General Information

ORGANISED SHORE EXCURSIONS

Booking Direct with Silversea gives you peace of mind. Our local tour operators are fully insured and have been comprehensively vetted. In the unlikely event of issues with a Silversea tour, we assume responsibility and the ship will wait for our delayed shore excursion. These are important factors when comparing value. Looking for a special program with your travelling companions? In a nod to our Italian heritage, let us reserve for you our Silver Shore "Privato" service - a private vehicle with driver and/or guide. Create your own itinerary or leave it to us. This service is available in most ports which you can reserve on MySilversea (my.silversea.com) or at the Shore Concierge desk onboard for a truly tailor-made arrangement. Please bear in mind as we traverse many far reaching destinations, the local infrastructure varies and is beyond our control. Road conditions and vehicles available locally may not be up to standards we are accustomed to. Guides and drivers may speak with a heavy accent at times depending on the port of call. Be assured however that at Silversea, we contract only the best tours and best operators available at each destination. Please Note: Silversea reserves the right to make any changes or modify a tour in case of unforeseen circumstances and/or to ensure the safety and comfort of our guests.

BOOKING & CANCELLATION DEADLINES

Shore excursions must be purchased on or before the booking deadline for each port of call. Tours are available on a first-come, first-served basis; some tours are very popular with guests often ending up being wait-listed: in order to avoid disappointment, it is therefore suggested to book in advance via my.silversea.com from 120 days until 48 hours prior to sailing. Last-minute requests to participate on excursions are subject to space availability, which in some cases may not be determined until departure time pier-side. Please note that certain shore excursions may have different reservation deadlines and may incur cancellation fees if cancelled after the deadline. Unless otherwise indicated in the tour description for a particular shore excursion a 100% cancellation fee will be charged for shore excursions cancelled within 48 hours of the scheduled start time. If changes or cancellations are required once onboard, tickets must be returned to the Shore Concierge desk within the cancellation deadline period.

ONLINE ADVANCE RESERVATION OF SHORE EXCURSIONS

For those of you that are not aware, at Silversea you can pre-reserve your excursions at leisure prior to your journey on the internet, log on to MySilversea (my.silversea.com) until 48 hours prior to sailing. If you have pre-reserved your excursions on line, your tickets will be delivered to your suite upon embarkation and all charges will be billed to your shipboard account.

ON BOARD RESERVATIONS

Once on board, you may also reserve and purchase your shore excursions. You will find a consolidated tour booking form in your suite and at the Shore Concierge desk. Select the tours in which you wish to participate, then leave the completed and signed form at the Shore Concierge desk prior to the booking deadline indicated. Tour tickets will be delivered to your suite and your selected excursions charged to your shipboard account. Overland and exclusive excursions must be pre-paid by credit card through your reservation agents. If still available they may also be purchased on board. Shore excursions require a minimum number of participants in order to operate as described. If this minimum number is not met, Silversea reserves the right to offer the programme at a different rate or to cancel the specific departure.

SHORE EXCURSION PRICING

Prices are generally quoted per person, per tour, with the exception of Silver Shore Privato or group-designated excursions. Prices are subject to change without notice. Please visit MySilversea (my.silversea.com) for the most up-to-date information. Discounts for children under 12 years of age are available on some, but not all tours. Prices for children, if available, will be adjusted onboard. Please meet with the Shore Concierge team prior to your excursion to discuss the availability of children's pricing.

ON-TIME TOUR DEPARTURES

As a courtesy to fellow guests, tour departures generally will not be announced unless there is an unforeseen change. Departure times from the ship are published in the ships daily newspaper, the Silversea Chronicle. Guests are kindly requested to proceed ashore at least ten minutes prior to the tour departure time. The Shore Concierge team will be pier-side to direct you to the appropriate transportation. When the ship is at anchor, guests must allow additional time to tender ashore.

Silversea Cruises reserves the right to adjust itineraries and tour departures as local conditions dictate. Please note that pier departure times are also listed in MySilversea (my.silversea.com)

Our aim is to give you a travel experience that goes beyond the ordinary and many of your questions about our ports of call will be answered in these briefings, giving you more time to enjoy and immerse yourself in each port. The information is presented in the theater or is pre-recorded and played on your in-suite entertainment system.

SILVERSEA SHUTTLE SERVICE

Complimentary transportation may be provided by Silversea when the local town is beyond a reasonable walking distance from the port. This service may not be possible in ports where a strong taxi union exists, preventing Silversea from providing a complimentary shuttle. Operationally, intervals between shuttle bus departures could be affected by local traffic. Silversea is not liable for any unforeseen delays. There will be a break in service for driver meal times. Shuttle service is offered during the day only. The shuttle service is designed to augment local transportation; guests requiring more flexibility may prefer not to wait for a shuttle and secure a taxi at their own expense.

CHILDREN ON TOUR

To ensure the safety of our younger guests, participation by children in certain shore excursions may be restricted. To ensure the safety of our younger guests, children up to the age of 8 years old are only permitted to participate in suitable Silver Shore Excursions and the shuttle service, if the vehicles are equipped with the correct safety harness and seating equipment, to accommodate a child. Such harnesses' and secure seating cannot be guaranteed. Alternately guests may use their own approved safety seat, booster seat or harness as long as they are compatible with the local touring vehicle and can properly secure the young guest. Silversea reserves the right to refuse children under the age of 8 years old on any tour on the basis of safety.

St Mary's Isles of Scilly - United Kingdom

SVZ-C / TRESCO ABBEY GARDENS

DIFFICULTY

Price:\$49; Duration:3.00 hrs

Tender ashore to the island of Tresco and be met by your local guide before 30 minutes walking for to Tresco gardens for a guided tour. Tresco is best known for its Abbey Gardens, laid out by the remarkable Augustus Smith - a wealthy merchant banker who purchased the islands from the Duchy of Cornwall in the mid-1830s. Work on the gardens commenced in 1834 on the site of the old Benedictine Abbey.

By building tall wind-breaks, Augustus Smith (a botanist and plant collector) channeled the weather up and over the network of walled enclosures he built around the Priory ruins, and the three terraces he carved from the rocky, south facing slope looking towards St Mary's. In this way he maximized the generous climate that Tresco enjoys thanks to the prevailing effects of the Gulf Stream. The climate is mild, with sunshine hours generally greater than the UK average, rainfall less, and winter frost and snow unexpected.

Tresco Abbey Garden

Tresco is thought of as a perennial Kew without the glass - shrugging off salt spray and Atlantic gales to host 20,000 exotic plants. Many of those plants would stand no chance on the Cornish mainland, less than 30 miles away. Yet even at the winter equinox more than 300 plants will be in flower. All in all, the garden is home to glorious species from 80 countries, ranging from Brazil to New Zealand and Burma to South Africa. Subsequent generations have continued the development of the Garden, which is today a major attraction of the islands.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions. Please refer to my.silversea.com for the most current schedules, fares and complete terms and conditions.

St Mary's Isles of Scilly - United Kingdom

SVZ-B / ST MARY' GARRISON WALK

DIFFICULTY

Price:\$59; Duration:2.00 hrs

The Isles of Scilly are an archipelago of five inhabited islands and other small rocky islets situated 28 miles from Lands End, the most South Westerly point of the British Isles. With a total population of just over two thousand, an exceptionally mild climate, beautiful flowers and countless white sandy beaches, they are also known for their friendliness, birds, clear turquoise sea and ancient sites and monuments. The Isles of Scilly are a beautiful haven of peace and tranquility loved by visitors and locals alike.

Be met by your local guide at St Mary's quay and enjoy a short introductory talk about the history of the Isles. Traces of human life on Scilly stretch back at least 8,000 years, when the islands were one large land-mass that was home to nomadic hunter-gatherers. Their flint tools still sometimes turn up today, on beaches and in fields.

Star Castle Garrison

Venture off by foot to enjoy a scenic tour of the Garrison on the isle of St Mary's and look across to Bryher and Tresco, marveling that even though you can walk between them, they are so utterly different. Marvel at the beautiful views before ending up in Star Castle to enjoy a tea or coffee in the 16th Century Castle Dungeon Bar. Star Castle is now a hotel, but it was built as an impregnable fortress back in 1593 and gets its name from the shape of its eight-sided central keep, curtain wall and dry moat. Just to the right of the castle you'll see a campsite and just right of this a footpath branches right and takes you down to Steval Point Battery, which marks the island's most westerly point. On a clear day there are fabulous views over to St Agnes and distant, lonely Bishop's Rock Light house.

Hugh Town

There will be an opportunity to explore Hugh Town at leisure, which is the main and largest settlement on the Island, before returning to the ship. Hugh Town is the central hub with its cluster of shops, banks, churches, post office, cafés, galleries, restaurants and pubs as well as the wonderful museum. It has three lovely beaches in very close proximity - Porthcressa with a children's play area close by; Town Beach, a perfect spot to watch the comings and goings on the Quay; and Porthmellon which also hosts the Sailing Centre.

Stay in Hugh Town for more sightseeing and shopping and return to the Quay at your leisure or walk back with your guide after refreshments at Star Castle.

Please note: This tour involves an extensive amount of walking for approximately 1, 24 mile (about 2 kilometres), at times over gravel surfaces and inclines. Guests are advised to wear warm, comfortable sportswear in layers with sturdy, flat, and closed-toe walking or hiking shoes, and bring sun protection and a weatherproof jacket from the ship. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair.

Upon arrival, begin your guided walking tour of the city centre, known as the 'Viking Triangle'. Along the way, proceed for interior and/or exterior visits to six national monuments dating from 1190 to 1783. One of those National Monuments that you will pass by is Reginald's Tower, the strongpoint of the medieval defensive walls that enclosed the city until about 1700.

Greyfriars Franciscan Friary and Medieval Museum

Next, continue past Greyfriars Franciscan friary en route to the Medieval Museum. The eye-catching giant sculpture on the gable was inspired by a tiny, 13th-century belt mount found in Waterford. It is Ireland's only dedicated medieval museum, and the only building on the island to incorporate two medieval chambers; the 13th-century Choristers' Hall and 15th-century Mayor's Wine Vault. A short visit is made inside this modern structure, where you can observe a demonstration of how coins dating back to the Anglo Normans were made. Souvenir coins are provided for each guest.

Bishop's Palace

Your final stop is at the Bishop's Palace, which charts the history of Waterford from 1700 to 1970, and gives a wonderful insight into the history of the city. The museum reveals the legacy of Waterford from 1700 to the 1970s, and contains many items of national and international significance. Included is the only surviving Bonaparte 'mourning cross', one of only 12 produced upon Napoleon Bonaparte's death in 1821. The Bishop's Palace also houses the Penrose Decanter, the oldest surviving piece of Waterford Crystal, which dates back to 1789. Following your visit you will have the opportunity to explore the city independently. Some free time will allow you to perhaps do a little shopping or stop into a local pub. Alternatively you will also have complimentary re-admission to the Bishop's Palace or Medieval Museum should you wish to explore either of these venues a little further. At the conclusion of your tour, re-board your coach and commence the short drive back to the pier.

Please note: This tour involves an extensive amount of walking and standing for approximately three hours, with a few steps to negotiate to get on/off the coach. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Warm, layered clothing, a waterproof jacket or coat, flat, closed-toe walking shoes, an umbrella are recommended. Due to the local climate, most of the coaches are air-cooled. Depart the pier for a scenic, guided walking tour along Tobermory Harbour, a vibrant hub of fishing vessels and yachts throughout the year. Along the way, admire the rows of pretty, multi-coloured houses lining the seafront. During your guided tour of the distillery, learn about the brewing processes, then proceed for a tasting of two drams, a 10-year-old Tobermory and 10-year-old Ledaig. The path leads off from the end of the marina and climbs gently through the woodland along the side of Tobermory Bay. There are fabulous views out to Calve Island, the Sound of Mull and the Scottish mainland beyond.

Looking back from the old pier to Tobermory offers a breathtaking view of this picturesque and iconic Hebridean village.

The woodland area consists of many varieties of wildflowers, ferns, mosses, lichens, fungi and trees, promoting the atmosphere of a Celtic rainforest. A selection of songbirds breeds in the park, adding sound to the colours and textures of spring and summer. A spectacular display is created in May/June by the large number of Rhododendrons that were planted by the estate in the past.

Leaving the confines of Aros Park, stop briefly at the 'Welcome to Tobermory' sign that greets road users to the village for an impromptu Gaelic lesson. The road verges are full of wildflowers and pollinating insects during the early summer months. Several species of orchid can be a particularly eye-catching feature at this time.

If time allows, take a short detour to the Standing Stones at Baliscate, a Bronze Age location of particular significance in the pre-history of the Isle of Mull. The path leads off from the end of the marina and climbs gently through the woodland along the side of Tobermory Bay. There are fabulous views out to Calve Island, the Sound of Mull and the Scottish mainland beyond.

Follow the track to the old pier where timber was once shipped from the Aros Estate for building and repair in the town and learn about the Allan shipping family who gave the park to the people of Tobermory. Looking back from the old pier to Tobermory offers a breathtaking view of this picturesque and iconic Hebridean village.

The woodland area consists of many varieties of wildflowers, ferns, mosses, lichens, fungi and trees, promoting the atmosphere of a Celtic rainforest. A selection of songbirds breeds in the park, adding sound to the colours and textures of spring and summer. A spectacular display is created in May/June by the large number of Rhododendrons that were planted by the estate in the past.

Leaving the confines of Aros Park, stop briefly at the 'Welcome to Tobermory' sign that greets road users to the village for an impromptu Gaelic lesson. The road verges are full of wildflowers and pollinating insects during the early summer months. Several species of orchid can be a particularly eye-catching feature at this time.

If time allows, take a short detour to the Standing Stones at Baliscate, a Bronze Age location of particular significance in the pre-history of the Isle of Mull. Here, explore and speculate as to the origin and importance of such megalithic structures, as well as providing an overview into 60 million years of natural history and 8,000 years of social history on the island.

Please note: This tour involves an extensive amount of walking for approximately 3.75 miles (about 6 kilometres), at times over gravel surfaces and inclines. Guests are advised to wear warm, comfortable sportswear in layers with sturdy, flat, and closed-toe walking or hiking shoes and a weatherproof jacket from the ship. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. This tour is recommended for guests who are in good physical condition and experienced hikers.

Depart the pier for the scenic, approximately 40-minute drive across Lewis Isle en route to the beautiful west coast of the island. Upon arrival, proceed to Callanish for a visit to the Callanish Standing Stones. Described as 'Scotland's Stonehenge', the Callanish Standing Stones date from around 3000 B.C., and are comprised of a total of 32 stones in a circular and avenue design. Visit the excellent Visitor's Centre to learn more about the site, and venture out amongst the stones to experience their mysterious atmosphere.

Dun Carloway Pictish Broch

Next, re-board your coast and continue around the west coast of Lewis Isle to the site of the Dun Carloway Pictish Broch. Probably built some time in the last century B.C, it would have occasionally served as a defensible residence for an extended family, with accommodation for animals at ground floor level. It would also have served as a visible statement of power and status in the local area.

places such as the historical Old Town, Harbour Street, Bridge Street and Albert Street. You'll also visit the remains of Earl's Palace, built in 1600 by Earl Patrick Stewart.

Orkney

Being so fertile, and so near to Norway, Orkney made an obvious base for Viking expansion, particularly in a time when the latest technology was sea transport in Viking long-ships. After a short transfer by coach (if docked at Hatston Pier) this excursion commences with a stroll through the historical Old Town. Starting at Harbour Street, you turn into Bridge Street and Albert Street. These ancient thoroughfares now house Kirkwall's bustling main shopping streets.

We then arrive at St. Magnus Cathedral, founded in 1137, and dominating the skyline for many miles. It is one of the finest and best preserved medieval cathedrals in Scotland. During a guided tour your guide will explain how the construction of the Cathedral was not completed for more than three centuries, with the present building representing the styles of the different building stages - Romanesque, Transitional and Gothic.

You then walk the short distance to The Earl's Palace, built in 1600 by Earl Patrick Stewart. When it was built, the Palace was probably the finest example of French Renaissance architecture in Scotland though it now stands as an impressive ruin. The most interesting features are the carved decoration, the oriel windows and the great hall in which is one of the noblest state rooms of any castle in Scotland.

Continue to the adjacent remains of the Bishop's Palace, which was built in the mid-12th century to provide accommodation close to the splendid new Cathedral. The Palace probably consisted of a hall, used for festive occasions and a tower house which formed the Bishop's private residence and conformed to the plan of a Royal Norwegian Palace.

Your guide will then conclude the tour and you are free to shop and explore and make your own way back to the ship. Alternatively you can make your way back to the ship with the guide at this stage.

Please note: This tour is entirely on foot with an extensive amount of walking for approx 700 meters (0.43 mile), and is recommended for guests in good physical condition. This tour is not suitable for guests with limited mobility or those who utilise a wheelchair. Comfortable, sturdy walking shoes are recommended. The coaches utilised on this tour are air-cooled.

This rocky outcrop was once a cliff-top settlement. The tour will continue a little further along the cliffs for spectacular views over Mull Head and some of the smaller offshore islands.

As well as the dramatic scenery, the cliffs are also a haven for cliff birds and local flora.

INV-G / CAWDOR CASTLE & CULLODEN BATTLEFIELD

DIFFICULTY

Price:\$119; Duration:5.00 hrs

Explore the Castles, Clans and Battles that shaped Scotland's Medieval past during this memorable, half-day excursion.

Cawdor Castle

Depart the pier for the scenic, approximately one-hour drive along the Cromarty Firth and through the outskirts of Inverness en route to Cawdor Castle, the most romantic castle in the Highlands. One of the finest and most picturesque Medieval buildings in Scotland, Cawdor Castle retains a central tower believed to date from the end of the 14th century. This legendary castle is familiar to anyone who has read Shakespeare's *Macbeth*, as it is the scene of King Duncan's murder.

Self-Guided Castle Tour

As you cross the drawbridge, step into Scotland's Medieval past. The castle feels like a living home rather than a museum, as it is indeed the residence of the Cawdor family. During your self-guided tour, enter the low doorways, climb the winding stairs, look out from windows set deep in massive walls and marvel at the beautiful woven tapestries. See the centuries-old stonework, snug sitting-room in the core of the Tower, forbidding dungeon, freshwater well, and the original kitchens. Following your tour of the castle and gardens, re-board your coach and drive to nearby Culloden Battlefield.

Culloden Battlefield

No place in British history stirs the emotions more than Culloden. On 16 April 1746, a battle was fought here to decide a civil war between the ruling House of Hanover and the Jacobites. The brutal Duke of Cumberland, son of King George II, and his 8,000 well trained and equipped army defeated 5,500 exhausted, starving and ill-equipped Highlanders led by Bonnie Prince Charlie. It was the last battle on British soil and ended the House of Stuart's hopes of regaining the throne. During a stop here, see wooden plaques detailing the battle, clan graves and the Well of the Dead, where wounded Highlanders were slain as they drank water to revive themselves. Following your visit, commence the approximately 1-hour drive back to the pier.

Please note: This tour involves a moderate amount of walking stair-climbing & uneven surfaces at Cawdor Castle, with a few steps to negotiate to get on/off the coach. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Lightweight, comfortable clothing, a sweater or jacket, flat, closed toe walking shoes and sun protection are recommended. Due to the local climate, most of the coaches are air-cooled. INV-D / LOCH NESS CRUISE & HISTORIC URQUHART CASTLE

DIFFICULTY

Price:\$149; Duration:5.75 hrs

Explore the mystery of Scotland's most beloved legend during this memorable excursion to Loch Ness and the ruins of Urquhart Castle.

Loch Ness

Depart the pier for the scenic, approximately 60-minute drive south to the banks of Loch Ness. Upon arrival at Dochgarroch harbour, embark the charming boat for a short cruise to Urquhart Castle. This tour represents a unique opportunity to look for the evasive Loch Ness Monster, which has baffled some of the world's most notable researchers for decades. The deep lake, ('loch' in Gaelic), has drawn visitors from all over the world in search of the monster. The loch is 23 miles (about 37 kilometres) long, one mile (1.6 kilometres) wide and 755 feet (230 metres) deep. Enroute to Urquhart Castle, you can learn more about the Loch and the Monster.

Urquhart Castle

Upon arrival, disembark the boat and walk to the jagged and atmospheric ruins of Urquhart Castle, situated on a rocky promontory jutting into Loch Ness. During its turbulent history, the castle was plundered by the MacDonald clan of the Western Isles and eventually blown up in 1692 to prevent its occupation by Jacobites. Today, all that remains is a lone keep and crumbling walls. However, legends persist that a cave beneath the castle is the home of 'Nessie', the Loch Ness Monster. The path leading up from Urquhart Castle offers superb views of the ruins and the loch. You can also browse the interesting Visitor Centre and gift shop.

Beaully

Following your visit to the castle, depart Loch Ness for the gentle return journey to Invergordon via the small town of Beaully. Well known for its lovely flower displays and home to the now ruined 13th Century priory which lies in the heart of the village, Beaully is a charming traditional Scottish town. It also boasts a lovely, spacious central square, laid out by Baron Lovat in the 1840s. Beaully is the ideal place to purchase tweeds, knitwear and local crafts.

After some free time to explore and perhaps buy some mementos of your visit, depart for the final leg of your journey back to your ship in Invergordon.

Please note: This tour involves an extensive amount of walking, including an uphill walk from the jetty to the main entrance at Urquhart Castle, from the Castle to the Visitor Centre and from the Visitor Centre to the coach park with a few steps to negotiate to get on/off the coach and embark/disembark the boat. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Lightweight, comfortable clothing, a sweater or jacket, raingear, flat, closed -toe walking shoes, and sun protection are recommended. Due to the local climate, most of the coaches are air-cooled. The boat is not exclusive for Silversea guests.

EDI-H / ROSSLYN CHAPEL & GLENKINCHIE DISTILLERY

DIFFICULTY

Price:\$109; Duration:4.50 hrs

Explore the history, traditions and flavours of Scotland during this picturesque, half-day sightseeing excursion.

Leith, Rosslyn Chapel

Depart the pier for the scenic, approximately 45-minute drive to the Rosslyn Chapel, built in 1446 by Sir William St. Clair, third and last St. Clair Prince of Orkney (thought to be a Grand Master of the Knights Templar). The Rosslyn Chapel was originally planned as part of a much larger building in the layout of a cross. However, St. Clair's untimely death in 1484 brought the building work to an end. The chapel, however, remains a captivating building in its own right. It became a place of pilgrimage thanks to its strong links with the Knights Templar, and, if speculation is to be believed, its musty, undisturbed vaults may contain fantastic holy relics, including early gospels, the Ark of the Covenant, Stone of Destiny, and even the mummified head of Christ.

Rosslyn Chapel, Guided Tour, Carvings

Upon arrival at Rosslyn Chapel, enjoy an introductory talk and orientation before exploring this stunning chapel at your own pace. Along the way, learn about the history of the chapel, mysterious Knights of Templar, and connections and links to the story of the Holy Grail as depicted in Dan Brown's novel, *The Da Vinci Code*. In addition, marvel at the multitude of fascinating and intricate carvings that adorn the pillars, walls and roof of the chapel, including carvings that suggest America was discovered 100 years earlier than the arrival of Columbus. There are plenty of chapel guides who are always happy to delve into the stories of the chapel's past and discuss the carvings in more detail as well as an exhibition in the visitors centre with more details on the Rosslyn's past.

Glenkinchie Distillery, Guided Tour, Whisky Production, Still Room, Whisky Tasting

Next, re-board your coach and head to the Glenkinchie Distillery. One of the Lowland's finest distilleries, Glenkinchie produces a truly remarkable single malt. During your guided visit, discover the methods of whisky production and visit the Still Room, then proceed for a tasting of Glenkinchie and your choice of another single malt for comparison. Additional whisky is available for purchase in the gift shop. At the conclusion of your visit, re-board your coach and commence the approximately one-hour drive back to the pier.

Within its walls can be seen some of the most glorious examples of medieval architecture in London. It also contains one of the most impressive collections of tombs and monuments in the world. Half national church, half national museum, the abbey occupies a unique place in the British national consciousness.

Your knowledgeable guide explains how the abbey's interior presents an exceptionally diverse array of architectural and sculptural styles. Standing as a monument to navigational research, the Royal Observatory is the original home of Greenwich Mean Time and is famous for being the source of the Prime Meridian line that divides the East from the West (longitude 0° 0' 0"). The Observatory galleries unravel time, space and astronomy, while the Planetarium explores the heavens and at Flamsteed House, Sir Christopher Wren's original building, is where London's only public camera obscura is housed.

National Maritime Museum

The National Maritime Museum is formed from the Queen's House and has 2 separate wings, joined by colonnades. The museum was first opened in 1937. The west and east wings, plus the linking colonnades, were built in 1807-16 by Daniel Alexander; the west wing holds the main body of the museum whilst the east wing is mostly used for special exhibitions. There is a wonderful collection of boats and naval memorabilia, relics, maps, charts and uniforms, all of which tell the long story of Britain's history as a seafaring nation. Nelson's blood stained uniform from the Battle of Trafalgar is one of the star attractions. The number of exhibits in the Museum is enormous and main intention of the Museum is to show off the history of mankind's association with the sea.

Visits to the Royal Observatory and Maritime Museum are free-flow but the guide will be on hand to lead the way and to add facts and history and insights.

Please note: This tour involves a moderate to extensive amount of walking and is not suitable for guests with limited mobility or guests who utilise a wheelchair. A visit to the Planetarium at the Observatory is not included in this tour. Commence the tour in the 'City', and then continue to the 'West End', the part of central London west of the City's limits. London would not be London without its captivating 'square mile' of the old City - the historic and intriguing area around which modern London as we know it has grown and where the medieval and Georgian atmosphere still survives.

Westminster, Whitehall and St. James's

View Westminster, Whitehall and St. James's sections of London, as the coach crosses Westminster Bridge, and passes by the neo-Gothic Parliament buildings presiding over the banks of the River Thames and its adjacent 320 foot clock tower of Big Ben. From Parliament Square look across to St. Margaret's Church. Standing adjacent is the architectural and masterpiece of the 13th to 16th centuries - Westminster Abbey. It represents a unique pageant of British history as the setting for every Coronation since 1066, and for numerous other Royal occasions. The Guide will point out the main external features of the building and a photo stop is made to take photographs of the outside.

Boarding the coach you will then see Whitehall, passing the end of Downing Street and the Cenotaph war memorial and past Horse Guard's Parade. Afterwards travel along the broad triumphal approach to Buckingham Palace - The Mall which is lined on one side by the delightful St. James's Park, a quiet and relaxed oasis with its flowerbeds and its ducks and pelicans on the lake. James's Palace; still the Court's official headquarters and adjacent Clarence House - London home of Prince Charles and Camila, Duchess of Cornwall.
