General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 days until 48 hours prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) until 48 hours prior to sailing. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Please visit MySilversea (my.silversea.com) for the most up-to-date information. Discounts for children under 12 years of age are available on some, but not all tours. Prices for children, if available, will be adjusted onboard. Please meet with the Shore Concierge team prior to your excursion to discuss the availability of children's pricing.

As a courtesy to fellow guests, tour departures generally will not be announced unless there is an unforeseen change. Departure times from the ship are published in the ships daily newspaper, the Silversea Chronicle. Guests are kindly requested to proceed ashore at least ten minutes prior to the tour departure time. Silversea Cruises reserves the right to adjust itineraries and tour departures as local conditions dictate. Please note that pier departure times are also listed in MySilversea (my.silversea.com)

Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. Cádiz - Spain

XRY-B / SEVILLE!

DIFFICULTY

Price:\$149; Duration:9.00 hrs

Experience the splendid beauty and architecture of Seville during a full-day sightseeing excursion to this historic city.

Few cities in Spain can rival the charm of Seville. *Carmen*, *Don Giovanni* and the *Barber of Seville* are just a few among the many artistic works that were inspired by this traditional Andalusian town. Founded by Julius Caesar, Seville later became the capital of the Moorish Empire and the highlight of the Spanish Renaissance.

Depart the pier for the scenic, approximately 75-mile (120-kilometre) drive to Seville, with a comfort stop made en route. Upon arrival, begin with a sightseeing drive through the city then continue with a walking tour through the historic centre.

Seville

During your guided tour of the Mudejar-styled Reales Alcazares, explore its lavish courts, apartments and gardens. Christian kings erected this palace, modelled after the Alhambra in Granada, in the 14th century to replace the original palace built by Moorish rulers in 1181. Continue to Seville's famed landmark, a 270-foot (81-metre) weathervane tower known as 'La Giralda'. The tower is all that remains of a former mosque. From here, proceed to the Seville Cathedral.

Seville Cathedral

Construction on this magnificent Cathedral started in the early 1400s, and took more than a century to complete. The interior of the Cathedral features splendid works of art, and contains the tombs of the Spanish monarchs and Christopher Columbus. Leaving the Cathedral, proceed for a visit to Seville's Old Jewish Quarter.

Old Quarter

King Fernando III forced Jews to live in this former ghetto, known as 'Barrio de Santa Cruz'. Whitewashed houses line narrow, winding alleys and the walls of picturesque courtyards burst with brilliant flowers. Today, many of the buildings house souvenir shops, art galleries and cafés.

Next, you have approximately 1.5 hours leisure time for shopping and lunch on your own at one of the area's many restaurants before re-boarding your coach for a drive exiting Seville. After passing by Plaza America, a photo stop is made at the Plaza de España, a monumental square built for the 1929 World's Fair Plaza, before returning to the pier.

Please note: This tour requires an extensive amount of walking (approximately 2.5 hours). It is not suitable for guests with limited mobility or those who utilise a wheelchair. Proper dress is required to enter the Cathedral; no shorts or bare shoulders are permitted inside. The Alcázar may close for special events, such as a visit by the royal family, in which case the Casa Pilatus will be substituted. The tour sequence may vary. Comfortable clothing, flat shoes and sun protection is recommended.

XRY-L / ARCOS DE LA FRONTERA

DIFFICULTY

Price:\$79; Duration:5.00 hrs

Depart from Cadiz and enjoy a scenic 75-minute motorcoach ride to the peaceful Pueblo Blanco of Arcos de la Frontera, perched high in the hilltops of the Cadiz Sierras.

Arcos de la Frontera, Gothic Cathedral

These white villages date back to the Spaniard's centuries-long fight to win Spain back from the Muslims (Moors). Arcos' name, de la Frontera, reflects this frontier history. While the wars began in the 9th century, Spain wasn't secure until the 15th century. Yet the town itself became a pillar of Christianity after Alfonso the Wise of Castile (1252-1284) expelled the Moors. The Gothic Cathedral he built remains on its high ridge and is known for its ten bells, which tolled throughout the war with the Moors. Several Moorish banners were taken in the nearby battle of Zahara and have been on display in a church in Arcos since 1483.

Old city walking exploration

Once you arrive, commence your an hour-long walking tour of this cliff-side town. Explore the labyrinth of narrow streets and alleys that run out from the Plaza Cabildo. Along the way, admire several churches that were built during the 15th and 16th centuries. Be sure to notice the old Castillo and Santa Maria Church that overlook the square. Strolling through town, come across the impressive homes of nobility, sporting large arched and carved doorways, intermingled with the modest homes of merchants and craftspeople.

Parador, Casa del Corregidor, breath-taking panoramic views and local tapas

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Proceed to the old part of the city and the Parador, a former palace that nowadays is a luxurious hotel, and the Casa del Corregidor, the 14th century home of the king's magistrate. Relish the breath-taking panoramic views of the Guadalete River and the plains and farms beyond. Enjoy some tapas and local refreshments. Afterwards, return to your motorcoach for a scenic ride back to Cadiz and re-board the ship.

Please note: This tour requires a moderate amount of walking for approximately 2,500m (1.56 miles) over some cobblestone and unpaved surfaces with a few steps to negotiate to access the bus and the old city. It is not recommended for guests with limited mobility or those who utilise a wheelchair. We recommend guests wear comfortable clothing, walking shoes and bring sun protection.

Cádiz - Spain

XRY-H / SCENIC CÁDIZ & FLAMENCO

DIFFICULTY

Price:\$109; Duration:2.50 hrs

In the early 16th century, Cádiz served as a launching point for the journey to the newly discovered lands of America. Later raided by Sir Francis Drake, in the struggle to gain control of trade with the New World, the city managed to withstand a siege by Napoleon's army. In the early 19th century it became the bastion of Spain's anti-monarchist, liberal movement, as a result of which the country's first Constitution was declared here in 1812. Some of the city's 18th century walls still stand and the old, central quarter is famous for its picturesque charm.

Depart the port area on your motor coach for an approximate 1-hour panoramic drive through the city.

Old Town

The old city looks quite Moorish in appearance and is intriguing with narrow cobbled streets opening onto small squares where the golden cupola of the cathedral looms high above long white houses. Get to know the Parque Genoves, one of the major areas of greenery of the town. Between the Parque Genoves and the attractive Caleta Beach you will find the Castillo of Santa Catalina, which is formed by the remains of the old canal that once crossed Cádiz. Pass by the 18th Century Baroque and neo-classical Cathedral. It has a dome of yellow tiles, which forms the chief landmark of the city. See also the old tobacco factory and the Town Hall in the Plaza de San Juan de Dios.

Exit the bus at the Plaza de España, where you will see a fine monument to the first Spanish constitution of 1812.

Flamenco Performance

After a short walk you arrive at the flamenco tavern "La Cava", the setting for tapas and an authentic flamenco performance. This is a traditional tavern with a distinctive flamenco feel to its decoration and furnishings; the design is in wood, glass and wrought iron. Flamenco is the music of Spanish gypsies, influenced by both Western and Moorish sources. Sit back and drink in a traditional performance of its staccato, balletic dances, its haunting ballads and its fiery guitar music.

Please note: This tour requires a minimum amount of walking to and from the bus with some inclines. This tour is suitable for guests with limited mobility or those who utilise a wheelchair; as long as guests can transfer in and out of chair. We recommend guests wear comfortable clothing, walking shoes and bring sun protection.

In an amusing and distinctive, anecdotal-style these two characters will describe how people lived during this fascinating era.

XRY-M / EXCLUSIVE WINE TASTING AT GONZALEZ BYASS

DIFFICULTY

Price:\$159; Duration:4.50 hrs

This tour will make guests discover the secrets of the famous sherry land of the province of Cádiz which produces the world-wide known Jerez Wine.

Cadiz & scenic drive to Jerez de la Frontera

Your tour starts with a panoramic drive of the city of Cádiz through the most important monuments and places of the city such as the Constitution Monument and the beautiful Cathedral. Proceed across the old road to Jerez de La Frontera, a town placed only 50 kilometers away from the sea and Cádiz, but with a so different climate that makes possible to cultivate the different types of grape that produce the three main different Sherry varieties. Comfortably from your bus, admire the landscape that changes from dry lands of the coast line to the fertile cultivated ones nearby Jerez.

Wine cellars, sherry tasting & local tapas

Next, visit the cellars or bodegas as they are called. The sherry production houses are located, surprisingly, in the centre of the town of Jerez and are generally associated with an element of anobbery and aristocratic pride even to this day. Enjoy the sherry tasting (9 different wines) accompanied with the most typical Tapas (Snacks). Afterwards, head directly back to Cádiz and to the ship.

Malaga - Spain

AGP-B / THE ALHAMBRA!	DIFFICULTY	
Price:\$189; Duration:9.00 hrs		
		

Experience the history and grandeur of one of Spain's most famous attractions during this full-day visit to Granada and the Alhambra Palace. Granada rose to fame when the Moors transferred the seat of their diminishing dominions to this city, which is located amidst the low foothills of the Sierra Nevada. Granada's crowning glory is the Alhambra, the Moorish citadel complex with its splendid palace overlooking the city. Depart the pier for the approximate 80-mile (129-kilometre) drive to Granada, with a comfort stop made en route.

The Alhambra
Upon reaching the Alhambra, the last capital of the Moors, meet the local guides and begin a walking tour of its magnificent buildings and gardens. A short walk takes you to the entrance of the vast complex. Begun in 1238 by the Moorish ruler Ibn el-Ahmer, the fortified hilltop complex became a world-renowned centre of art and culture. It was so impressive that the Christian conquerors of the day could not bear to destroy it. Today, the legendary Alhambra remains Spain's most outstanding symbol of Moorish heritage.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Royal Palace

Follow the guide through a maze of pathways and corridors to the Palacio Arabe. Its splendid interior captivates with an endless procession of intricately-carved ceilings, and beautiful tiled floors, walls, arches and fountains. Of special note is the impressive marble colonnade leading to the Court of Myrtles and the Patio of the Lions. This famous courtyard, with its alabaster basin supported by 12 marble lions, is among the most photographed sites in Spain.

Generalife

Your walk continues along landscaped pathways to the Generalife, site of the Moorish rulers' summer palace. Its location on higher ground made it a pleasant and cool retreat. The gardens are renowned for their terraced flowerbeds, fountains and spectacular views of the city.

A short walk brings you for lunch to the Ruta del Veleta restaurant. After lunch, take a short drive to San Cristobal viewing point to make some panoramic pictures of the city of Granada, before commencing the return drive to Málaga.

Please note: This tour requires an extensive amount of walking (2.5 hours) inside the Alhambra. Distance on foot is approximately 1600m (1 mile). The drive between the pier and Granada is approximately two hours in each direction. This tour is not suitable for guests with limited mobility or those who utilise a wheelchair. Lightweight, comfortable clothing, flat, closed-toe walking shoes and sun protection are recommended.

Reservation note: due to a change in the reservation system of the Alhambra, the tickets will be available approximately 1 month prior to the call. Until then, this tour can be booked on request only. The waitlisted bookings will be cleared following the order of the reservation date. A message will be e-mailed to all waitlisted Silversea Guests to notify the confirmation of their booking or an alternative itinerary of the Alhambra visit.

AGP-F / SPECTACULAR HISTORIC RONDA

DIFFICULTY

Price: \$99; Duration: 8.00 hrs

Indulge your senses with the spectacular beauty of Andalusia without the crowds typically found in coastal resorts during this full-day visit to charismatic Ronda. The city is famous worldwide for its dramatic escarpments and views, and for the deep El Tajo gorge that carries the rio Guadalevín through its centre.

Depart the pier for the scenic, approximate 2-hour drive to Ronda. En route, proceed inland and through the scenic Serrania Mountain region.

Ronda

Ronda's cultural background combines Moorish influence with Christian Spanish remains. However, most visitors come here because of Ronda's unique setting in which two parts of the town come together astride the breath-taking 300-foot-deep (90-metre) Tajo Gorge. The gorge's steep cliffs plunge into the Guadalevín River ravine. It was this near-impregnable location that kept Ronda in Muslim hands until 1485, when Catholic kings finally conquered it. Upon arrival, see the 13th-century Almorábid Gate, which provided access to the castle, town and the 16th-century Carlos V Gate.

Bullring

Your walking tour commences along the ring road towards the bullring, which dates back to the Catholic kings and is recognised as the oldest bullring in Spain. From here, pass through the Paseo Blas Infante for a spectacular panoramic vista over the Tajo Gorge, then proceed towards Plaza España across the 18th-century New Bridge, whose central part was formerly used as a prison and is today the symbol of the town.

Bosco House

A stop is made for a visit the Salesian San Juan Bosco House, which is renowned for its beautiful ceramics and gardens, and excellent views to the other side of the Tajo Gorge. Next, continue past the House of the Moorish Kings, the 18th-century Palace of the Marquis of Salvatierra and the well-preserved Arab baths that date from the 13th century.

Mondragón Palace

Your walking tour then passes by the Plaza del Gigante, site of the Mondragón Palace. Constructed in 1314 by Abolemic, the King of Ronda, it has been the residence of many kings and governors ever since.

Santa María La Mayor

Your tour concludes with a brief visit to the 13th-century church, 'Santa María La Mayor', a former mosque that was converted into a church by King Ferdinand. Following your guided visit, some free time is made available for lunch and further exploration on your own.

After lunch on your own, re-board the coach for the return drive to the pier.

Picasso Museum

The Picasso Museum is permanently housed in the Palacio de Buenavista, a 16th-century historical building that is adorned with the Andalusian architecture of the day, along with a unique blend of Renaissance and Mudéjar elements. Museo Picasso Málaga was created in response to Pablo Picasso's own desire for his work to be present in the city where he was born on October 25, 1881. The museum was created thanks to Christine and Bernard Ruiz-Picasso, the artist's daughter-in-law and grandson, whose donations constitute the core of the collection. It was also made possible thanks to the efforts of the Junta de Andalucía, which coordinated the major project of setting up a museum devoted to the artist whose styles and techniques changed the course of modern art.

PRM-E / KAYAK MENORCA

DIFFICULTY

Price:\$149; Duration:3.50 hrs

The island of Menorca, a UNESCO Biosphere Reserve since 1993, is a true paradise for sea kayaking. Menorca is the northernmost of the Balearic Islands where the landscape is like a mosaic due to its unusual geology. Little coves are interspersed with sandy beaches; colourful rocky coastal areas alternate with high cliffs, typical fishing villages and quaint little ports. It is the perfect natural setting to discover by kayak.

Kayak Adventure

Many of the untouched virgin beaches can only be reached from the sea, and so kayaking is often the way to find that empty white stretch of sand even in the height of the summer season. Unlike motor boats, kayaks can get really close up to the coast line, get to unusual and interesting places including exploring sea caves all whilst the only noise is that of the sea birds and lapping water.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Your Kayak journey begins at the bay of Fornells or the village of Es Grau in the S'Albufera Nature Park, depending on the wind direction and sea conditions. If the conditions on the north coast are not suitable then the kayaks will be moved to the south coast where it will be more sheltered and the seas will be calmer.

Upon arrival, receive your safety briefing, paddle and tour instructions before commencing your 2.5-hour guided kayaking adventure. With warm seas, pristine beaches and plenty of sheltered coves, the island is a perfect place to experience the unspoiled coastline full of marine and bird life as you paddle in crystal clear waters.

Once out of the water, re-board your coach for the return trip to the pier.

Please note: This tour involves an extensive amount of activity, and is recommended for guests in good physical condition. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. The total kayaking time is approximately 2.5 hours. Price: \$79; Duration: 5.00 hrs

The exquisite beauty of the Sardinian Countryside is yours to discover during this scenic visit to the medieval town of Castelsardo. After tendering ashore, depart the pier for the scenic, approximately 1.5-hour drive north through the Sardinian countryside to Castelsardo.

Elephant's Rock

En route, a photo stop is made at Elephant's Rock. This strange stone, sculpted by the ever-present winds, resembles an elephant's head and trunk. Presumably, the site was used in ancient times for burial ceremonies. Next, re-board your coach for the drive to Castelsardo.

Castelsardo

This fortified town, founded in the 12th century by the Marine Republic of Genoa, is situated on a promontory overlooking vast panoramas of the Gulf of Asinara to the west and views of the Gallura peaks to the east. The historical centre of this village is built on a tall crag that slopes into the sea, is shaped like an upside-down cone and offers wonderful panoramic views.

The village was founded by the Doria family in the 12th century, and was originally called Castelgenovese. When the Spanish arrived in 1448, it became known as Castel Aragonese. The town's present name was derived in 1769 under the reign of Carlo Emanuele. Today, Castelsardo is a popular tourist destination. Its handicrafts, especially the baskets made from wild palms, are quite famous.

AHO-B / ALGHERO & NURAGHE PALMAVERA

DIFFICULTY

Price:\$79; Duration:3.50 hrs

Experience the splendid beauty of Sardinia during a scenic and memorable visit to the Nuraghe Palmavera archaeological site, the Capo Caccia Belvedere and Alghero's Old Town.

After tendering ashore, board your coach for the scenic drive along the coastal road to Nuraghe Palmavera which is located approximately 6 miles (about 10 kilometres) from town.

Nuraghe Palmavera

From the bus parking area, proceed on foot to the archaeological site. During a walking tour of the premises, your guide explains the history and significance of these remarkable remains dating from the civilization that existed here about 1300-1200 B.C. The main tower is an excellent example of Sardinia's earliest inhabitants, who remain a prehistoric enigma. Ancient writers called them the 'Nuraghic' people, named after their stone dwellings, the 'Nuraghi'. These structures are unique to Sardinia, just as the Aztec pyramids are to Mexico.

Capo Caccia Belvedere

Next your drive continues on to Capo Caccia Belvedere, where a photo stop is made for spectacular panoramic views of the Coral Riviera, or 'Riviera del Corallo'. After the photo stop, re-board the coach for the approximately one-hour drive back to Alghero. Upon arrival, take a walking tour of the Catalan-styled Old Town.

The best way to see this appealing walled town with its distinctly Spanish-Catalan flavour is on-foot. During your brief walking tour your guide points out Alghero's most notable attractions. Along the way, a visit is made to the Church of San Francesco and its 14th-century cloister, centrally located in the Spanish Quarter.

After tendering ashore, depart the pier for an orientation drive through Alghero, then continue on to Piazza Sulis and start your walking tour of Alghero's Old Town.

Alghero's Old Town

The best way to see this appealing walled town with its distinctly Spanish flavour is on-foot. During the brief walking tour your guide points out Alghero's most notable attractions. Along the way, a visit is made to the Church of San Francesco and its 14th century cloister, centrally located in the Spanish Quarter.

The maze-like narrow lanes and piazzas of Alghero old town protrude out into the Mediterranean from the regular grid of streets that now constitute the modern town. This geographical aspect and the strategic position of Alghero on the North West coast of Sardinia led to the construction of massive sea facing city walls to guard against maritime threats from this direction.

Alghero marina is situated just outside the walls and immediately beyond is the town beach of Alghero also known as the Lido. This long expanse of white sand stretches for 3 miles (4.8 km) to the town of Fertilia and is backed by numerous hotels and apartments.

Following your walking tour, some free time is made available to browse the local shops at your leisure before re-boarding the coach to reach the venue Azienda Agrituristica Ledà d'Ittiri for the wine tasting.

Azienda Agrituristica Leda' d'Ittiri

The estate is located just a short distance away from the frenetic town of Alghero and from wonderful white-sand beaches, at the feet of Monte Doglia, a mountain from whose peak it is possible to admire the bay of Porto Conte and the promontory of Capo Caccia. The estate consists of 18 hectares (44.5 acres) of olive orchards and vineyards that are carefully cultivated by the owners as if they were the garden of their farmhouse.

Antonella and Annamaria are two ladies with an ambitious business project. Together as mother and daughter, they belong to an ancient Sardinian noble household, the only heraldic coat of arms within the Sardinian wine sector. They have become passionate, expert entrepreneurs who are able not only to look after each detail of their business, but also to personally keep up with the issues of the cultivation. The result has come up to their expectations.

Given the favorable location of the estate, the owners have integrated the agricultural activities with a tourist/cultural project, aimed at promoting the area and its products. The business philosophy consists in producing small quantities in favor of a higher quality and in offering a high-level hospitality to those visitors who appreciate the tranquility and the fragrance of the countryside.

Following your wine tasting, re-board the coach for the return drive to the pier in Alghero. En route, pass by the entrance to the Nuraghe Palmavera and learn some interesting facts about the archaeological site from your guide.

Please note: This tour involves a moderate amount of walking for approximately 1 kilometre (.62 miles) over paved and cobblestone surfaces. Livorno (Tuscany) - Italy

LIV-A / GUIDED TOUR OF FLORENCE

DIFFICULTY

Price:\$129; Duration:9.50 hrs

Discover the exquisite beauty, art and architecture of Florence during a full-day tour of this historic city, along with some time for independent shopping and exploration.

Florence is the Italian city most celebrated by artists and poets. Each street, palace and building is living evidence of its glorious past and proud people.

Depart the pier in Livorno via coach for the approximate two-hour drive to Florence, with a comfort stop made en route. Upon arrival, meet your guide and commence your walking tour of the city.

Piazza del Duomo

Your tour begins at the Piazza del Duomo, where an inside visit is made at the huge Cathedral, St. Mary of the Flower. The church is adorned with an impressive façade decorated in white, green and pink Tuscan marble. Highlights to be seen during your visit include the Bell Tower, designed in 1334 by Giotto, and the Baptistery. Its celebrated doors, known as the 'Gates of Paradise', were commissioned in 1401 and designed by Lorenzo Ghiberti.

Piazza della Signoria

Your next stop is the Piazza della Signoria. It is Florence's second major piazza, and the political centre of the city because of its Town Hall, or 'Palazzo Vecchio'. The Piazza della Signoria is also known as an open-air museum thanks to its many statues, which include Cellini's Perseus, Giambologna's The Rape of the Sabine Women, Ammannati's Neptune Fountain and a replica of Michelangelo's famous David.

Ponte Vecchio

Your tour continues on with a visit to Ponte Vecchio, also known as the 'Old Bridge'. Ponte Vecchio dates back to 1345, and is the only bridge in Florence to escape being blown up during World War II. It originally housed the workshops of the butchers before they were driven away by the Grand Duke, Ferdinando I, due to the terrible noise and stench they created. Ponte Vecchio was subsequently used as a workplace for goldsmiths and silversmiths; their shops still remain here to this day.

Piazza di Santa Croce

The final stop on your guided tour is the eastern quarter of Santa Croce, home of the Piazza di Santa Croce. Upon arrival, an outside visit is made to the Franciscan Basilica that dominates this large square. Over the years, the basilica's construction involved a renowned cast of Florentine architects and masters, including Brunelleschi, Vasari, Giotto and Donatello. Each summer, the Piazza Santa Croce plays host to the 'Calcio in Costume'. During this historical game, the hefty men of the four quarters of Florence battle it out in an ancient mix of wrestling and soccer, and are cheered on by residents and visitors alike. For most of the year, however, the square is a peaceful open space surrounded by stately palazzo, and intimate pizzerias and restaurants.

LIV-F / CASTAGNETO CARDUCCI & EXCLUSIVE VISIT OF THE CASTLE DELLA GHERARDESCA

DIFFICULTY

Price:\$349; Duration:5.00 hrs

Castles and historic mansions in Italy have traditionally been family inheritances; Italy and France have a few notable examples of estates that survived their respective political upheavals. These are also notable because of their new found rarity. Make an exclusive visit to the Castle of Castagneto owned by the Della Gherardesca Counts.

Meet your English speaking guide and your driver at the port and drive towards Castagneto Carducci, approximately 1-hour away. This is one of the most popular villages on the Etruscan Coast of Tuscany.

Castagneto Carducci

Perched on a hillside less than 10km (6.2 miles) from the sea, the village centre of Castagneto has grown around the imposing medieval castle located on the hilltop. The city was called "Castagneto Marittima" until the beginning of 1900s when its name was changed to "Castagneto Carducci" in honour of Giosuè Carducci, one of the greatest Italian poets of the XIX century who spent part of his childhood here. Walking

through the village you will come across the imposing Palazzo Comunale, with its dominant position at the beginning of Via Marconi, a long street that makes its way downhill towards the coast. It houses the city's Town Hall and its offices.

Castle Della Gherardesca

A very pretty lane leads you to the 10th century Castle where you will enjoy an exclusive guided tour of the period rooms and family portrait gallery. Enjoy the spectacular view from the original rampart walk running between two lovely enclosed gardens. Today, this is a lived-in castle and a private mansion, not normally open to the public. It has belonged to the same noble family of the Counts della Gherardesca for 32 generations, where the siblings of the current generation come to spend their summer holidays and reside during the year. You will experience the pleasure of walking through the gates of the castle to get into the small cobblestone streets of the picturesque village, having set off in a very unique and privileged way of discovering it. Take a glimpse of the local country lifestyle, with many wonderful, unique and exclusive photo opportunities. The modern use of the house hasn't erased its history which lives through the family portraits, the period furnishings, the maps and the family trees with the most pedigreed Italian lineages intertwined. The coat of arms itself embodies the major characteristics of the dynasty: Half Imperial Eagle, granted by Frederick I Holy Roman Emperor; red, evoking heraldic copper and the enemies' blood; gold symbolizing the land and fortified castles property of the family that allowed the defence of Tuscany from the costal invasions of Moors and Saracens. All of this speaks in the language of the eldest spirit of the Tuscan art of war.

The Gherardescas are without a doubt unyielding: they are probably the only Italian family inhabiting the same place for over 1200 years. They've always made it through the centuries, assail after assail, due to many different alliances and political skills, at times amongst Guelphs and Ghilbellines. After a visit of their wonderful and historic Castle, you will be served drinks and canapes in the garden or in one of the state rooms. After, enjoy some time to roam free in the village of Castagneto Carducci with its charming alleyways and shopping.

Re-board your coach for the approximate 1-hour drive back to Livorno.

Please note: This tour involves a minimal amount of walking for approximately .62 miles (about one kilometres) over paved, gravel and cobblestone ground, with a few steps to negotiate at the castle. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Lightweight, comfortable clothing, flat, closed-toe walking shoes and sun protection are recommended. Space on this tour is very limited; we suggest you book in advance to avoid disappointment. Please note that due to the exclusivity of the location some dates may be cancelled at a later stage due to the specific request of the family.

San Gimignano

The walled city of San Gimignano is renowned for its 14 Medieval towers, which once numbered in excess of 70 during the height of the Guelph-Ghibelline conflict. Despite the profusion of souvenir shops lining the main drag, San Gimignano is home to a wide array of spectacular Renaissance art. Situated near the main canal, this huge Neo-Classical building dates from the late-19th century, and is open every morning from Monday to Saturday. Five entrances lead into the main food hall, where several shops and stalls sell meat, eggs, poultry, ham, cheese, bread, wine, and a vast selection of interesting specialities. There are two adjoining smaller halls; one dedicated to fresh fish, and the other to fruit and vegetables. The aroma of freshly-ground coffee is often the first to reach you from one of the coffee stalls. Following your market visit and shopping, proceed for a tasting of a local specialty made from chick pea flour, 'torta di ceci', then walk back to the Aragosta restaurant with the chef.

Interactive Cooking Class with Lunch

Upon arrival, begin your interactive cooking class. Learn about and help make fresh pasta with a delicious and traditional tomato sauce. Some local dishes are also part of the class. Seafood 'panzanella' is a rich and delicious variation on the classic panzanella. The concept of poor cuisine, based only on ingredients that can be picked from the kitchen garden, is lost, but the result is a new interpretation full of flavour. Fish balls are a delicious and light dish, and a specialty of this restaurant. Dessert consists of 'tiramisu', which is made of ladyfingers dipped in coffee, layered with a whipped mixture of eggs, sugar, and mascarpone cheese, and flavoured with cocoa. Following your cooking class, enjoy a lunch consisting of the dishes you've helped to prepare. At the conclusion of your visit, commence the short walk back to the pier.

Livorno (Tuscany) - Italy

LIV-D / MONUMENTS OF PISA

DIFFICULTY

Price:\$99; Duration:4.25 hrs

Discover the beauty of Pisa during this scenic, half-day tour of the city's historic landmarks, including the world-renowned Leaning Tower of Pisa. Since the beginning of the tourist brochure, Pisa has been known for just one thing, the Leaning Tower. However, this world-renowned landmark is but one component of the city's amazing religious core, the Campo dei Miracoli. Here, the Duomo, Baptistery and Camposanto complete an unrivalled quartet of medieval masterpieces. These and a dozen or so churches and *palazzo* scattered about the town belong to Pisa's 'Golden Age', which took place from the 11th to the 13th centuries when the city was still a port, and one of the maritime powers of the Mediterranean.

Pisa

Depart the pier for the approximate 45-minute drive to Pisa. Upon arrival at the parking area, walk to the Campo dei Miracoli and commence the guided portion of your tour.

Campo dei Miracoli

Since it was first laid out, Pisa's ecclesiastical centre has been known as the Campo dei Miracoli, or 'Field of Miracles'. The sight of it is as stunning today as it must have been to medieval travellers. Nowhere in Italy are the key buildings of a city arrayed with such precision, and nowhere else is there so beautiful a contrast of stonework and surrounding meadow.

Leaning Tower of Pisa

Your next stop is the Leaning Tower of Pisa (outside visit only). Underneath the pavement and turf of the Campo dei Miracoli lies a platform of saturated sandy soil, whose instability accounts for the tilting of the Leaning Tower. Begun in 1173, construction of the tower subsided when it had reached just three storeys in height. Over the ensuing 180 years, a succession of architects continued to extend it upwards until it was finally completed and topped with a bell-chamber in 1350. Leaving the Leaning Tower, proceed to the Duomo.

The Duomo

The Duomo was built in 1064, a century before the Campanile. With its four levels of variegated colonnades and subtle interplay of dark grey marble and white stone, the Duomo is the archetype of the Pisan Romanesque style; a model often imitated but never surpassed.

The Baptistery

A visit is then made to the Baptistery. The third building of the Miracoli ensemble, the circular Baptistery is a bizarre mix; its three storeys of Romanesque arcades peak in a crest of Gothic pinnacles and its dome is shaped like the stalk of a lemon.

Piazza dei Cavalieri

Leaving the Campo dei Miracoli, visit the Piazza dei Cavalieri. One of Pisa's most interesting sites, the Piazza dei Cavalieri is a large square that opens unexpectedly from the narrow back streets, and includes the site of the Roman Forum. The central civic square of Medieval Pisa, the Roman Forum was subsequently remodelled by Vasari and became the headquarters of the Knights of St. Stephen.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Palazzo dell'Orologio

On the western side of the square is the Renaissance-adapted Palazzo dell'Orologio. In 1208, the military leader Ugolino della Gherardesca, along his sons and grandsons, was starved to death in its tower as punishment for his alleged duplicity with the Genoese enemy.

Following your guided walking tour, some free time is made available for independent exploration before walking back to the parking area and re-boarding the coach for the approximate 45-minute drive back to the pier.

Please note: This tour requires a moderate amount of walking for approximately 2.6km (1.62 miles) with some steps to climb. It is not recommended for guests with limited mobility or those who utilise a wheelchair. Tour includes an exterior visit of the Leaning Tower only. Recently re-opened, admittance to the Tower is strictly limited and not possible on this excursion.

Livorno (Tuscany) - Italy

LIV-C / MEDIEVAL LUCCA

DIFFICULTY

Price:\$79; Duration:4.25 hrs

Explore the fascinating streets and squares of Lucca during a scenic and memorable half-day tour of this historic medieval city. Lucca endears itself to everyone who visits, hidden behind imposing Renaissance walls with cobbled streets, handsome piazzas and shady promenades; it makes for a perfect destination to explore by foot.

Depart the pier for the approximate 45-minute drive to Lucca. Upon arrival, your tour begins inside the massive red bricks walls, which were built between 1504 and 1645, and are amongst the best-preserved Renaissance defenses in Europe.

Lucca

Lucca is enclosed by massive red brick walls, which help to give the city its special character by shutting out traffic and the modern world. Within these walls, Lucca is a peaceful city of narrow lanes, preserving intact its ancient Roman street plan. Unlike several other Tuscany's cities, Lucca is flat; many locals use bicycles, which impart an additional charm to the city. This memorable outing is ideal for those looking to experience a Tuscan city that is rich in history, art and architecture, but is hidden from the crowds of tourists.

Church of San Michele

Along the way, an outside visit is made to the Church of San Michele in Foro, which stands on the site of the ancient Roman Forum. It has a wonderfully-rich Pisan Romanesque façade that competes in splendour with that of St. Martin.

Guinigi Tower

Another outside visit is then made to the Guinigi Tower, one of many in Lucca that belonged to the Guinigi family, rulers of the city in the 15th century. The tower has a small roof garden, with some trees sprouting incongruously at the top.

Anfiteatro Romano

Next, proceed to the Anfiteatro Romano, formerly the ancient Roman Amphitheatre. Today, it is enclosed by medieval houses that were built up against the walls of the amphitheatre. It's perfectly-preserved shape reminds us that Lucca was founded by the Romans in 180 B.C.

Church of San Frediano

From here, continue on to the Church of San Frediano, which is adorned with a striking façade and a 13th-century mosaic (outside visit only). Inside, there is a splendid Romanesque font and beautiful frescoes. In the chapel dedicated to Santa Zita, her well-preserved body is interred.

Church of San Martino

Your next stop is the Church of San Martino (outside visit only). Lucca's extraordinary cathedral, its façade abuts incongruously on to the campanile. St. Martin is the Roman soldier depicted on the façade dividing his cloak with a sword to share with a needy beggar.

Via Fillungo

The guided portion of your visit concludes at Via Fillungo, Lucca's principal shopping street, which winds its way through the heart of the city towards the Roman Amphitheatre.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

Following your walking tour, some free time is made available for exploring the area and browsing the shops at your leisure before re-boarding your coach for the return drive to the pier.

Please note: This tour requires a moderate amount of walking for approximately 3.5km (2.17 miles), some of which is over cobblestone surfaces, and there are steps to climb. It is not suitable for guests with limited mobility or those who utilise a wheelchair. There will be an exterior visit only should a mass be in progress at the church. Guests may be able to enter on an individual basis to view the interior. Tour sequence may vary.

DIFFICULTY

Price:\$129; Duration:4.50 hrs

Discover the whimsical art of the city's most famous architect, Antonio Gaudí, during this scenic, half-day sightseeing transfer tour of Barcelona.

La Sagrada Familia

This monumental but unfinished church is Gaudí's most famous masterpiece. Its towering spires are Barcelona's most prominent landmark. Many of the steeples Gaudí envisioned have not yet been built, and much of the structure is still exposed to the heavens. Take a walk around this unfinished church for photos before continuing your drive through the Eixample District.

Eixample District Tour

The Eixample District is home to some of Barcelona's most stunning examples of Modernist architecture, especially along the elegant Paseo de Gracia. Important buildings such as Gaudí's La Pedrera House and the Batlló House, and others such as the Amatller House, line up in this impressive thoroughfare.

There are no corners; even the walls are rounded and the tile roof depicts the back of a dragon. Your guided walking tour of this Gaudí masterpiece includes the impressive main floor and rooftop, which features whimsical chimneys and offers spectacular views over the city.

Following your visit, re-board your coach for a drive to the Barcelona El Prat airport.
