General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 - 7 days prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) up to 7 days prior to your sailing date. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Please visit MySilversea (my.silversea.com) for the most up-to-date information. Discounts for children under 12 years of age are available on some, but not all tours. Prices for children, if available, will be adjusted onboard. Please meet with the Shore Concierge team prior to your excursion to discuss the availability of children's pricing.

ON-TIME TOUR DEPARTURES

As a courtesy to fellow guests, tour departures generally will not be announced unless there is an unforeseen change. Departure times from the ship are published in the ships daily newspaper, the Silversea Chronicle. Guests are kindly requested to proceed ashore at least ten minutes prior to the tour departure time. The Shore Concierge team will be pier-side to direct you to the appropriate transportation. When the ship is at anchor, guests must allow additional time to tender ashore.

Silversea Cruises reserves the right to adjust itineraries and tour departures as local conditions dictate. Please note that pier departure times are also listed in MySilversea (my.silversea.com)

SILVERSEA SHUTTLE SERVICE

Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. This service may not be possible in ports where a strong taxi union exists, preventing Silversea from providing a complimentary shuttle. Operationally, intervals between shuttle bus departures could be affected by local traffic. Silversea is not liable for any unforeseen delays. There will be a break in service for driver meal times. Shuttle service is offered during the day only. The shuttle service is designed to augment local transportation; guests requiring more flexibility may prefer not to wait for a shuttle and secure a taxi at their own expense.

CHILDREN ON TOUR

To ensure the safety of our younger guests, participation by children in certain shore excursions may be restricted. To ensure the safety of our younger guests, children up to the age of 8 years old are only permitted to participate in suitable Silver Shore Excursions and the shuttle service, if the vehicles are equipped with the correct safety harness and seating equipment, to accommodate a child. Such harnesses' and secure seating cannot be guaranteed. Silversea reserves the right to refuse children under the age of 8 years old on any tour on the basis of safety.

DIFFICULTY

Price:\$99; Duration:5.00 hrs

Explore Guatemala's scenic beauty and storied past during this half-day tour through the Motagua Valley, and the 17th-century Castle of San Felipe. This valley is one of the driest areas of Central America and is surrounded by mountains that reach up to 3,000m (9,843 feet) on the north side and 2,000m (6,562 feet) on the south. The valley receives less than 500mm (20 inches) of precipitation annually and is substantially different from the neighboring regions.

Scenic Views

Depart the pier for the scenic 1.5-hour drive through the Motagua Valley. Along the way, see an abundance of lush tropical vegetation in the countryside. Upon arrival at the bridge over the Rio Dulce, a stop will be made for spectacular views and photo opportunities of Lake Izabal and Rio Dulce National Park (weather and time permitting), a protected area and one of the most important ecological reserves in the country. From this vantage-point, you can see Guatemalan weekend homes, marinas and small hotels dotting both sides of the river and lake.

Castillo de San Felipe

Located on Lake Izabal is the Castillo de San Felipe, the Spanish fort built to protect the Rio Dulce from invading pirates. Take a brief boat ride to the fort for an inside visit. Located just minutes from the bridge, the Castle of San Felipe was built during the 17th century in honor of the Spanish King Felipe II. The fort, with its powerful battery of cannons strategically positioned at the entrance to Lake Izabal, offered protection to Spanish ships crossing its waters, and transporting products and supplies to and from Spain and Havana. Its walls offered protection from pirates that used to navigate the river and attack the boats they encountered along the way.

In 1686, a pirate assault burned most of the fort and the attacks continued until a series of treaties were signed between Spain and England. As a result, the Castillo lost its importance as a defensive fort, and was converted into a prison. It was later abandoned, and fell into a state of disrepair until its renovation by Architect Francisco Ferrus in 1955. Although rebuilt based upon its original plans, the Castle of San Felipe still retains two cannons dating back to the 1790s, and a pair of 400-year-old towers.

Following your tour, proceed to the *Catamaran Hotel* for refreshments before returning to the ship, approximately 1-hour away.

Please note: This tour involves a moderate amount of walking and is suitable for guests with limited mobility; however it is not suitable for guests who utilise a wheelchair. We suggest guests wear long pants, a long-sleeved shirt, sun protection and insect repellent. Guests must be agile enough to embark and disembark the boats with the guide's assistance. ROA-C / DIVE WITH SHARKS!

DIFFICULTY

Price:\$129; Duration:3.00 hrs

Experience what is sure to be any certified diver's 'Thrill of a Lifetime' during this unique up-close and personal shark dive.

Wildlife Diving

Depart the pier for the short transfer to Wildlife Diving, the only shark dive specialists on the island. Sergio or one of their veteran certified PADI Divemasters will lead the dive. Upon arrival at the dive centre, briefings take place, preparing you for a safe, enjoyable experience. There is also footage of previous dives being shown allowing you to further prepare yourself and add to the anticipation.

Cara a Cara (Face to Face)

The dive site is located on a unique part of the reef surrounding Roatan, an arm that juts perpendicularly from the southern shore surrounded by walls that drop off to depths beyond the reach of divers. The dive site is named 'Cara a Cara' which in Spanish means 'face to face'. Cara a Cara is also quite different from sites found on similar shark encounters around the Caribbean as the sharks have not been 'chummed' away from their natural environment; ask any local fisherman on the island of Roatan where the sharks are and they can tell you...sharks have been stealing fish from them here for years.

The sharks we dive with are all Caribbean reef sharks, all female, displaying a daytime schooling behavior known only to a few species of sharks. Typically about 6 to 9 feet long and several hundred pounds each, these are handsome, powerful fish - healthy hunters of the reef in nature's system of checks and balances.

The Dive Plan

The dive is held among a beautiful reef of hard and soft corals between 60 - 70 feet (18 - 21 metres). Visibility is usually more than 80 feet (24 metres) as the site is located a ten-minute boat ride from Roatan's shore and thus not diminished by rain or other factors.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Divers descend along the mooring line (there is often current) to a small wall where divers arrange themselves kneeling or standing, back to the wall and facing the Divemaster and anywhere from 10 -20 sharks. A small snack of fish is kept in a bucket to keep the sharks interested, while divers watch the sharks circling the area.

After 15 or more minutes of watching the sharks, the bucket is presented to the sharks for a few moments of action as they jostle for position and a snack. At no time are the sharks handled or fed individually. Although this species of shark is not known to pose a serious threat to divers we like to keep a healthy respect and a reasonable distance from the bait.

Following this the sharks will usually swim off so there is an opportunity to move around the site and look for shark's teeth on the bottom, check out our favorite green moray eel and simply enjoy the splendour of the many other fish. There are usually large groupers and snappers that have all become quite tame, offering additional photo/video opportunities.

After approximately 25 - 30 minutes bottom time and the mandatory safety stop, head back to the dive centre to watch the footage from the dive and sign log books. Of course the dive centre is able to offer a custom video of your experience, t-shirts and other memorabilia.

Please note: Guests must present a valid Certification card, proof of having dived recently, be in good physical condition and sign a waiver to participate. Your dive includes, tank, weight and belt. Additional rental equipment is available directly from the dive centre and must be requested along with sizes 48 hours prior to arrival. Please advise Shore Concierge Staff onboard of your needs. We suggest wearing a swimsuit under a cover-up, sun protection and bring a towel and extra money for rentals and purchases from the ship. This tour is not exclusive to *Silversea* guests.

Harry S. Truman Little White House

Next, you are escorted on-foot to the nearby Harry S. Truman Little White House. Built in 1890 as the first officers' naval quarters on the harbours waterfront, the Little White House was converted into a single-family dwelling to house the base commandant in the early 20th century. The house has been host to many distinguished guests, including Thomas Edison and US presidents Harry Truman, Dwight Eisenhower, John F. Kennedy, Jimmy Carter, and Bill Clinton. Following your guided visit, walk back to the pier.

EYW-C / KEY LIME BIKE TOUR

DIFFICULTY

Price:\$49; Duration:3.00 hrs

Experience a guided tour of the colourful history and characters of Key West on comfortable beach cruiser bikes.

Upon arrival at the bike shop, you will be fitted with your bicycle and begin your approximately three-hour pedal through town. Of particular note is the Customs House, which presides over historic Mallory Square. Dating to 1891, the faithfully restored, four-story architectural gem was originally home to the island's customs office, postal service and district courts. "Old 91" is today a national landmark and headquarters of the Key West Art & Historical Society.

Another slice of local history unfolds as you approach the Presidential Gates of the Harry S. Truman Little White House. Built in 1890 as the first officer's quarters on the submarine base naval station, the abode served as Harry S. Truman's base of presidential operations during his 11 visits to Key West.

Of course, Key West also is known as the home of Ernest Hemingway. During your bike ride, you will see the residence located at 907 Whitehead Street, across from the Key West lighthouse, where the famed writer lived from 1931 to 1939.

One of Hemingway's legendary haunts was Sloppy Joe's Bar. Founded in 1933, the bar was located on Greene Street, just off Duval Street, during Hemingway's day. The bar has since moved to its current location on Duval Street, taking with it its storied connections to Hemingway, who suggested the name for the establishment.

Other landmarks on today's roster include Mallory Square, the Key West Lighthouse, and the Historic Seaport.

Before returning to the bike shop stop at the Key Lime Pie Company for a slice of Key Lime Pie, a refreshing must-taste here in Key West.
