General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 days until 48 hours prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) until 48 hours prior to sailing. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Explore Bali's pristine natural beauty from a unique perspective during this fun-filled safari adventure atop an elephant's back. Depart the pier for a scenic drive through the verdant countryside, and past the village areas of Celuk and Taro. Stop for refreshments in the village of Celuk where you can observe the intricate workmanship of the gold and silver workers. After continuing through landscapes of lush greenery and rice fields, the road then climbs and descends before arriving at what is thought to be the world's best elephant park.

Elephant Safari Park

This beautiful park at Taro spans more than five acres (two hectares) of exotic, landscaped botanical gardens that provide an ideal home for 27 rescued Sumatran elephants. Plant species as close as possible to those found in the elephants' wild habitat are part of the landscaping. This provides lush foliage for the park and proper nutrition for its inhabitants.

Nothing can quite prepare you for this rare opportunity to get up-close and personal with these gentle giants at the Elephant Safari Park. Upon arrival, a guided walk along landscaped pathways leads you to the starting point of your elephant ride.

Elephant Ride

From a raised platform and assisted by professional staff, climb into the wooden seats atop the elephant's back (two guests per elephant). Your 30-minute trek travels along a forested trail, with the last part through an immense pool - an enjoyable experience for elephants and riders alike.

Following your elephant-back ride, there will be time for photographs and an opportunity to observe these gentle giants from up-close before proceeding to the open-air restaurant for a buffet lunch.

After lunch, stroll through the garden on your way back to the exit. Stop along the way at the small museum featuring elephant memorabilia and the only mammoth skeleton in Southeast Asia.

Discover what so many Balinese people are very proud of, their beautiful rice terraces, found in mid-western part of the island, known as the 'Rice Bowl of Bali'. Your half-day visit to the island's interior leads you to quiet hamlets with shaded pathways overhung by vegetation, thatched roofs scattered behind interminable mud walls, herds of farm animals, with mountain scenes, and the remaining tropical forests.

SDK-C / ORANG UTAN & PROBOSCIS MONKEY

DIFFICULTY

Price:\$179; Duration:4.50 hrs

Travel to two sanctuaries renowned for the protection and preservation of two of Borneo's most famous residents, the Orang utan and the Proboscis monkey, on this half-day nature exploration.

Depart the pier and begin the 45-minute drive to the Sepilok Orang utan sanctuary.

Sepilok Orang Utan Sanctuary

Established in 1964 to aid orphaned baby Orang Utan, this rehabilitation centre resides in the Kabili-Sepilok Forest, an enormous area of virgin rainforest. Found only in Borneo and Sumatra, the Orang Utans' survival is constantly threatened by forest fires, felling of trees, poaching, and illegal hunting. Here, the Orang Utan (in Malay 'man of the forest') are rehabilitated and returned to the wild, if possible. Witness Orang Utans, the 'Wild men of Borneo' emerging from the jungle to be fed.

Labuk Bay Sanctuary

In the centre of the mangrove forests of Semawang is the Labuk Bay Proboscis Monkey Sanctuary, where you can see Borneo's indigenous proboscis monkeys.

This privately-owned sanctuary located within an oil palm estate gives you the chance to observe these animals up close and personal during their late morning feeding time. Endemic to the island, the Proboscis monkey is famous for its big pendulous nose and distinctive pot belly. As sources of their food dwindle due to diminishing habitats, the sanctuary has made efforts to supplement the monkey's diet with fruit and water daily to ensure the conservation of these animals. Watch the monkeys from a viewing platform. Silver Leaf monkeys may also be seen feasting on green beans.

Your tour concludes with the 1.5 hour return drive to the pier.

Please note: This tour requires a moderate amount of walking for a total distance of approximately a half of a mile (850 metres), including a 15-minute hike on a wooden walkway with steps and inclines; the walkways can become slippery if wet. SDK-B / SANDAKAN HERITAGE

DIFFICULTY

Price:\$99; Duration:3.00 hrs

This tour provides an introduction and overview of Sandakan. Leaving the pier, drive to the water village.

Buli Sim-Sim Water Village

Due to the abundant marine resources, the local people began building over the water at the start of the last century. As the guide leads you through this maze of huts built on stilts, not only do you see the interesting construction of this village, but you can also observe the local lifestyle. Unfortunately, during low tide, rubbish in the sea below the houses can be seen.

St. Michael's Church

Stop by North Borneo's oldest church, the St. Michael's and All Angels church built with granite stones in 1893. One of the four structures remaining after World War II, the church is famous for its stained-glass windows. Designed by a well-known Australian artisan, Philip Handel, the windows were funded by the relatives of prisoners of war.

Agnes Keith's House

Capture a glimpse of the past as you visit Agnes Keith's house, a typical colonial house built in the early 20th century. Agnes Keith was an American author married to the former Conservator of Forest, who popularised the old seafarer's name of Sabah in her book *Land Below the Wind*.

English Tea House

Enjoy a cup of tea in the English Tea House with a choice of the familiar English scones or try a local hors d'oeuvre. Time permitting, walk to the observation pavilion if you wish, to see the views of the city before returning back to the ship.

Please note: This tour requires a moderate amount of walking, some of which is uphill. It is not recommended for guests with limited mobility or those who utilise a wheelchair. Pagsanjan River

Scenic Canoe Ride

Upon arrival at the *Pagsanjan River View Resort*, proceed to the canoe launching area. Receive your safety instructions, then embark in a canoe manned by able-bodied boatmen for a ride upstream to the falls. Along the way, skim by rocks and boulders amidst steep gorges and lush vegetation.

MNL-D / CORREGIDOR ISLAND

DIFFICULTY

Price:\$149; Duration:9.25 hrs

Step back in time as you visit Corregidor Island, the 'Rock', as it was known in World War II. This memorable tour also includes a dramatic Light and Sound show as well as a multitude of historical landmarks that serve as reminders of a world at war.

From the pier, a 30-minute transfer will take you to the terminal for your 1 hour and 30 mins ferry ride to Corregidor, 27 miles (43 kilometres) across the bay from Manila.

Corregidor Island

Upon arrival, begin a guided tour of the island in open-sided Tramvia buses. As the last bastion to fall to the invading Japanese in 1942, Corregidor acquired immense significance as a symbol of the determined resistance of its Filipino and American defenders. Today it is a national shrine. Divided geographically into Topside, Middleside, Bottomside, Malinta Tunnel and the Tail, it is at Topside that the most vivid realities of the war can be seen and felt. Desolate ruins of barracks and buildings stand as stark reminders of the ugliness of a world torn by war. Topside was the location of Fort Mills, the nerve centre of military life at Corregidor. Here stands the sombre Pacific War Memorial, commanding a view of the surrounding waters.

Malinta Tunnel

After a buffet lunch at the Island, visit the site of General MacArthur's headquarters. The Malinta Tunnel contains mile-long barracks, gun batteries, a ruined hospital and a small museum. Exhibits include photographs of Corregidor as it was before World War II. It was to this tunnel that the defenders retreated, defying the Japanese as long as possible. In the end, the lack of water, food, medicine and ammunition left them little choice but to surrender on May 6, 1942. A 30-minute multimedia presentation provides an impressive dramatization of the war's events.

Depart Corregidor in mid-afternoon for the trip back to Manila's ferry terminal, where the transfer coach is waiting to return you to the ship.

Upon arrival, begin your guided walking tour. Explore some of the abundant and diverse wildlife found in Borneo's rainforest, including orangutans, long-nosed proboscis monkeys, Asian pygmy elephants, gibbons, hornbills, and more.

Pass by the Sabah State Mosque en route to the Sabah Museum and Heritage Centre; this gold-domed state mosque is centrally positioned and overlooks most of the town. It reflects contemporary Islamic architecture and can accommodate 5,000 worshippers. There is a special balcony with room for 500 women to pray.

Sabah State Museum

Located on Bukit Istana Lama, a hill behind the State Mosque, this museum was built in the longhouse style of the Rungus tribe. The museum has a wealth of historical and tribal treasures, and handicrafts made by the indigenous peoples. Ceramics and traditional weapons reflect the diversity of the State's culture and traces Sabah's early trade links with the neighbouring countries of Southeast Asia and China. The museum also houses musical instruments, tools, and ritual paraphernalia. The major highlights are the exhibits of life-size traditional houses belonging to ethnic groups.

The coach then takes you through the city centre and back to the awaiting ship.

Please note: This tour requires an extensive amount of walking to explore the zoological park fully and guests must be able to embark and disembark the coach via the bus steps. It is not recommended for guests with limited mobility. We recommend bringing protection from the sun (hat, glasses, and lotion), insect repellent, and a light raincoat, as it generally rains in the afternoon.

SIN-J / HIGHLIGHTS OF SINGAPORE

DIFFICULTY

Price:\$89; Duration:4.50 hrs

Observe and experience the typical Singapore lifestyle - one that is uniquely different from those found in the rest of Asia - on this half-day informative tour.

Board the coach and leave the pier. Your excursion begins with a visit to the Singapore City Gallery for an overview of how urban planning (including conservation, architecture, civil engineering and building) shapes the way its people live, work and play. Get a bird's-eye view of downtown Singapore from a finely detailed architectural model.

Travel to Toa Payoh, a first-generation New Town built in the late 1960s to solve the acute shortage of proper housing in Singapore. Walk through the Housing Development Board (HDB) Gallery to view a typical layout of the various towns, along with models of the various types of flats in which Singaporeans live. Today, 87% of the population lives in a HDB flat.

Continue on with a stroll through the town centre, where you can mingle with the local people and indulge in a bit of neighbourhood shopping in the many shops selling all sorts of merchandise. View the many communal facilities that make the town self-contained, including a bus interchange' sub-way station, schools, clinics, community centres, parks, a sport stadium, an indoor sports hall, and a swimming pool complex. See the many places of worship existing in close proximity to one another.

Next, take the local bus drive to Bishan, a second generation New Town, designed and built in early 1990's to accommodate the lifestyle of a more affluent and wealthier population.

There are many obvious contrasts between the first- and second-generation New Towns. The later blocks of second-generation flats are of a more contemporary design, and nearly twice the height of the first-generation flats. The town centre is occupied by a large shopping mall that caters to the shopping and entertainment needs of the whole community. Many of the communal facilities are located near to the shopping mall.

Your final stop is to Singapore latest downtown Icon - The Marina Barrage. Built across the mouth of the Marina Channel, the Marina Barrage creates Singapore's 15th reservoir, and the first in the heart of the city. With a catchment area of 24,700 acres (10,000 hectares), or one-sixth the size of Singapore, the Marina catchment is the island's largest and most urbanised catchment.
