of Tuscany.

Castagneto Carducci

Perched on a hillside less than 10km (6.2 miles) from the sea, the village centre of Castagneto has grown around the imposing medieval castle located on the hilltop. The city was called "Castagneto Marittima" until the beginning of 1900s when its name was changed to "Castagneto Carducci" in honour of Giosuè Carducci, one of the greatest Italian poets of the XIX century who spent part of his childhood here. Walking through the village you will come across the imposing Palazzo Comunale, with its dominant position at the beginning of Via Marconi, a long street that makes its way downhill towards the coast. It houses the city's Town Hall and its offices.

Castle Della Gherardesca

A very pretty lane leads you to the 10th century Castle where you will enjoy an exclusive guided tour of the period rooms and family portrait gallery. Enjoy the spectacular view from the original rampart walk running between two lovely enclosed gardens. Today, this is a lived-in castle and a private mansion, not normally open to the public. It has belonged to the same noble family of the Counts della Gherardesca for 32 generations, where the siblings of the current generation come to spend their summer holidays and reside during the year. You will experience the pleasure of walking through the gates of the castle to get into the small cobblestone streets of the picturesque village, having set off in a very unique and privileged way of discovering it. Take a glimpse of the local country lifestyle, with many wonderful, unique and exclusive photo opportunities. The modern use of the house hasn't erased its history which lives through the family portraits, the period furnishings, the maps and the family trees with the most pedigreed Italian lineages intertwined. The coat of arms itself embodies the major characteristics of the dynasty: Half Imperial Eagle, granted by Frederick I Holy Roman Emperor; red, evoking heraldic copper and the enemies' blood; gold symbolizing the land and fortified castles property of the family that allowed the defence of Tuscany from the costal invasions of Moors and Saracens. All of this speaks in the language of the eldest spirit of the Tuscan art of war.

The Gherardescas are without a doubt unyielding: they are probably the only Italian family inhabiting the same place for over 1200 years. They've always made it through the centuries, assail after assail, due to many different alliances and political skills, at times amongst Guelphs and Ghilbellines. After a visit of their wonderful and historic Castle, you will be served drinks and canapes in the garden or in one of the state rooms. After, enjoy some time to roam free in the village of Castagneto Carducci with its charming alleyways and shopping.

Re-board your coach for the approximate 1-hour drive back to Livorno.

Please note: This tour involves a minimal amount of walking for approximately .62 miles (about one kilometre) over paved, gravel and cobblestone ground, with a few steps to negotiate at the castle. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Lightweight, comfortable clothing, flat, closed-toe walking shoes and sun protection are recommended. Space on this tour is very limited; we suggest you book in advance to avoid disappointment. Please note that due to the exclusivity of the location some dates may be cancelled at a later stage due to the specific request of the family.

Lucca and Church of San Frediano

Amongst the most enthralling and diversified wines in Italy, yet there is probably no term in Italian wine that is more slippery, vaporous and misunderstood than "super Tuscan".

Bolgheri

Depart the pier for the scenic, approximate one-hour drive to Bolgheri. En route, listen to the guide's commentary as you pass through the countryside of the Maremma region and take in splendid vistas of the cypress trees, olive groves, vineyards, gently-rolling hills, and the Tirreno Sea. LIV-I / ACCADEMIA DELLE BELLE ARTI MUSEUM

DIFFICULTY

Price:\$129; Duration:9.50 hrs

In 1784, the Grand Duke of Tuscany, Pietro Leopoldo, converted the friary of San Matteo and the convent of San Niccolò di Cafaggio to house the Gallery so students in the adjoining *Accademia delle Belle Arti* (Fine Arts Academy) could study the greatest works of the past.

Today, it is visited mostly by people who want to see Michelangelo's *David*. Undoubtedly the world's most famous sculpture, the museum also houses five other Michelangelo sculptures - the four unfinished *Prisoners* and *St. Matthew* - and a collection of Gothic and Renaissance paintings that were once in the Medici collections.

Join the "Florence on Your Own" tour and depart the pier for the approximate 1.5-hour drive to Florence. En route, your guide provides you with historical and practical information about the city, along with a detailed map of the historical centre to make it easier to get around. This visit represents an ideal tour for visitors who have been to Florence before, or feel independent enough to explore the city without the help of a local guide.

David

Michelangelo's *David* arrived in 1873, moved here from the Piazza della Signoria in order to better conserve it. A copy of the statue still stands in Piazza della Signoria where it formerly was displayed. Despite the familiarity of the statue's image, the sheer size of the marble statue comes as a surprise. Commissioned by the Opera del Duomo in 1501, the work was deliberately designed to symbolize the virtues of Republican Florence and freedom from foreign and papal domination. Recently, it has come to symbolize the ultimate symbol of the artistic and intellectual ambitions of the Renaissance.

The 16-foot high block of marble was transformed in 3 years into the work of art that was to establish, along with the *Pietà* displayed at the Vatican, Michelangelo's reputation as the foremost sculptor of his day. *David* was always intended as an outdoor sculpture which explains some of the extraordinary physical distortions evident in the statue, such as the overly large hands and head. Even the eyes are made to be looked at from below; when examined from statue eye level, in fact, the two eyes were found to be looking in different directions.

Accademia

Among the other works housed in the Galleria are Giambologna's original plaster copy of the *Rape of the Sabines* (original marble one located in the Loggia dei Lanzi in Piazza della Signoria), Botticelli's *Madonna and Child* and *Madonna of the Sea*, and a few works by Perugino, Filippino Lippi, Pontormo, Domenico Ghirlandaio and Bronzino. There is also an extensive collection of plaster models from the 18th century as well as early 13th century religious works by Giovanni di Milano, the Orcagna brothers, Taddeo Gaddi and others that were followers of Giotto.

Recently, the treasured collection of musical instruments from the "Luigi Cherubini" Conservatory of Music has been added to the collection, enhancing the museum's holdings.

Please note: This tour requires an extensive amount of walking and is not suitable for guest with limited mobility, if intended to explore Florence. The museum portion of this excursion is recommended for guests with limited mobility or those who utilise a wheelchair. The coach is not permitted to drop guests into the city centre and a walk of about 15 minutes between the coach park and town is necessary. Free time in Florence for independent exploration is approximately 6 hours. The tour inside the Accademia is not a guided tour. It offers entrance only with skip the line tickets.

LIV-J / UFFIZI GALLERY MUSEUM

DIFFICULTY

Price:\$129; Duration:9.50 hrs

The Uffizi is the most important and visited museum in Florence. The Uffizi palace was designed and begun in 1560 by the architect Giorgio Vasari in the period when Cosimo de' Medici, first Grand Duke of Tuscany, was bureaucratically consolidating his recent takeover of power. Built in the shape of a horseshoe extending from Piazza della Signoria to the Arno River and linked by a bridge over the street with Palazzo Vecchio, the Uffizi were intended to house the administrative offices (*uffizi*) of the Grand Duchy. From the beginning, however, the Medici set aside a few rooms on the third floor to house the finest works of their collections. The Gallery was subsequently enriched by various members of the Medici family. Two centuries later, in 1737, the palace and their collection were left to the city by Anna Maria Luisa, the last Medici heir, and today houses one of the world's great art galleries.

Collection

In its 45 rooms, the Uffizi houses not only the best of Florentine paintings from the 14th and 15th centuries, but masterpieces from other parts of Italy as well as four centuries' worth of works from leading artists in Germany, Spain and Holland. Apart from paintings, the Uffizi exhibits ancient Roman and 16th century sculpture in its frescoed corridors.

Serious art lovers should visit the Uffizi at least twice. The museum is organized in chronological order from the 13th to the 18th centuries. Your first visit should cover Rooms 1-28, dedicated to the Florentine Renaissance (home to the most famous paintings). A second visit could deal with Rooms 29-45, devoted to the High Renaissance and Mannerism in Florence, with works that end in the 18th century.

Central Market Tour and Local Speciality Tasting

Situated near the main canal, this huge Neo-Classical building dates from the late-19th century, and is open every morning from Monday to Saturday. Five entrances lead into the main food hall, where several shops and stalls sell meat, eggs, poultry, ham, cheese, bread, wine, and a vast selection of interesting specialities. There are two adjoining smaller halls; one dedicated to fresh fish, and the other to fruit and vegetables. The aroma of freshly-ground coffee is often the first to reach you from one of the coffee stalls. Following your market visit and shopping, proceed for a tasting of a local speciality made from chick pea flour, 'torta di ceci', then walk back to the *Aragosta* restaurant with the chef.

Interactive Cooking Class with Lunch

Upon arrival, begin your interactive cooking class. Learn about and help make fresh pasta with a delicious and traditional tomato sauce. Some local dishes are also part of the class. Seafood 'panzanella' is a rich and delicious variation on the classic panzanella. The concept of poor cuisine, based only on ingredients that can be picked from the kitchen garden, is lost, but the result is a new interpretation full of flavour. Fish balls are a delicious and light dish, and a speciality of this restaurant. Dessert consists of 'tiramisu', which is made of ladyfingers dipped in coffee, layered with a whipped mixture of eggs, sugar, and mascarpone cheese, and flavoured with cocoa. Following your cooking class, enjoy a lunch consisting of the dishes you've helped to prepare. At the conclusion of your visit, commence the short walk back to the pier.

Portofino - Italy

PTF-A / TASTING AT CASTELLO BROWN

DIFFICULTY

Price:\$149; Duration:4.00 hrs

Indulge your senses with the alluring beauty and delightful flavours of Portofino during a scenic sightseeing tour and lunch in this wonderful port city.

After tendering ashore, meet your guide at the pier and walk to the Piazzetta. Portofino is very small, and the quaint streets leading up from the harbour of this tiny paradise can be explored in very little time.

Church of St. George

From the Piazzetta, take a very pleasant walk from the harbour, then ascend a series of steps en route to the Church of St. George. Dramatically perched on the narrow neck of the Portofino headland, the church features a cool, plain interior, and offers picturesque views of your surroundings, including the lighthouse that dominates the entire promontory.

Castello Brown

Leaving the church, proceed for a tasting of fine Italian food and wine at Castle Brown, an imposing building dominating the harbour. After its wartime use had concluded, Montague Yeats Brown of the British Consul purchased the castle in 1867. Brown converted the structure into the charming dwelling you see today. Upon entering the terraced gardens, take in wonderful panoramic views over Portofino from this breath-taking setting.

Next, Guido Porrati, an Italian food and wine expert, and his chef lead a memorable tasting experience that emphasises the richness and variety of the Italian cooking tradition. Your entertaining food and wine experience is conducted in English, and includes enthralling stories about local traditions, anecdotes, myths and legends. Every single ingredient and dish offered is introduced in an engaging, lively style so you can appreciate their flavour, value and history. Tasting glasses are used to ensure the best wine experience.

Piazzetta

Following this memorable culinary and wine-tasting experience, some free time is made available for you to stroll about the charming harbour-side Piazzetta, or relax at one of the cafés with a drink and watch the people and boats pass by.

At the conclusion of your visit, return to the pier and tender back to the ship.

Please note: This tour requires an extensive amount of walking over cobblestone surfaces, with approximately 80 steps to negotiate in order to reach the Brown Castle. This tour is not recommended for guests with limited mobility or guests who utilise a wheelchair. The time spent at certain venues may be extended or reduced, and other brief stops may be added. We recommend guests wear comfortable clothing and walking shoes as well as bring sun protection. Minimum age for wine tasting is 18 years old.

PTF-B / GENOA & PESTO AT ZEFFIRINO'S

DIFFICULTY

Price:\$249; Duration:7.00 hrs

Discover the scenic beauty and enticing flavours of Genoa during this sightseeing tour of the city, and a memorable pesto-making demonstration and lunch at the renowned Zeffirino restaurant.

After tendering ashore, meet your guide and walk to the motor launch, then embark your boat for a coastal cruise to Santa Margherita. Upon arrival, board a bus for the approximate one-hour drive to Genoa.

Genoa

Although Genoa is renowned as Italy's main commercial port, it also offers plenty of tourist attractions. Hilly Genoa is actually comprised of two cities. The steep, narrow lanes, Baroque-style churches and vacant lots of the old working port stand in stark contrast to the handsome bustling city filled with avenues, arcades, palaces, theatres and cafés spread out into the nearby hills.

Genoa City Tour

Upon arrival in Genoa, depart the pier for a panoramic sightseeing drive through downtown Genoa. Along the way, see the old and new sections that combine to create one of Italy's larger cities. A photo stop is then made at Castelletto Hill for spectacular views over Genoa.

Zeffirino Restaurant

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Next, proceed to the Zeffirino restaurant. Family-owned since 1939 with its nondescript decor, candelabras, quaint genre paintings and waiters in dark suits who expertly-arrange each serving at the table, Zeffirino's lives up to its advance hype for providing definitive Mediterranean seafood and its world-famous pesto.

During your visit, Zeffirino's chef shows you the secrets to making authentic pesto sauce; a beautifully-light olive oil infused with basil. Here, the pesto is made from the infant leaves of Genovese basil that impart a minty sparkle rather than the rather strident, licorice-like tendencies of 'mature' basil. The pesto demonstration is followed by a lunch consisting of pesto, fresh fish and a delicate dessert.

After lunch, re-board the bus to the motor launch then embark your boat for the return cruise to Santa Margherita.

Santa Margherita

Upon arrival, some free time is made available for you to explore the famous summer resort of Santa Margherita Ligure. Palm fronds wave along the esplanade of this wonderful, old-fashioned resort, a favourite destination for foreign visitors enticed by the balmy climate, picturesque views and comfortable, long-established hotels.

Following your visit, embark your boat for the cruise back to Portofino, then tender back to the ship.

Please note: This tour requires a moderate amount of walking, with a steep, narrow ramp that must be negotiated to enter and exit the motor launch. This tour is not recommended for guests who utilise a wheelchair; however, it is suitable for those guests with limited mobility. There is a flight of steps to access the first floor of the restaurant, but a lift is available. Operation of this tour is dependent upon sea and weather conditions. The time spent at certain venues may be extended or reduced, and other brief stops may be added.

PTF-C / SAN FRUTTUOSO & CAMOGLI

DIFFICULTY

Price:\$129; Duration:4.50 hrs

Experience the splendid coastal beauty and medieval landmarks along the Italian Riviera during this memorable tour of San Fruttuoso and Camogli.

After tendering ashore, meet your guide and walk to the motor launch, then embark your boat and proceed for a coastal cruise to San Fruttuoso Bay.

San Fruttuoso

A deep inlet along the coastline of the Portofino Promontory between Camogli and Portofino is home to the famous medieval abbey of San Fruttuoso di Capodimonte, located in the fishing village of the same name. After its initial monastic use, the complex at San Fruttuoso di Capodimonte served as a humble home for fishermen, a den for pirates and later the property of the Doria Princes for centuries.

The monumental San Fruttuoso Abbey comprises the church, which is located at the end of a narrow valley. The small, two-level cloisters between the church and the Abbey feature an open area in the centre flanked by the monks' cemetery to the east, the tombs of the Doria family to the west and the Gothic Abbey facing towards the sea.

The first community of devotees of the martyr from Tarragona settled in this small bay at the beginning of the 8th century, and built a church that repelled Saracen raids until the 10th century. The abbey reached its greatest splendour in the 15th century. It has been the main political and economic centre of the promontory until the last century, and influenced the organisation of the territory, agricultural system and fishing economy.

Following your inside visit to the abbey, embark the boat for another brief cruise to Camogli.

Camogli

Camogli is a small Italian fishing village located on the Italian Riviera. The name of the village means 'house of wives', because the coloured faces of the beach houses were useful in helping guide fishermen back to shore, even in bad weather. Upon arrival, disembark your boat and commence your walking tour of this wonderful small town. Its houses are clustered together above the sea, and feature brilliantly-painted trompe l'oeuil, with fake windows, balustrades and more.

For some time, tourist activities have replaced old and deeply-rooted traditions that began to decline at the end of the 19th century. However, this process did not prompt rampant modern development in Camogli. The village has retained its unique structure, along with the extraordinary environmental elements that make it a splendid attraction to this day.

Following a walking tour of Camogli, embark your boat for the approximate 40-minute return cruise to Portofino. During the coastal cruise back to Portofino some focaccia bread with a glass of local wine will be served.

Upon arrival in Portofino tender back to the ship at your leisure.

Please note: This tour requires a moderate amount of walking, with a few steep steps that must be negotiated in order to embark and disembark the motor launch. The entrance to the San Fruttuoso Abbey requires walking over gravel surfaces, and the inside visit of the abbey includes many uneven steps to climb. This tour is not recommended for guests with limited mobility and guests who utilise a wheelchair. Operation of this tour is dependent upon sea and weather conditions. A strict dress code is enforced when visiting the abbey; short pants and tank-tops are not permitted. The time spent at certain venues may be extended or reduced, and other brief stops may be added.

PTF-D / VILLAGES OF RAPALLO & SANTA MARGHERITA

DIFFICULTY

 Price:\$119; Duration:4.00 hrs

Experience the rich traditions of wonderfully old-fashioned seaside resorts that string along the eastern half of the Italian Riviera where palm fronds wave along esplanades. Get up close and personal with two of the best-known resorts of the region during this scenic, half-day visit to Rapallo and Santa Margherita.

Portofino and the Tigullio Gulf are world-renowned symbols of Italy. The coast is a sequence of fashionable resorts with marinas, pastel-coloured houses, first-rate sports facilities and the seductive atmosphere of la dolce vita. However, visitors to the area are perhaps most enamoured by the beautiful seascapes. Suspended between the intense blue of the sea and the green mountains, they offer some of the most celebrated views in Italy.

After tendering ashore, meet your guide and walk to the motor launch, then embark a local ferry and proceed for a coastal cruise to Rapallo.

Rapallo

This charming town on the Italian Riviera features a gracious old seaside and port highlighted by the remains of its Medieval and Renaissance-style architecture. Most of the town follows the sweep of the pretty harbour guarded by a medieval castle, and the gracious seafront promenade bustles day and night. In the early-20th century, writers visiting this picturesque locale were inspired by the bay's extraordinary beauty. Max Beerbohm lived in Rapallo for the second half of his life, Ezra Pound wrote the first part of his Cantos here between 1925 and 1930, and D.H. Lawrence and Ernest Hemingway also took up residence here.

Following your guided walking tour, some free time is made available to explore this port town at your leisure, or relax at a café and watch the people and boats pass by.

Santa Margherita

Next, embark the local ferry and continue your coastal cruise to Santa Margherita, a truly charming and relaxing place to visit. Along with Rapallo, it is among the best-known resorts of the Italian Riviera. Upon arrival in Santa Margherita, depart the motor launch and proceed to the downtown area for a visit to the Santa Margherita di Antiochia Basilica, also known as 'La Madonna della Rosa'. The church honours the legend of a sailor who, during the middle Ages, brought a sculpture of the Virgin Mary with a rose in her right hand and Jesus on her left arm here.

Following your guided walking tour, some free time is made available to stroll about the seafront promenade, browse the boutiques of the pedestrian centre, or sip a refreshing Campari or cappuccino at one of the many bars facing the sea, before embarking the local ferry for the cruise back to Portofino.

Upon arrival, tender back to the ship.

Please note: This tour requires a moderate amount of walking, with a narrow ramp that must be negotiated in order to embark and disembark the motor launch. Therefore, this tour is not recommended for guests who utilise a wheelchair; however it is suitable for those guests with limited mobility. Operation of this tour is dependent upon sea and weather conditions. A strict dress code is enforced when visiting the churches; short pants and tank-tops are not permitted. The time spent at certain venues may be extended or reduced, and other brief stops may be added. A minimum number of guests per guide are required to operate this programme.

Saint Tropez - France

LTT-A / PORT GRIMAUD VILLAGE DIFFICULTY 

Price:\$119; Duration:4.00 hrs

Experience an eclectic blend of cosmopolitan chic and country charm in the area of St. Tropez during this scenic cruise along Port Grimaud, and a visit to its charming hilltop village.

After tendering ashore, depart the pier for the brief drive via coach to Port Grimaud.

Port Grimaud

Port Grimaud was created in the 1960s as a private lagoon pleasure city with waterways for roads and yachts parked at the end of every garden. This extraordinary architectural experiment was the idea of François Spoerry who envisioned a town built in the manner of Venice with channels of water and traditional French fisherman's houses, each with a personal boat mooring space at the end of the garden. The houses are built in the tasteful old Provençal style. Upon arrival, take a pleasant guided stroll through this unique enclave, followed by a 15-20 minute motorboat cruise past exquisite homes, lovely gardens, tiny squares and bridges spanning the manmade canals.

Grimaud Village

Next, re-board your coach and proceed for a countryside drive to the village of Grimaud, and a look at the quieter side of life in the South of France. Known as a 'village perché', Grimaud is perched on a hillside high above the fertile valley, and is accessed by an uphill walk. Your reward is a serene, rustic village with warm, ochre-coloured houses grouped around an 11th-century church. Until the end of the 19th century, the Castle of Grimaud was the command post overlooking the Gulf of Grimaud. The remains of a medieval castle are an added attraction, as are the stunning views from its hilltop location.

After a leisurely stroll around this charming setting, walk back to your coach for the return drive to St. Tropez Harbour.

Please note: This tour requires an extensive amount of walking on cobblestone, unpaved and paved surfaces, with steps to negotiate, and is not recommended for guests with limited mobility or guests who utilise a wheelchair. Total walking distance is approximately 1400m (1 mile). We recommend wearing comfortable clothing, walking shoes and sun protection. During high season traffic may be congested in the area and may affect timing of this excursion.

LTT-B / ST. TROPEZ STROLL & WINE APPRECIATION DIFFICULTY 

Price:\$109; Duration:3.00 hrs

Indulge your senses with the culture, architecture and flavours of St. Tropez during a scenic stroll around this seaside resort, and a wine class and tasting in a quaint village private terrace. Medieval streets lined with walled gardens, little squares set with dripping fountains and picturesque houses all await your exploration.

St. Tropez

Although St. Tropez is world-renowned as an ultra-chic haunt of the rich and famous, this charming seaside resort is also a genuine Provençal village with a rich cultural heritage.

After tendering ashore, meet your guide at the pier station, then take a guided walking tour to discover the architectural and traditional beauty of St. Tropez. As you proceed along the old harbour, often painted by famous artists, see an 1866 statue of Bailli de Suffren, seaside houses with vaulted basements that used to be boat garages on quai Jean-Jaurès, and the famous Sénéquier Teahouse.

Next, your walking tour continues on to the Town Hall Square for a look back at a time when St. Tropez was an independent republic so rigorously well-defended by its inhabitants that it was never conquered.

Wine Tasting

Your tour concludes at an intimate village terrace, where an expert oenologist greets your arrival and introduces you to the world of wine and winemaking on the St. Tropez Peninsula. Learn the three techniques, sight, smell and taste, as well as the art of using the right words to describe these sensations. The expert then puts your senses to the test in an interactive game of flavour-detection. Learn how to discern different types of wine, and match food with the correct wine.

Following this unique experience, you may return directly to the pier or spend the afternoon in town at your leisure.

Please note: This tour requires an extensive amount (approximately 1.5 hours) of walking, at times over cobbled surfaces and it is not suitable for guests with limited mobility or those who utilise a wheelchair. We recommend lightweight, comfortable clothing, walking shoes and sun protection. Guests need to be of legal drinking age to participate in the wine tasting.

LTT-C / VILLAGES OF GASSIN & RAMATUELLE

DIFFICULTY

Price:\$99; Duration:4.00 hrs

Experience Gassin and Ramatuelle in the Var region in the south of France, both beautiful hilltop villages set high above the Mediterranean Sea and the peninsula of Saint Tropez. The villages were originally created to escape the pirates who terrorized the local Mediterranean waters. Gassin is believed to be one of the oldest villages in the south of France with first written evidence dating back to 1234. Ramatuelle is located above the famous Pampelonne beach, famous for its role in the Allied landing and also renowned as one of the main beaches of Saint Tropez. After tendering ashore, depart via coach for a scenic drive through the heart of the St. Tropez Peninsula.

Gassin

Your first stop is at the picturesque village of Gassin. Its shape and size is reminiscent of a small ship perched on a summit. The original name of Garcin dates back to earlier times to the 10th century. The Knights Templar is thought to have built the castle on the rock and you can see traces of the Templiers on the ancient walls in some of the streets and doors. Once a Moorish stronghold, today Gassin is a chic and popular tourist destination. It is known as 'the most beautiful village of France' and has an unrivalled panoramic view of the Golfe de St. Tropez, the Iles d'Or and the surrounding hills.

During your visit, walk the maze of alleyways, sometimes linked by stairs, and take in the cosy atmosphere of the village. Leaving Gassin's hilltop location, proceed to its lower-lying neighbour of Ramatuelle.

Ramatuelle

Larger than Gassin but just as old, Ramatuelle is surrounded by some of the best Côte de Provence vineyards. Upon arrival, commence your guided walking tour. The guide points out the area's most interesting sites and the main highlights of the area as you proceed through the twisting arcade of streets abounding with arts and crafts shops. Old houses, recently restored, huddle against the ancient town wall. Other facades and pastel shutters are decorated with jasmine, honeysuckle and bougainvillea, a feast for the senses.

Of special interest is a monument to the members of the Special Services who died in World War II, and the ivy-covered tomb of French actor Gerard Philippe, who died in 1959 and is buried in Ramatuelle's cemetery.

Following your visit, re-board the coach for the drive back to St. Tropez Harbour.

Please note: This tour requires an extensive amount of walking over cobbled and uneven surfaces, with steps to negotiate in the villages. Since the tour coaches are not permitted to enter the port's parking area, a lengthy walk is required to-and-from the coaches. This tour is not recommended for guests with limited mobility and guests who utilise a wheelchair. Timings may vary during high season due to increased traffic in St. Tropez.

LTT-D / BORMES-LES-MIMOSAS

DIFFICULTY

Price:\$99; Duration:5.00 hrs

Embrace the scenic beauty of Provence during this half-day outing to the seaside village of Bormes-les-Mimosas. Located in the heart of the Mediterranean coastal region of the south of France, this medieval ancient village offers a step back in time.

After tendering ashore in St. Tropez, depart for the scenic, 50-minute journey southwest to Bormes-les-Mimosas. En route, the coastal road follows the St. Tropez Peninsula past numerous beaches, and the villages of Ramatuelle, La Croix and Valmer. Of particular interest are the monuments and landing beach at Cape Cavalaire, where Churchill's 'Operation Dragon' came ashore in August of 1944.

Bormes-Les-Mimosas

Located just three miles from Le Lavandou, yet a world away, is Bormes-Les-Mimosas, one of the most attractive and flower-filled villages in France. Precede through the *Massif des Maures* along a hairpin road that affords breath-taking views at every turn of the indented coastline, which is replete with beautiful mimosa, palm and gum trees. Built as an amphitheatre, the hilltop village of Bormes-Les-Mimosas is famous for its benign climate, fabulous panoramas and a flowery charm that has attracted many artists, painters and sculptors.

Village Walking Tour

Next, take a guided walking tour through the narrow streets of the village. Your route begins at the Renaissance Chapel of Saint-François de Paule, located next to the old cemetery and remains of windmills. Traverse the charming, narrow and twisted streets dotted with arts and crafts shops en route to the old castle.

Provence Castle

Built between the 13th and 14th centuries, the castle bears witness to the reign of the Counts of Provence; parts of it have been registered as historic monuments. Although now a private residence, its threshold offers a wonderful panoramic view across Lavandou Bay, the Levant and Port Cros islands, the Port of la Favière, and the private grounds of Cap Bénat and Gaou Bénat.

Your visit concludes with a refreshing drink and some free time to stroll about the slender, steep passages before re-boarding your coach for the return drive along the coastal road to St. Tropez Harbour.

Please note: This tour requires an extensive amount of walking for approximately 1100m (3/4 of a mile) over cobblestones and some uneven pavement with some steep inclines or steps in the village of Bormes. Tour coaches are not permitted to enter the port area of St. Tropez; therefore, a lengthy walk is required to-and-from the coaches. This tour is not recommended for guests with limited mobility and guests who utilise a wheelchair. We recommend lightweight clothing, comfortable shoes and sun protection.

**MRS-B / ARLES - ROMAN CAPITAL OF PROVENCE**

DIFFICULTY

Price:\$259; Duration:8.00 hrs

Discover Arles, the largest city in France that resides along the banks of the Rhône River. Once a metropolis of the ancient Romans, today you can still see the arena, the Alyscamps burial grounds, the amphitheater and the Roman baths of Constantin, all of which are registered as UNESCO sites.

Embark your coach for a drive to Arles through the heart of Provence pass the Port of Provence, The Delta of the Rhône River and Camargue.

Arles

Your first destination in Arles will be the Ancient Greek Necropolis of Les Alyscamps. While this well-preserved Greek Cemetery is fascinating in and of itself, this park is perhaps best known for its many appearances in the works of Vincent Van Gogh and Paul Gauguin.

After exploring this beautiful promenade you will drive to the centre of the Roman Town where you will visit the Great Amphitheater. The presence of such a structure is tribute to Arles's importance as a regional Roman capital. You will also see Forum Roman Square, the Amphitheater and Republic Square. Then you will proceed to the Van Gogh Café, the famous subject in Van Gogh's *Café Terrace at Night*.

Continue to the Town Hall where you will take a narrow staircase to go underground in the cryptoporticus. This series of vault-ceiling tunnels formed the base of the forum and was - and is still- used as a warehouse.

After visiting these incredible sites you will proceed to the City Centre where you will be served lunch in a local restaurant and then you will be able to enjoy free time.

Return to the ship via your coach on an approximate 1-hour and 15 minute ride.

Please note: This tour involves an extensive amount of activity and involves walking over unpaved or cobbled paths for approximately 1000m (.62 miles). This tour is not suitable for guests with limited mobility or those who utilise a wheelchair. We recommend wearing comfortable clothing, walking shoes and sun protection. Bring local currency for any purchases.

MRS-C / AIX-EN-PROVENCE

DIFFICULTY

Price:\$99; Duration:5.00 hrs

Discover the historic landmarks and beauty of Aix-en-Provence on foot during this scenic and memorable walking tour through the Old City. This city is all class: its leafy boulevards and public squares are lined with 17th- and 18th-century mansions, punctuated by gurgling moss-covered fountains. Haughty stone lions guard its grandest avenue, cafe-laced cours Mirabeau, where fashionable Aixois pose on polished pavement terraces sipping espresso.

Depart the pier for the approximate 45-minute drive inland to Aix-en-Provence, which was once the capital of Provence, an independent kingdom at the time. Today, Aix is a lively university and spa town with a sophisticated atmosphere.

Aix en Provence

Upon arrival, take a guided walking tour through the romantic streets of Aix and past its stately 17th- and 18th-century mansions. Other sites to be seen include the famous Cours Mirabeau, an idyllic, tree-lined boulevard with beautiful fountains, the statues of King René of Provence and Anjou, as well as many outdoor cafés. Please note: This tour requires an extensive amount of walking for approximately 1/2 mile (800 metres), over mostly paved surfaces with a few steps to negotiate. It is not suitable for guests with limited mobility or those who utilise a wheelchair. We recommend wearing comfortable clothing, walking shoes and sun protection.

MRS-D / VILLAGES OF PROVENCE

DIFFICULTY

Price:\$279; Duration:8.50 hrs

Experience the Provençal charm of Southern France during this scenic, full-day excursion to some of the 'must see' villages of Provence - Les Baux de Provence and Saint Rémy de Provence. These two picturesque villages date back centuries; Les Baux de Provence offers a majestic hilltop location with sites of historical interest and the celebrated Cathedral of Images. Saint Rémy is embraced by a wide, leafy boulevard; the lazily charming old town is a maze of winding streets, cafés, squares and fountains with two exceptional attractions on its edge.

Depart the pier for the brief drive through the Provençal landscapes en route to the little mountain range known as the Small Alps, or 'Les Alpilles', home of incredibly scenic village of Les Baux de Provence.

Les Baux de Provence

Upon arrival, take a guided tour of a traditional olive oil mill for a tasting of its products. After this delightful tasting, take a guided walking tour of the impressive ruins of a former 11th-century citadelle, which is perched on a rocky plateau. Some free time is then made available to explore the village and browse the many Provençal shops.

La Cabro D'or (Relais & Châteaux)

Next, re-board your coach a short drive to the restaurant la Cabro D'or Nestled in a wonderful garden at the heart of the Alpilles mountains, the Cabro D'or is a family-friendly hotel Relais & Chateau, the hotel's gourmet restaurant serves mouth-watering specialties.

St. Remy de Provence

Continue your drive to Saint Rémy de Provence, which acts as a sort of link between the Arles area and the Provence of the Popes. Although it has every appearance of being no more than a prosperous farming community, this small town is inextricably linked to the unavoidable 'tourist route' through Provence. Philosopher Nostradamus was born in a house on Rue Hoche in St. Remy, only later moving to Salon de Provence to compile his famous, influential prophecies. Three centuries later a tormented Vincent Van Gogh sought refuge in St. Remy where he painted some of his best known works.

Return to the ship in Marseilles via your coach on the approximate 1-hour and 15 minute drive.

Please note: This tour requires an extensive amount of walking for approximately .75 miles (1100 metres), with inclines, cobblestone streets and steps to negotiate. It is not suitable for guests with limited mobility or those who utilise a wheelchair. Although a minimum number of participants are required for tour's operation, space is very limited. We recommend wearing comfortable clothing, walking shoes and sun protection. The order of the sites visited may vary.
