General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 days until 48 hours prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) until 48 hours prior to sailing. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Please visit MySilversea (my.silversea.com) for the most up-to-date information. Discounts for children under 12 years of age are available on some, but not all tours. Prices for children, if available, will be adjusted onboard. Please meet with the Shore Concierge team prior to your excursion to discuss the availability of children's pricing.

ON-TIME TOUR DEPARTURES

As a courtesy to fellow guests, tour departures generally will not be announced unless there is an unforeseen change. Departure times from the ship are published in the ships daily newspaper, the Silversea Chronicle. Guests are kindly requested to proceed ashore at least ten minutes prior to the tour departure time. The Shore Concierge team will be pier-side to direct you to the appropriate transportation. When the ship is at anchor, guests must allow additional time to tender ashore.

Silversea Cruises reserves the right to adjust itineraries and tour departures as local conditions dictate. Please note that pier departure times are also listed in MySilversea (my.silversea.com)

Our aim is to give you a travel experience that goes beyond the ordinary and many of your questions about our ports of call will be answered in these briefings, giving you more time to enjoy and immerse yourself in each port. The information is presented in the theater or is pre-recorded and played on your in-suite entertainment system.

SILVERSEA SHUTTLE SERVICE

Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. This service may not be possible in ports where a strong taxi union exists, preventing Silversea from providing a complimentary shuttle. The availability and schedule for this service will be announced onboard and listed in the Silversea Chronicle. We are not able to advise this in advance. Operationally, intervals between shuttle bus departures could be affected by local traffic. Silversea is not liable for any unforeseen delays. There will be a break in service for driver meal times. Shuttle service is offered during the day only. The shuttle service is designed to augment local transportation; guests requiring more flexibility may prefer not to wait for a shuttle and secure a taxi at their own expense.

To ensure the safety of our younger guests, participation by children in certain shore excursions may be restricted. To ensure the safety of our younger guests, children up to the age of 8 years old are only permitted to participate in suitable Silver Shore Excursions and the shuttle service, if the vehicles are equipped with the correct safety harness and seating equipment, to accommodate a child. Such harnesses' and secure seating cannot be guaranteed. Alternately guests may use their own approved safety seat, booster seat or harness as long as they are compatible with the local touring vehicle and can properly secure the young guest. Silversea reserves the right to refuse children under the age of 8 years old on any tour on the basis of safety.

DAR-B / HISTORIC BAGAMOYO

DIFFICULTY

Price:\$239; Duration:8.00 hrs

Significant historical associations have made Bagamoyo an interesting place to visit. Due to its location as a mainland port close to Zanzibar, Bagamoyo developed as a centre for caravans and trade in slaves and ivory. In addition, it was the terminus of the missionaries and the site of the first Roman Catholic Church in Tanzania. The body of famed explorer David Livingstone was brought here in 1874, after which it was carried for hundreds of miles from the interior. Renowned European explorers such as Speke, Burton, Stanley, Peters and Emin Pascha all visited Bagamoyo at one time or another.

Kaole Ruins

Depart the pier with the approximate 1-hour drive north. Make a stop at the Kaole Ruins to see the remains of mosques and tombs thought to have been in use between the 3rd and 4th centuries.

Lunch

From here, continue your drive to Bagamoyo, and proceed to the Travellers Lodge where a buffet lunch will be served. One hour for lunch, and another extra one hour for leisure and enjoy beach. Swimming is allowed but is subject to tide on particular day.

Holy Ghost Mission

After your lunch, next stop is the Holy Ghost Mission Complex, which consists of several buildings including the First Church which was established in 1872, the Father's House, the Mission Museum and the New Church, constructed from coral bricks in the early 1900's. David Livingstone's body was also brought here

Old Fort Photo Stop

At the conclusion of your visit, begin the return journey to Dar Es Salaam en-route you will pass the Old Fort, for a short photo stop. Dating from around 1860, the initial purpose of the Old Fort was to hold slaves until they could be shipped to Zanzibar. With its three stories, buttresses and battlements, it is quite an impressive sight. The building was used as a police post until 1992.

Your tour concludes at the pier to re-join the ship.

The climate is extremely hot & humid, therefore a risk of dehydration - guests are encouraged to drink plenty of water.

Please Note: This tour requires a moderate amount of activity with approximately 85 metres (279 feet) of walking and some extended periods standing during demonstrations and sightseeing. This tour is not suitable for guests with limited mobility or those who utilise a wheelchair. The distance to Bagamoyo is 45 miles (72 kilometres), approximately 1.5 hours drive each way. Guests must be aware that equipment and guides may not be up to Western standards but are the best available in this particular area; air conditioning in tour vehicles cannot be guaranteed. There are no restrooms available until arrival at Bagamoyo. We recommend comfortable shoes, light layered clothing, sun hats, sun glasses and sun lotion. Also take along swimsuits and beach towels for optional swimming (depending on tides & time). Photography is not permitted in the museum unless payment is made. The fees vary for each museum and for camera size.

DAR-C / DAR ES SALAAM CITY & RELAXATION TOUR

DIFFICULTY

Price:\$149; Duration:7.00 hrs

Raised from the humble surroundings of a fishing village just over a century ago, Dar es Salaam blossomed into one of the most beautiful seaside capitals. The modern history of Dar es Salaam dates from 1857 when the then Sultan of Zanzibar decided to turn the inland creek just south of Mzizima into a port and trading centre. Appropriately, this town was named Dar Es Salaam meaning "Heaven of Peace". Its importance rose with the steam ship services, which rendered the former port of Bagamoyo impractical. In 1891, the German High Commissioner transferred the seat of his government from Bagamoyo to Dar Es Salaam, and in 1902 a floating dock was made operational.

Your first stop will be a visit to the renowned National Museum. This outstanding attraction is known as the Hall of Man where Dr. Leakey's finds from Olduvai Gorge including the skull of Nutcrackerman (*zinzanthropus bosei*) and other human fossils are displayed. The stages of man's

development over the last 10 million years are clearly traced and illustrated. The museum offers an outstanding ethnographic collection of tribal ornaments, head-dresses, witchcraft paraphernalia and traditional musical instruments collected from various regions in Tanzania. Also the history of the East African Coast is well portrayed with Chinese porcelain, glazed pottery, trade wide beads from India and a series of copper coins of the Sultan of Kilwa.

After an enjoyable visit we travel to Tinga Tinga, where we find a house or gallery if you will, of arts where local painters portray their skills in the local 'tinga tinga' art form. Sometimes referred to as crazy art, due to the very bright colour schemes and distorted figures of reality. At the Tinga Tinga center you will be able to see painters at work, and will have ample opportunity to purchase various souvenirs and household utilities that have been painted in Tinga Tinga style e.g. letter openers, trays, name plates, cup holders, key chains, as well as actual paintings on canvas.

After Tinga Tinga, continue to the White Sand Beach Resort, where a buffet lunch will be enjoyed

After lunch, next stop is the Village Museum which is located approximately 10 kms along Bagamoyo Road and has a collection of authentically constructed traditional houses of various Tanzanian tribes. It displays several distinct architectural styles with building materials ranging from sand, grass and poles to mud and rock. On certain days, villagers demonstrate their ancient skills of carving and weaving and offer their products for sale.

En route to ship, pass the State House which accommodates the offices of the President. It has an ornate structure reflecting a blend of African and Arabic architecture, partly built on the foundation of the old German Palace in 1922. We also pass a statue erected in memory of the African soldiers who lost their lives in WWI.

The climate is extremely hot & humid, therefore a risk of dehydration - guests are encouraged to drink plenty of water.

Please note: This tour involves an moderate amount of walking, with a few steps to negotiate to get on/off the coach. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Elevators are not available at visited sites nor at the restaurant. Guests must be aware that equipment and guides may not be up to Western standards but are the best available in this particular area; air conditioning in tour vehicles cannot be guaranteed. There are no restrooms available on the coaches. Guests are recommended to please ensure to first ask locals if they wish to take their photo. No photography of police/army or White House is allowed. Photography is not permitted in the museum unless payment is made. The fees vary for each museum and for camera size. We recommend comfortable shoes, light layered clothing, sun hats, sun glasses and sun lotion. Also take along swimsuits and beach towels for optional swimming.

DAR-A / DAR ES SALAAM HIGHLIGHTS

DIFFICULTY

Price:\$99; Duration:3.00 hrs

This tour provides a look at Dar Es Salaam with some insight into daily activities. Departing the pier, drive through the city centre and toward Mnazi Moja Park where you can see a replica of the Uhuru Torch Monument. The original one was erected on Mt. Kilimanjaro to commemorate freedom from colonialism that came with independence.

We then have the opportunity to enjoy a more formal historical perspective at the National Museum. During your visit, see historical and archaeological items, among them Louis and Mary Leakey's finds from Olduvai Gorge. These human fossils displayed in the Hall of Man include the skull of the so-called Nutcracker Man. There is also a collection of tribal ornaments, headdresses, witchcraft paraphernalia and traditional musical instruments collected from various regions in Tanzania. (The museum is not air-conditioned.)

From here proceed with a drive to the Makumbusho Village Museum. Our tour takes us back in time as this is where we have an opportunity to learn more about the culture of the 120 different indigenous tribes. See the different architectural styles and use of building materials, in addition to possibly eyeing artists working on some more traditional crafts.

Thereafter we visit Tinga Tinga which displays traditional art that is unique to Tanzania. During the visit we will see the artists working on their colourful designs be it on canvas, house hold utensils, letter openers and even key rings.

From here, we head back to the port.

The climate is extremely hot & humid, therefore a risk of dehydration - guests should drink plenty of water.

ZAN-B / MAHARUBI PALACE RUINS & SPICE PLANTATION

DIFFICULTY

Price:\$79; Duration:3.75 hrs

Taking a spice tour in Zanzibar provides a good way to understand why Zanzibar and spices are synonymous. In the 19th century, the Sultan of Oman introduced cloves to the island, which today is Zanzibar's main export product.

Depart from the pier and drive past the house of Dr. David Livingstone, where he stayed while planning his explorations into the interior.

You will visit the ruins of Maruhubi Palace, built by Sultan Barghash, the third Arab sultan of Zanzibar, who used the building to accommodate his wife and concubines. The sultan himself lived in a separate palace in Zanzibar Town. In 1899 the Maruhubi Palace was destroyed by a fire, leaving only a few remains, including some massive stone columns which supported a large wooden balcony which surrounded the upper floor.

Proceed to the countryside, where we offer the first time visitor a look at and taste of the spices grown mostly in off-road regions not easily accessible. You will stop in a luscious green clearing, where examples of spice plants are available for you to smell, taste, touch and see, you will get to see what the products you normally buy in packets or jars in supermarkets look and taste like fresh off the plant. The great variety of spices and plants grown here is used in food flavouring and preparation, cosmetics, dyes and traditional medicines. A local boy will climb up a tall coconut tree while you are walking through the spice area, to reach those plants situated high of the ground, as he then uses his legs to shimmy back down the swaying palm. It is possible depending upon the season to sample some of the edible fruits. Spice packets are available for sale on the rustic tables set up whenever visitors are spotted.

After this experience, you will continue with a visit to the Persian baths at Kidichi, built by the first Sultan for his Persian wife. Then commence your return back to the pier.

Please note: This tour requires a moderate amount of walking for approximately .45 miles (700 metres) and is not suitable for guests with limited mobility or those who utilise a wheelchair. Guests must be aware that buses and guides are the best available. Tour vehicles come in various sizes and qualities; air-conditioning cannot be guaranteed. Zanzibar is predominantly Muslim therefore guests should dress conservatively with shoulders and knees covered. As climate can be extremely hot and humid, we recommend wearing comfortable closed-toed shoes, cool cotton clothing, sunscreen and a hat. The order of sites visited may vary to avoid congestion. Souvenir shop accepts USD, EURO, GBP and credit cards. Photography of Police Officers or persons in uniform is strictly forbidden.

ZAN-C / SANDBANK DHOW ADVENTURE

DIFFICULTY

Upon arrival, you can relax in the shade, sunbathe, or swim and snorkel on a delightful reef that is just a short boat-ride from the sandbank. Your crew is on-hand to provide instruction on the boat and in the water at all times. Refreshments, snacks, fresh juices, and a Zanzibar-style seafood-and-beef buffet lunch are served on the sandbank. After lunch, relax with a coffee served with Amarula liquor and some additional free time for another swim in the ocean.

At the conclusion of your visit, embark your dhow-boat and commence the approximately 30-minute drive back to the boarding point. Upon arrival, re-board your coach for the short transfer back to the pier.

MAM-E / THE SOUTH & COCONI

DIFFICULTY

Price:\$99; Duration:3.30 hrs

Depart the pier with your local English speaking guide to discover the beauty of the South Eastern coast of Mayotte. Your first stop is Musical Beach and includes a visit to the biggest Baobab tree on the island located along Bambo Islet.

The majestic baobab tree is an icon of the African continent and lies at the heart of many traditional African remedies and folklore. Native to the African savannah where the climate is extremely dry and arid, it is a symbol of life and positivity in a landscape where little else can thrive. Over time, the Baobab has adapted to its environment. It is a succulent, which means that during the rainy season it absorbs and stores water in its vast trunk, enabling it to produce a nutrient-dense fruit in the dry season when all around is dry and arid. This is how it became known as "The Tree of Life".

Next, drive across the Choungui Pass and enjoy a view of the volcanic mountain named Choungui Peak, one of 11 peaks on Mayotte and ranked the second highest on the island measuring 1,946 feet (593 metres). The highest peak is Mont Bénara however only visible from far out at sea.

Re-board your vehicle and depart for a photo stop at Tahiti Beach to admire the beautiful landscape. Tahiti beach is one of the most beautiful beaches in Mayotte with its clear water and sand and location away from noise.

Your next stop will take you inland through lush and green scenery en-route for the Botanical Gardens where you will enjoy local fresh fruit juice and fruits in a beautiful garden setting with scents of spices of the island. Enjoy a folkloric performance by the local women called "Boueni" in their local language. Guests may also stroll the gardens at their own discretion.

At the conclusion of the performance, re-board your vehicle for the approximate 45 minute drive back to the pier in Mamoudzou.

Maputo - Mozambique

MAP-A / MAPUTO CITY ORIENTATION

DIFFICULTY

Price:\$99; Duration:3.00 hrs

Departing the harbour, passing the beautiful Train Station which, built in 1910 by Gustav Eiffel, of Eiffel Tower fame, is definitely an architectural highlight of Maputo. You will then proceed to the local Maputo market for a glimpse of how the locals barter for a variety of goods and foods. A focal point in the city is the Praca de Independencia or Independence Square. Around it are a statue of the country's first president, Samora Machel, the gleaming white Roman Catholic cathedral, the neo-classical City Hall and the French-Mozambican cultural centre, a splendid old colonial building which has been tastefully restored and now presents art exhibitions. You will also have the opportunity to take photos of the weird and wonderful concept of a house made entirely out of iron - very impractical for the hot African summers.

Continue to the Museum of Natural History where you will have the opportunity to explore the museum famous for housing the only elephant fetus in the world amongst a host of other interesting artifacts.

Next, continue to the Maputo Fort, one of the most visited attractions in the city. It was originally built in 1721 and destroyed and rebuilt by local people. Enjoy a look into the past, reviving old stories of corsairs and sailors.

Re-board your coach for the short ride back to the pier.

Please note: The cost of providing a tour program is proportionately more expensive than in neighbouring nations. Unfortunately this is reflected in the prices of the tours. Mozambique is a third world country and although it is a rewarding experience, it differs greatly from South Africa in all aspects. We thank your understanding. Some of the monuments and attractions en-route may fall under "military or state defence objects", therefore we kindly ask you not to take any pictures as this may result in serious problems ignoring these rules. Please ask your tour guides advice first. This tour involves a minimal amount of walking, and is not suitable for guests who utilise a wheelchair and those with limited mobility. We recommend wearing sunscreen, a hat, sunglasses, and comfortable walking shoes. The coaches although basic, are maintained and the quality can vary considerably. There is no formal guiding qualification required for Mozambique, and in order to support the local community we use local escorts/guides, many of them having previous experience in guiding for visiting cruise ships. Whilst the roads are tarred, there are many with potholes and a number of bumpy dirt roads, which will be navigated carefully. Traffic in the area can affect the overall tour schedule. Maputo is a fast moving developing country and changes to the itinerary may occur or sites may be replaced or changed. Order of sites visited can vary because of local conditions.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

DIFFICULTY

Price:\$169; Duration:4.00 hrs

Explore the local culture, lifestyles, people, food, and medicine of Mafalala during this scenic and informative, half-day sightseeing excursion.

Maputo

Depart the pier for the short drive to Mafalala, a central suburb of Maputo City. Formerly known as 'Lourenço Marques' and named after the Portuguese explorer who landed here in 1544, Maputo is the capital and largest city of Mozambique. A bustling port on the Indian Ocean, its economy is centred on the harbour. The country has only been at peace for a relatively short time following a devastating civil war in the '70s and '80s, a period during which most of the city's infrastructure and architecture were destroyed. Since the signing of a peace treaty in 1991, great strides have been made in the 'healing' of this once-affluent Portuguese city, and the city today is slowly recreating some of its former glory.

Mafalala, Guided Walking Tour

Mafalala has a long and interesting history. Throughout Mozambique's turbulent past, Mafalala has always been an important cultural and political centre. This suburb has produced famous political leaders, writers, musicians and sports heroes. Upon arrival, take a guided stroll through Mafalala.

Local People, Culture, Food and Medicine of Mafalala, Feima Market

Along the way, learn about the local ethno-cultural diversity and Mozambican history, thus garnering a unique perspective of the last half-century. As you walk through Mafalala's dusty streets, winding alleys and market, gain a unique insight into its local foods, medicine and lifestyles, and interact with the local people. Leaving Mafalala, re-board your coach and continue on to the Feima Market, where some free time is made available to browse for souvenirs. Maputo - Mozambique

MAP-F / MAPUTO ON-FOOT

DIFFICULTY

Price: \$69; Duration: 2.50 hrs

Discover the highlights and history of Maputo on-foot during this picturesque sightseeing excursion through the city.

Maputo, Guided Walking Tour

Depart the pier for a guided walking tour of Maputo City. Formerly known as 'Lourenço Marques' and named after the Portuguese explorer who landed here in 1544, Maputo is the capital and largest city of Mozambique. A bustling port on the Indian Ocean, its economy is centred on the harbour. The country has only been at peace for a relatively short time following a devastating civil war in the '70's and '80's, a period during which most of the city's infrastructure and architecture were destroyed. Since the signing of a peace treaty in 1991, great strides have been made in the 'healing' of this once-affluent Portuguese city, and the city today is slowly recreating some of its former glory.

Railway Station, Bronze Dome, Central Market

Leaving the harbour, walk past the beautiful Railway Station. An architectural highlight of Maputo, the Railway Station was built during 1908-10 and designed by engineer Alfredo Augusto de Lima. The remarkable bronze dome, created especially for this building, was constructed in South Africa and its assembly was an innovation for that time. From the Praça Dos Trabalhadores, walk to the Mercado Central (Central Market). This bustling market abounds with a huge diversity of colours and aromas, and is a great place to observe how the locals barter for a variety of goods and foods.

Café Visit, Pastry and Espresso, Maputo Fort

Leaving the Central Market, continue walking towards a classic and sophisticated café. Upon arrival, taste the famous 'pastéis de nata' served with an espresso coffee. Afterward, head to the Maputo Fort, one of the most-visited attractions in the city. Originally built in 1721, it was destroyed and rebuilt on several subsequent occasions. During your guided visit to the Maputo Fort, relive the past, and hear old stories of corsairs and sailors. At the conclusion of your tour, return to the pier on-foot, enjoying the ambiance of the quayside en route.

Please note: This tour involves a moderate amount of walking for approximately 547 yards (about 500 metres), at times over uneven surfaces, with a few steps to negotiate at the sites visited. Walking at the Central Market is at the discretion of each guest. This tour is not suitable for pregnant guests, guests with neck and/or back problems, guests prone to motion sickness, guests with limited mobility, and guests who utilise a wheelchair. Lightweight, comfortable clothing with flat, closed-toe walking shoes and sun protection are recommended. RCB-E / SHAKALAND ZULU VILLAGE

DIFFICULTY

Price:\$169; Duration:7.00 hrs

Depart from the quayside in Richard's Bay and drive by coach via Empangeni to Shakaland, and Duma Zulu Village. Shakaland was built initially for Shaka Zulu, a TV mini-series about King Shaka that was made in South Africa in the mid-1980s, but the attention to detail by the set designers meant there was little work needed to transform it into an authentic cultural experience.

Upon arrival you are met by a Zulu guide and served a welcome refreshment. Then you are invited to relive the excitement and romance of the days of King Shaka, the King of the Zulus.

Walking through the village, you will see a variety of displays including Zulu women creating beadwork, weaving mats, sculpting pottery, baking bread and brewing Zulu beer. The Zulu men will show you how to make a spear & shield and how to build a Zulu 'beehive' grass hut. Your guide will interpret the daily activities and you will have the opportunity to view a short audio-visual presentation.

Next, you are invited into the Chief's Hut where Zulu dancers will perform rhythmic drum dances and tribal members will recreate a ritual by the Sangoma (traditional healer).

Following this performance, a traditional Zulu buffet dinner will be provided at a restaurant overlooking the Umhlatuze Lake.

Before re-boarding your coach for the return drive to Richard's Bay and your awaiting ship, some leisure time is available to explore the village on your own and to visit the local curio shops.

Please Note: Most of the tour takes place outdoors and involves a moderate amount of walking. This tour is not recommended for guests who have walking limitations. It is Zulu custom for young, unmarried women to go topless. No photographs or videos may be taken of the Sangoma (traditional healer). The village has mostly gravel ground, which can be slightly muddy after heavy rain. Guests are advised to wear flat, comfortable walking shoes, sun hats, sun block & sunglasses.

DUR-C / VALLEY OF A THOUSAND HILLS

DIFFICULTY

Price:\$79; Duration:4.00 hrs

Meet modern and olden day African tribal culture in the traditional and spectacular homeland of the Zulu on this half-day exploration of the 'Valley of a Thousand Hills'.

Depart the pier aboard your coach and drive via the national road for approximately one hour towards the Phezulu Safari Park. In this geographically wondrous part of the world shaped first by the windings of the great Mgeni River, then by the culture of the Zulu tribes and finally by the coming of European man, the hills still beat to the Zulu drum.

As you journey into the valley, learn how historically these tranquil rolling hills belie the blood-soaked drama that unfolded almost two centuries ago. It was then when the Zulu King Shaka, known to historians as the 'Black Napoleon', subjugated the tribes that today make up the Kingdom of the Zulu.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Your visit to Phezulu (an open-air museum) creates the opportunity to discover first-hand the intricacies, ethnic customs and beliefs of the Zulu people. Here Zulu tales and history are depicted in energetic, costumed song and dance by the renowned Gasa clan, who have been performing unique plays for over 40 years. Dances of courtship and betrothal, of the throwing of the *Sangoma's* (witch doctor) bones, of war and of birth, set to the mesmerising beat of the Zulu drum, take you into another world.

Afterwards, explore the Zulu cultural village on your own with its traditional beehive huts and fascinating glimpses into African tribal culture. Learn what the different coloured beads that adorn the skirts actually represent and how the women make bread and beer. Venture into Phezulu's impressive reptile park, taking home vivid images of some of Africa's most renowned snakes and learning about the crocodiles. Tea, coffee and refreshments are served during the course of the tour and there is time to browse through a wealth of ethnic home crafts on sale in the well-stocked curio shop, ranging from pottery, Zulu fabric art, woodcarving, beadwork and curios.

Following your visit, commence the return back to the pier in Durban via the national highway.

Please note: This tour requires a moderate amount of walking and it is not suitable for guests with limited mobility or those who utilise a wheelchair. Flat, comfortable walking shoes and sun hats are strongly recommended. There are paved pathways and some uneven, sandy terrain, where the show will be held. The ground can be muddy after heavy rainfall. There is a wooden boardwalk, with a few steps, through the snake & crocodile enclosure. The villagers at this open-air museum are actors educating guests with the ways of the traditional Zulu people. It is Zulu tradition for young, unmarried women to go topless. There is a local curio shop to purchase souvenirs, local currency or credit cards accepted.

DUR-G / SOS CHILDREN'S VILLAGE

DIFFICULTY

Price: \$89; Duration: 4.15 hrs

Take this opportunity to learn more about the important contribution this organization is making internationally, during this half-day outing to 'Give Back'.

Depart from the quayside in Durban and drive by coach to SOS Children's Village.

This Village was developed in response to a call for help from a city pediatrician, who was concerned at the high number of orphans abandoned at government hospitals. The Village houses 152 children, as well as reaching 962 children in the highly successful Family Strengthening Programs.

In 1992, the Natal Emergency Help Program was launched to provide temporary accommodation in rented houses for orphans living in very poor conditions in government hospitals. Once suitable land was found, a Village was built consisting of 15 family homes and an SOS Kindergarten.

The SOS Kindergarten caters for 125 children in 5 classrooms. Children in the nearby informal settlement who could normally not afford to attend pre-school are offered a scholarship to come to the Kindergarten. The teachers are also committed to building the capacity of teachers in community crèche's, by conducting holiday skills training sessions.

The Family Strengthening Program operates in the informal settlement called France, situated close to the Village. A hydroponics vegetable project has been established with the support of the Premier of KwaZulu-Natal's wife, Mrs. Ndebele. Nine women from France grow and market tomatoes and mushrooms, thus generating income for their own families. Another successful project is the self-help groups which involve poor women in small-scale savings and income generation.

On arrival at the village proceed to visit the Family Strengthening Program, a community project next to the village where the homes are headed by children. Here you will visit two or three homes and then continue to the 'White House', where everything is coordinated for the project e.g. Distribution of food parcels, bereavement programs, South Africa Department of Home Affairs help with Birth certificates and Identity Documents. You will also visit the knitting, sewing or gardening projects in the community with a presentation from your coordinator.

Return to the village which caters for the little ones as well as children from the nearby community. Proceed on a tour of the village and a presentation. After the presentation and tour, spend some time at the 'house of the week'. The Village has a few different houses with a House Mother and each week a house has the opportunity to be 'house of the week', during the presentation this will be discussed in more detail.

Return to the quayside in Durban.

Please note: This tour involves a moderate amount of walking. It is not wheelchair accessible and is not suitable for guests with limited mobility due to the nature of the terrain. Some sites visited on this tour are in extreme poverty, but with the aid of the government and NGO's the communities are busy being uplifted, making it a place of hope. One needs to be prepared for this aspect of the tour, as it is definitely a "no frills experience". If guests wish to donate directly to the school or community project i.e. stationery, canned foods or money, it will be most welcomed; however we suggest that this is done directly to the SOS representative to ensure equitable distribution. The more we can help the better. Please visit the following website for more information on how you can help: <http://www.soschildrensvillages.org/Where-we-help/Africa/South-Africa/Pietermaritzburg/Pages/default.aspx>

All proceeds of this tour will be donated on behalf of the guests by *Silversea Cruises* to the SOS Children's Village.

DUR-C / VALLEY OF A THOUSAND HILLS

DIFFICULTY

Price:\$79; Duration:4.00 hrs

Meet modern and olden day African tribal culture in the traditional and spectacular homeland of the Zulu on this half-day exploration of the 'Valley of a Thousand Hills'.

Depart the pier aboard your coach and drive via the national road for approximately one hour towards the Phezulu Safari Park. In this geographically wondrous part of the world shaped first by the windings of the great Mgeni River, then by the culture of the Zulu tribes and finally by the coming of European man, the hills still beat to the Zulu drum.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

As you journey into the valley, learn how historically these tranquil rolling hills belie the blood-soaked drama that unfolded almost two centuries ago. It was then when the Zulu King Shaka, known to historians as the 'Black Napoleon', subjugated the tribes that today make up the Kingdom of the Zulu.

Your visit to Phezulu (an open-air museum) creates the opportunity to discover first-hand the intricacies, ethnic customs and beliefs of the Zulu people. Here Zulu tales and history are depicted in energetic, costumed song and dance by the renowned Gasa clan, who have been performing unique plays for over 40 years. Dances of courtship and betrothal, of the throwing of the *Sangoma's* (witch doctor) bones, of war and of birth, set to the mesmerising beat of the Zulu drum, take you into another world.

Afterwards, explore the Zulu cultural village on your own with its traditional beehive huts and fascinating glimpses into African tribal culture. Learn what the different coloured beads that adorn the skirts actually represent and how the women make bread and beer. Venture into Phezulu's impressive reptile park, taking home vivid images of some of Africa's most renowned snakes and learning about the crocodiles. Tea, coffee and refreshments are served during the course of the tour and there is time to browse through a wealth of ethnic home crafts on sale in the well-stocked curio shop, ranging from pottery, Zulu fabric art, woodcarving, beadwork and curios.

Following your visit, commence the return back to the pier in Durban via the national highway.

Please note: This tour requires a moderate amount of walking and it is not suitable for guests with limited mobility or those who utilise a wheelchair. Flat, comfortable walking shoes and sun hats are strongly recommended. There are paved pathways and some uneven, sandy terrain, where the show will be held. The ground can be muddy after heavy rainfall. There is a wooden boardwalk, with a few steps, through the snake & crocodile enclosure. The villagers at this open-air museum are actors educating guests with the ways of the traditional Zulu people. It is Zulu tradition for young, unmarried women to go topless. There is a local curio shop to purchase souvenirs, local currency or credit cards accepted.

ELS-C / KHAYA LA BANTU - XHOSA CULTURAL EXPERIENCE

DIFFICULTY

Price:\$179; Duration:4.00 hrs

Experience a taste of the Xhosa culture on this half-day memorable excursion to Khaya La Bantu.

Depart the quayside and drive through East London, passing Orient and Eastern Beaches en-route. Travel along the national highway toward the former homeland, known as the Transkei, enjoying views of rolling hills, farmland and traditional Xhosa villages en route to Khaya La Bantu, an open-air, Xhosa cultural museum.

On arrival at this reproduction of a traditional village, you will be welcomed by the local villagers and invited to join them at the community centre, which the villagers built by hand using mud for the walls and thatch for the roof. Wooden benches provide seating. Please ask the locals for permission to take pictures of them.

At the community centre, listen as one of the representatives introduces you to the various Xhosa customs and traditions and a performance of traditional dance and song.

You are then invited to join your guide for a walk through the village. See the traditional *kraal*, a round building of interwoven branches that houses cattle, pigs, goats and chickens. The friendly villagers invite you to look into their huts as they explain the techniques used to build them.

Complimentary refreshments will be served at the community centre and you will have the opportunity to taste a variety of traditional Xhosa foods, including *samp*(de-hulled dried corn) & beans, wild spinach with maize-rice, and pot-breads.

ELS-D / CANOEING ON THE NAHOONE RIVER

DIFFICULTY

Price:\$279; Duration:3.50 hrs

Depart the quayside and proceed to East London's city centre. Drive along Oxford Street, passing the City Hall, built in 1897, in the 60th year of Queen Victoria's reign. Today, the City Hall is graced with a statue of the martyred activist, Stephen Biko.

In 1836, the British established East London as a military post, which they used as a base during the Xhosa wars. The arrival of German settlers, who had been serving as mercenaries in the British-German Legion, gave the place at the mouth of the Buffalo River an economic boost - and in 1873 East London was given town rights.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Continue past the East London Museum, which was established in 1921. It is home to a number of fine exhibits, including the type specimen of the coelacanth, a fish previously believed to have become extinct some 80 million years ago.

Your canoeing adventure will take place on the Nahoon River and takes approximately 2 hours. There will be a qualified lifeguard on each canoe trail and lifejackets will be worn by all participants. Fluid kayaks will be used which are very stable and take two people each with a maximum carrying capacity of 485 pounds (220 kilograms/ 35 stone). It is a tidal estuary and there is abundant birdlife including kingfishers, cormorants, herons (a large nesting colony) darters, woolly necked stalk, sacred ibis, Egyptian geese, blacksmith plover, egret, occasional fish eagle, osprey and goliath heron sightings. CPT-B / CAPE TOWN & TABLE MOUNTAIN

DIFFICULTY

Price:\$89; Duration:3.50 hrs

No visit to Cape Town is complete without a trip up Table Mountain, the city's most celebrated landmark.

Depart from the pier and travel up Kloof Nek, the saddle between Table Mountain and Lions Head, to the Lower Cableway Station. Here, board the Swiss-engineered Rotair cable car and ascend from the Valley Station 1,190 feet (363 metres) to the Mountain Station. The journey from the base to the summit takes just under 4 minutes and there are spectacular views as the floor of the car rotates 360 degrees during the ascent and descent.

Table Mountain gets its name from the flat topped central massif of the mountain, which viewed from the city, is surrounded by Devil's Peak on the left, Lion's Head on the right, and Signal Hill in the foreground. They form a sort of amphitheatre that encloses the city centre and some of the older suburbs. Other earlier suburbs are on either side of the chain of mountains, which run like a spine through the Cape Peninsula, from Table Mountain to Cape Point - the cape from which Cape Town derives its moniker.

From the summit, the natural protected area stretching from Signal Hill to Cape Point has been managed under the custodianship of the National Parks Board. This area has one of the highest concentrations of endemic plant and animal species in any area of its size, containing a staggering 2,285 plant species, more than that of the entire United Kingdom.

Re-board the cable car for the descent, and begin the return to the ship via a short orientation tour of the city of Cape Town.

Please note: This tour requires a minimal amount of walking and it is suitable for guests with limited mobility and those who utilise a wheelchair, able to embark/disembark the coach via steps and accompanied by someone to offer assistance. Pathways may not be smooth. Wear flat, comfortable shoes and bring a sweater or light jacket if cool, as temperatures atop Table Mountain are less warm. The cable car visit at Table Mountain is strictly weather-permitting. If the cableway is closed, a visit to the South African Natural History Museum is substituted. This tour is not suitable for guests who suffer from fear of heights.

CPT-C1 / PANORAMIC CAPE TOWN & SIGNAL HILL (TOUR & AIRPORT TRANSFER)

DIFFICULTY

Price:\$79; Duration:3.50 hrs

This tour and airport transfer is offered to guests with flights that depart Cape Town International Airport after 5:00pm only.

Discover Cape Town's "Mother City" with its meticulously preserved Edwardian and Victorian buildings en-route to the Cape Town International Airport.

Proceed up Adderley Street, the principal thoroughfare of Cape Town, passing notable buildings which include the Groote Kerk and St. George's Cathedral. Also pass by Castle of Good Hope and the City Hall, before driving up Kloof Nek.

Next, continue to the summit of Signal Hill which connects Kloof Nek to Lion's Head. Views from the high summit at 1148 feet (350 metres) are nothing short of spectacular. Signal Hill rewards visitors with views of Table Mountain, the City, Cape Town Harbour, Table Bay, Robben Island, the Victoria & Alfred Waterfront, Cape Town Stadium and beachfront suburbs of Mouille Point and Sea Point.

Signal Hill is also one of the only places in the world where critically endangered Peninsula Shale Renosterveld (PSR) vegetation can still be found. It used to be the dominant ecosystem of the Cape Town City Bowl. However, urban growth has now covered most of this ecosystem, and along with a tiny patch on Devil's Peak, Signal Hill has the only surviving sample of this vegetation in the world.

Following the visit, continue to Camps Bay and then enjoy a scenic drive along the Atlantic seaboard, passing through the residential suburbs of Clifton, Bantry Bay, Sea Point and Green Point en-route.

Lastly, pass by the impressive Cape Town Stadium before continuing the airport.

Please Note: This tour requires a moderate amount of walking and is not suitable for guests who utilise a wheelchair. Guests with limited mobility must be able to embark/disembark the coach via steps with little to no assistance. There are paved surfaces at the main car park and viewpoint area on Signal Hill however should guests wander away from the main car park and viewpoint area, the terrain does become uneven. Flat, comfortable walking shoes and a sun hat are strongly recommended. This tour is weather permitting. Signal Hill is a regularly visited area for locals; should there be unforeseen traffic congestion a suitable alternative will be pre-advised.
