General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 days until 48 hours prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) until 48 hours prior to sailing. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Please visit MySilversea (my.silversea.com) for the most up-to-date information. Discounts for children under 12 years of age are available on some, but not all tours. Prices for children, if available, will be adjusted onboard. Please meet with the Shore Concierge team prior to your excursion to discuss the availability of children's pricing.

As a courtesy to fellow guests, tour departures generally will not be announced unless there is an unforeseen change. Departure times from the ship are published in the ships daily newspaper, the Silversea Chronicle. Guests are kindly requested to proceed ashore at least ten minutes prior to the tour departure time. The Shore Concierge team will be pier-side to direct you to the appropriate transportation. When the ship is at anchor, guests must allow additional time to tender ashore.

Silversea Cruises reserves the right to adjust itineraries and tour departures as local conditions dictate. Please note that pier departure times are also listed in MySilversea (my.silversea.com)

SILVERSEA SHUTTLE SERVICE

Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. This service may not be possible in ports where a strong taxi union exists, preventing Silversea from providing a complimentary shuttle. Operationally, intervals between shuttle bus departures could be affected by local traffic. Silversea is not liable for any unforeseen delays. There will be a break in service for driver meal times. The shuttle service is designed to augment local transportation; guests requiring more flexibility may prefer not to wait for a shuttle and secure a taxi at their own expense.

CHILDREN ON TOUR

To ensure the safety of our younger guests, participation by children in certain shore excursions may be restricted. To ensure the safety of our younger guests, children up to the age of 8 years old are only permitted to participate in suitable Silver Shore Excursions and the shuttle service, if the vehicles are equipped with the correct safety harness and seating equipment, to accommodate a child. Such harnesses' and secure seating cannot be guaranteed. Alternately guests may use their own approved safety seat, booster seat or harness as long as they are compatible with the local touring vehicle and can properly secure the young guest. Silversea reserves the right to refuse children under the age of 8 years old on any tour on the basis of safety.

ROE-E / WHALE AND DOLPHIN ADVENTURE SIGHTINGS

DIFFICULTY

Price:\$79; Duration:4.00 hrs

Discover some of nature's most amazing mammals from a unique perspective during this boat excursion in search of whales and dolphins.

Depart the pier for the brief stroll to your awaiting vessel. Upon arrival, receive your safety and tour instructions before setting out for the open waters. Of the 30 or more species of whales and dolphins found in the Caribbean, more than half can be found in the waters surrounding Dominica. Your captain pauses every three miles (about 4.8 kilometres) or 15 minutes so a hydrophone may be submersed to listen for the 'clicking' of sperm whales and the 'whistling' of dolphins.

During these stops, take in distant island views while your on-board guide offers information about the whales, dolphins, and wildlife. If a spout or a pod is sighted or detected, the captain manoeuvres the vessel so you can see the animals. Since their welfare is of paramount importance, guidelines set up by the International Fund for Animal Welfare are strictly followed. Fruit juice and a rum punch are served during the return ride to the pier.

Please note: This tour involves a minimal amount of walking. Guests must be able to walk and manoeuvre in and out of the boat, and participants with limited mobility may be accommodated. Upon arrival, receive a welcome beverage, then begin your educational and interactive tour with a guided stroll about the estate's ruins and grounds. Along the way, harvest some cocoa pods from a tree and observe and taste the bean as the flavour evolves during the fermenting, drying, roasting and grinding processes.

Chocolate-Making Demonstration and Tasting

Next, we will utilise Bois Cotlette's couverture blocks to temper, pour and mould their special dark chocolate into the estate's signature candies. In addition, chocolate flavour wheels will be used to help you understand and describe the different flavours that you are likely to experience when sampling fine flavour dark chocolate. ROE-H / BOIS COTLETTE ESTATE: HERITAGE TOUR

DIFFICULTY

 Price: \$89; Duration: 3.00 hrs

 Prepare for an in depth tour of Bois Cotlette during your visit to this working plantation and the oldest surviving estate on Dominica.

Bois Cotlette

Depart the pier for a scenic, approximately 30-minute drive to Bois Cotlette. Dating from the early years of French settlement in the 1720's, Bois Cotlette is the oldest surviving estate on Dominica and the subject of intense research by historians and archaeologists. Enjoy a freshly harvested and prepared drink during the estate orientation as you learn about slave labor, stone terraces, and other features of a Caribbean colonial plantation while preparing to embark on a fact finding mission to date the ruins.

Estate Tour

On the Heritage Tour, you get a chance to enjoy the Estates grounds at a relaxed pace in a pristine and tranquil setting. Uncover clues to the property's origins and learn why expert historians, too, are so enamoured with Bois Cotlette.

As you delve into the plantation history, three themes emerge. First is a story of people. Learn about the social structure of the owner/planter class, as well as life as a slave inhabitant in the late 1700's and turn of the century at Bois Cotlette. The second is a theme of technology. Windmills, aqueducts, and fresh water capture systems demonstrate an anachronistic view of a time period thought to be less advanced. Thirdly, we will focus on the commercial crops (coffee, sugar, cocoa, and citrus), with demonstrations, that define the estates existence.

Planter's Herb Garden and Refreshments

You will have an opportunity to enjoy authentic creole snacks and refreshments, and to stroll through the Planter's herb garden located just south of the Maison.

Following your visit, re-board your coach and commence the approximately 30-minute drive back to the pier.

Please note: This tour involves minimal to moderate activity and is suitable for guests with limited mobility. Guests who utilise a wheelchair must be capable of transferring from the chair to the bus with 2-3 steps to negotiate and minimal assistance as the restrooms at the plantation are not wheelchair accessible. We suggest guests dress in lightweight seasonal clothing and wear flat, walking shoes and sun protection. Be aware that roads in Dominica are narrow and winding and mostly unpaved.

Experience the island of Montserrat from a unique perspective during this panoramic helicopter flight-seeing excursion.

Helicopter Flight to Montserrat

Depart the pier with your guide for the short drive to the heliport. Upon arrival, board your awaiting helicopter for a truly unique and unforgettable flight-seeing tour of the Montserrat Volcano. During your 45-50-minute, pilot-narrated flight, fly to Montserrat for a tour of its 'Exclusion Zone'. This area covers 30.8 square miles (80 square kilometres) on the south-eastern half of the island, and extends 2.5 miles (four kilometres) offshore along the eastern coast to what is known as the 'Maritime Exclusion Zone'. Since these areas are off-limits to both ground transportation and habitation, a helicopter is the only way to get an up-close look at the Soufriere Hills Volcano.

Soufriere Hills Volcano

During your tour, learn about the volcano's geological origins and history, and view it from safe locations around the island. The volcano rises to 3,000 feet (914 metres) above sea level and frequently emits a combination of ash, smoke and steam. Survey the massive Tar River Gorge and Delta found 1,000 feet (305 metres) below, which has formed as a result of pyroclastic flows. In addition, witness what's left of small villages devastated by past eruptions before touring the charred remains of Plymouth, the country's former capital, now uninhabited and in some places buried under 40 feet (12 metres) of ash.

Helicopter Flight to St. John's

On the seaside, observe the former location of the W.H. Bramble Airport, abandoned after the 1997 eruptions. Portions of this airport, including the runway, were still visible until the partial dome collapse of February 11th, 2010, which buried what was left. Following your visit, return to the heliport with a bird's-eye view of your cruise ship en route, then re-board your coach and commence the short transfer back to the pier.

Gustavia, St Barthelemy - Guadeloupe, French West Indies

SBH-E / PANORAMIC ST. BARTS

DIFFICULTY

Price:\$49; Duration:1.00 hrs

Enjoy a panoramic ride around this tiny island and discover the many hidden beauties for which St. Barts has become famous. Minibus 'taxis' with drivers who speak varying degrees of English with a heavy French-West-Indian accent, take you on a drive through St. Barts. The first stop, at Le Col de la Tourmente, overlooks the most popular beach, St. Jean Beach and the island's airport. The taxis then follow take the road to Salines (salt ponds), an industrial area of the island. At one time St. Barts exported salt all over the Caribbean.

After Salines, your driver will go through Petite Salines, the only place on the island where you cannot see the ocean, and continue to Grand Fond. The view is breathtaking, with the road overlooking the green valley and the raging ocean breaking on the shoreline. It is very windy, and the landscape is very different from the rest of the island. Only a few years ago, Grand Fond was the cattle center for St. Barts, home not only to many cows, but also goats and sheep.

Continue on the road along the coast to see the house that belonged to the famous Russian dancer, Rudolf Nureyev. It is located right on the rocks facing the ocean. Pass Petit-Cul de Sac (small salt pond) and Grand Cul de Sac with its large lagoon and many hotels and resorts. It is here that the 24-hour windsurf regatta is held in August each year. Continue to Marigot, famous for its wine shop, La Cave, that has in stock over 300,000 bottles of wine, ranging from the cheapest to the most rare and expensive. Then continue to L'Orient and its two flower-filled cemeteries.

Passing La Vigie and Coupe Gorge, your vehicles return to the St. Jean area before taking the road to Corossol, once famous for its women who wore traditional white bonnets and were known for weaving straw hats and baskets. Please note that this does not exist anymore, despite what is written in the guidebooks. After climbing the last hill, your taxi returns to Gustavia. Depending on traffic conditions, the taxis will either stop in the parking lot next to the pier or in town at the main taxi station.

Please note: This tour involves a minimum amount of walking; however, guests must be able to climb in and out of a minibus taxi. This is not a guided tour; it is an orientation drive of the island. Your driver may speak only rudimentary English. The cost of this tour is based upon 6 guests in each van as opposed to 8 as standard for other cruise lines. The cost of this tour reflects the lower occupancy of the vehicles.

JOS-E / VIRGIN GORDA AND THE BATHS

DIFFICULTY

Price:\$149; Duration:6.00 hrs

Tortola's smaller sister island, Virgin Gorda, boasts the British Virgin Islands' main attraction - the Baths. Board the boat at Road Harbour pier for your cruise along Sir Francis Drake Channel toward Virgin Gorda. The famous waterway has seen scores of pirates and buccaneers who once plied their profitable trade here.

Virgin Gorda

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Landing at quaint Spanish Town, Virgin Gorda's main settlement, an open safari bus awaits for the short drive to the top of the Baths at Spring Bay. As you approach the area, you begin to see the characteristic boulders strewn across the arid ground that stand as reminders of the volcanic action that took place here some 70 million years ago. Follow your guide down to the amazing Baths along a narrow trail set between huge boulders on both sides.

The Baths

Along a powdery, white sand beach, giant boulders are poised on top of each other in seemingly precarious positions. Weathered by time and the elements, a series of spectacular pools and grottos have been created. The site is a natural phenomenon and never fails to amaze its visitors. Take a swim in the clear, warm water, or squeeze through narrow crevices and discover small caverns where sunlight creates cool hues. The picture below the waterline is equally fascinating with small tropical fish darting through the crystalline water. A total of about two hours is spent at the Baths.

After hiking back up, rejoin the safari bus for a scenic island drive back to the local beach side restaurant where a freshly prepared lunch is served before returning to the marina and the boat back to Jost Van Dyke.

Please note: The boat trip to Virgin Gorda is 45 minutes each way via ferry and is un-narrated. Transportation on the island is in open safari buses and is an un-narrated transfer to the Baths. The walk to the Baths requires about a 15-minute downhill/uphill hike on an uneven path. We recommend wearing beach attire under a cover-up and rubber-soled shoes. A sun hat and sunscreen are essential. Snorkel equipment can be rented at the Baths (subject to availability), or you may bring your own. The Baths are a popular destination and therefore frequently crowded
