XRY-H / Scenic Cádiz & Flamenco

Difficulty 

Price: $79 - Duration: 2.50 hr(s)

In the early 16th century, Cádiz served as a launching point for the journey to the newly discovered lands of America. Later raided by Sir Francis Drake, in the struggle to gain control of trade with the New World, the city managed to withstand a siege by Napoleon's army. In the early 19th century it became the bastion of Spain's anti-monarchist, liberal movement, as a result of which the country's first Constitution was declared here in 1812. Some of the city's 18th century walls still stand and the old, central quarter is famous for its picturesque charm.
Depart the port area on your motor coach for an approximate 1-hour panoramic drive through the city.

Old Town
The old city looks quite Moorish in appearance and is intriguing with narrow cobbled streets opening onto small squares where the golden cupola of the cathedral looms high above long white houses. Arcos de la Frontera, Gothic Cathedral

These white villages date back to the Spaniard's centuries-long fight to win Spain back from the Muslims (Moors). Arcos' name, de la Frontera, reflects this frontier history. While the wars began in the 9th century, Spain wasn't secure until the 15th century. Yet the town itself became a pillar of Christianity after Alfonso the Wise of Castile (1252-1284) expelled the Moors. The Gothic Cathedral he built remains on its high ridge and is known for its ten bells, which tolled throughout the war with the Moors. Several Moorish banners were taken in the nearby battle of Zahara and have been on display in a church in Arcos since 1483.

Along the way, admire several churches that were built during the 15th and 16th centuries. Be sure to notice the old Castillo and Santa Maria Church that overlook the square. Strolling through town, come across the impressive homes of nobility, sporting large arched and carved doorways, intermingled with the modest homes of merchants and craftspeople.

Parador, Casa del Corregidor, breath-taking panoramic views and local tapas

Proceed to the old part of the city and the Parador, a former palace that nowadays is a luxurious hotel, and the Casa del Corregidor, the 14th century home of the king's magistrate. Relish the breath-taking panoramic views of the Guadalete River and the plains and farms beyond. Enjoy some tapas and local refreshments. Afterwards, return to your motorcoach for the ride back to Cadiz and re-board the ship.

The project and its realisation was entrusted to renowned architect Antoni Gaudì. Although just over 30 years of age at the time, Gaudì worked on Sagrada Familia for the rest of his life. The first and second floors feature spaces displaying the permanent collection focusing on the building, and the temporary exhibits and activities that make up the museum project. LTT-A / Port Grimaud Village

Difficulty 

Price: $99 - Duration: 4.00 hr(s)

Experience an eclectic blend of cosmopolitan chic and country charm in the area of St. Tropez during this scenic cruise along Port Grimaud, and a visit to its charming hilltop village.
After tendering ashore, depart the pier for the brief drive via coach to Port Grimaud.
Port Grimaud
Port Grimaud was created in the 1960s as a private lagoon pleasure city with waterways for roads and yachts parked at the end of every garden.This extraordinary architectural experiment was the idea of François Spoerry who envisioned a town built in the manner of Venice with channels of water and traditional French fisherman's houses, each with a personal boat mooring space at the end of the garden. The houses are built in the tasteful old Provençal style. Upon arrival, take a pleasant guided stroll through this unique enclave, followed by a 15 -20 minute motorboat cruise past exquisite homes, lovely gardens, tiny squares and bridges spanning the manmade canals.
Grimaud Village
Next, re-board your coach and proceed for a countryside drive to the village of Grimaud, and a look at the quieter side of life in the South of France. Known as a 'village perché', Grimaud is perched on a hillside high above the fertile valley, and is accessed by an uphill walk. Your reward is a serene, rustic village with warm, ochre-coloured houses grouped around an 11th -century church. Until the end of the 19th century, the Castle of Grimaud was the command post overlooking the Gulf of Grimaud. The remains of a medieval castle are an added attraction, as are the stunning views from its hilltop location.
After a leisurely stroll around this charming setting, walk back to your coach for the return drive to St. Tropez Harbour

Please note: This tour requires an extensive amount of walking on cobblestone, unpaved and paved surfaces, with steps to negotiate, and is not recommended for guests with limited mobility or guests who utilise a wheelchair. MCM-I / Sustainable Monaco & Market

Difficulty 

Price: $79 - Duration: 3.50 hr(s)

Discover the opulent elegance of Monaco's highlights on a walking tour that shows you the history of Monte Carlo's grace and glamour (and gardens!), followed by a delicious tasting of local specialties at the much-photographed Condamine Market at the grand Place d'Armes.
Monaco Guided Walking Tour
Cross the busy Hercule harbour by ferry (15 minutes) and begin your 90-minute walking tour of Monaco.
Begin in the Monte Carlo quarter and learn the history of the Casino and Opera House. Interestingly, the brainchild and force behind the success of the Monte Carlo Casino is thanks to Princess Caroline, mother to Prince Charles III (who commissioned the successful building that opened in 1879); Princess Caroline is responsible for finding the right manager François Blanc (aka The Magician of Monte Carlo) and architect (Charles Garnier, who also designed the Paris Opera House) to execute her vision. The result is the grand and luxurious casino for which Monte Carlo is famous today, a glorious example of belle epoque architecture. You may decide during a short free time to tour the interior of the Opera House that adjoins the Casino, enjoying its richly furnished interior, with a marble foyer, columns of onyx and exquisitely ornate bas relief sculptures in gold.

Walk also past Hotel de Paris, the Café de Paris and the incredible Casino gardens that have been featured in several James Bond films. The gardens were built in 1893 and designed by architect Edouard André, who was inspired by the fashion of the French Riviera. Stroll through the waterfalls, streams and landscaped valleys amidst the brightly-hued tropical plants and see the unique "Little Africa" garden, which is full of subtropical and tropical species, including trees with impressive aerial roots and vast, buttress-like branches.

Place d'Armes and Marché de la Condamine
Your walking tour leads you to the covered market of the Marché de la Condamine on Place d'Armes. Open daily, the open-air market sells Monaco's freshest fruit, vegetables and flowers and is a delight for touring photographers wishing to snap photos of the vibrant local colour, including the much-photographed and yellow-striped tented market stands framed by the elegant buildings and fountain at the Place d'Armes.

Also featured in the market are specialty meats, cheeses, wine and other domestic goods. Enjoy a tasting of local specialties (with table service) and browse the market for a bit before returning to the ship.

LIV-007 / S.A.L.T. Fire & Grapes: an Italian Barbecue Feast with Wines on the Tuscan Hills

Difficulty

Price: $349 - Duration: 5.50 hr(s)

Fattoria Sardi, Lucca Hills, Vineyards
The hills outside Lucca provide fertile terroir for some of Italy's most coveted wines and Fattoria Sardi has quickly become a reference for the country's biodynamic and organic production. With over 40 acres cultivated with Sangiovese, Vermentino Syrah, Merlot and Cabernet Sauvignon grapes, harvested by hand, Sardi's production includes rosé, red and white wines full of character (there is also an exceptional sparkling Pet Nat). Nestled between the Apuan mountains and the Tyrrhenian Sea, the vines benefit from abundant sunshine, constant ventilation, and cool nights. The farm, which was founded in the 18th century and beautifully restored in 2006, is managed by a young couple. It boasts woods, olive groves, orchards, wheat and legume fields, as well as rooms for its guests and a dedicated chef's table, custom-built for one of Italy's most talented young culinary talents, Damiano Donati.

Donati, formerly of Lucca's award-winning Punto restaurant, created a full experience around fire-cooking using the best local, seasonal ingredients. He even designed 2 special barbecues, personally supervising their manufacture by local artisans, and a Georgian oven (similar to a tandoor), which he built himself.

Vineyard & Cellar Tour
You will depart from the port of Livorno with your English-speaking guide and your driver, towards the Fattoria. Here you will be greeted by the farm's staff who will introduce the farm's slow and sustainable philosophy and guide you on a tour of the vineyards and the cellar

Chef Damiano Donati
You will then meet chef Damiano Donati: his culinary philosophy is based on selecting the best ingredients and preparing them in the way that most enhances their natural flavors, while maintaining their nutritional values intact, whether it's oven baked pasta, roasts, stews or grilled vegetables and legumes cooked in clay pots, Tuscan-style. He also makes delicious sourdough bread with heirloom local wheat in the farm's own wood fired oven. Unsurprisingly he lands a hand in the estate's winemaking (though his specialty is cider).

Lunch & Wine Pairing
Donati will cook right in front of you, and together you will then enjoy an authentic Italian feast, with mixed antipasti (vegetables and legumes), pasta, fire-cooked meat and dessert, accompanied by a tasting of Fattoria Sardi's wines. Remember as you enjoy the best flavors of Tuscany, to take a deep breath, look around you and take in the arresting view. It doesn't get much better than this.

Time to start the 60-minute drive back to the Port of Livorno.

Please note: This tour involves a minimal amount of walking of approximately 100 mt over some gravel and few steps. This tour is suitable for guests with limited mobility and those on a wheelchair, however guests must be able to climb few steps and get on and off the vehicle independently. Guests are advised to wear comfortable shoes and clothing, hat, sunscreen and a warm jacket during shoulder season. Guests must be at least 18 years old to be served alcoholic beverages. In case of bad weather, fire-cooking may not be performed and the chef will cook it in the inside

window open Kitchen. When seated in the inside restaurant some guests will be seated on stools. Space on this tour is extremely limited; we suggest you book well in advance to avoid disappointment.

LIV-A / Guided Tour of Florence

Difficulty

Price: $129 - Duration: 9.50 hr(s)

Discover the exquisite beauty, art and architecture of Florence during a full-day tour of this historic city, along with some time for independent shopping and exploration.
Florence is the Italian city most celebrated by artists and poets. Each street, palace and building is living evidence of its glorious past and proud people.

Depart the pier in Livorno via coach for the approximate two-hour drive to Florence, with a comfort stop made en route. Upon arrival, meet your guide and commence your walking tour of the city.

Piazza del Duomo
Your tour begins at the Piazza del Duomo with an external visit of St. Mary of the Flower Cathedral. The church is adorned with an impressive façade decorated in white, green and pink Tuscan marble. Highlights to be seen during your visit include the Bell Tower, designed in 1334 by Giotto, and the Baptistery. Its celebrated doors, known as the 'Gates of Paradise', were commissioned in 1401 and designed by Lorenzo Ghiberti.

Piazza della Signoria
Your next stop is the Piazza della Signoria. It is Florence's second major piazza, and the political centre of the city because of its Town Hall, or 'Palazzo Vecchio'. The Piazza della Signoria is also known as an open-air museum thanks to its many statues, which include Cellini's Perseus, Giambologna's The Rape of the Sabine Women, Ammannati's Neptune Fountain and a replica of Michelangelo's famous David.

Ponte Vecchio
Your tour continues on with a visit to Ponte Vecchio, also known as the 'Old Bridge'. Ponte Vecchio dates back to 1345, and is the only bridge in Florence to escape being blown up during World War II. It originally housed the workshops of the butchers before they were driven away by the Grand Duke, Ferdinando I, due to the terrible noise and stench they created. Ponte Vecchio was subsequently used as a workplace for goldsmiths and silversmiths; their shops still remain here to this day.

Piazza di Santa Croce
The final stop on your guided tour is the eastern quarter of Santa Croce, home of the Piazza di Santa Croce. Upon arrival, an outside visit is made to the Franciscan Basilica that dominates this large square. Over the years, the basilica's construction involved a renowned cast of Florentine architects and masters, including Brunelleschi, Vasari, Giotto and Donatello. Each summer, the Piazza Santa Croce plays host to the 'Calcio in Costume'. During this historical game, the hefty men of the four quarters of Florence battle it out in an ancient mix of wrestling and soccer, and are cheered on by residents and visitors alike. For most of the year, however, the square is a peaceful open space surrounded by stately palazzo, and intimate pizzerias and restaurants.

Following your guided tour, ample time is made available for lunch on your own and shopping. At the conclusion of your visit, walk from the Piazza Santa Croce to the pick-up point at Lungarno Pecori Giraldi, then re-board your coach for the 1.5-hour return drive to the pier.

Please note: This tour requires an extensive amount of walking, some of which is over cobblestone streets. It is not recommended for guests with limited mobility or those who utilise a wheelchair. On Sundays and religious holidays, inside visits of cathedrals and churches are not possible due to religious services in progress. Headsets are provided during the guided tour of Florence. LIV-C / Medieval Lucca

Difficulty 

Price: $89 - Duration: 4.25 hr(s)

Explore the fascinating streets and squares of Lucca during a scenic and memorable half-day tour of this historic medieval city. Lucca endears itself to everyone who visits, hidden behind imposing Renaissance walls with cobbled streets, handsome piazzas and shady promenades; it makes for a perfect destination to explore by foot.
Depart the pier for the approximate 45-minute drive to Lucca.Upon arrival, your tour begins inside the massive red bricks walls, which were built between 1504 and 1645, and are amongst the best-preserved Renaissance defenses in Europe.

Lucca
Lucca is enclosed by massive red brick walls, which help to give the city its special character by shutting out traffic and the modern world. Within these walls, Lucca is a peaceful city of narrow lanes, preserving intact its ancient Roman street plan. Unlike several other Tuscany's cities, Lucca is flat; many locals use bicycles, which impart an additional charm to the city. This memorable outing is ideal for those looking to experience a Tuscan city that is rich in history, art and architecture, but is hidden from the crowds of tourists.

Church of San Michele
Along the way, an inside visit is made to the Church of San Michele in Foro, which stands on the site of the ancient Roman Forum. It has a wonderfully-rich Pisan Romanesque façade that competes in splendour with that of St. Martin.

Guinigi Tower
Another outside visit is then made to the Guinigi Tower, one of many in Lucca that belonged to the Guinigi family, rulers of the city in the 15th century. The tower has a small roof garden, with some trees sprouting incongruously at the top.

Anfiteatro Romano

Next, proceed to the Anfiteatro Romano, formerly the ancient Roman Amphitheatre. Today, it is enclosed by medieval houses that were built up against the walls of the amphitheatre. It's perfectly-preserved shape reminds us that Lucca was founded by the Romans in 180 B.C.

Church of San Frediano
From here, continue on to the Church of San Frediano, which is adorned with a striking façade and a 13th-century mosaic (outside visit only). Inside, there is a splendid Romanesque font and beautiful frescoes. In the chapel dedicated to Santa Zita, her well-preserved body is interred.

Church of San Martino
Your next stop is the Church of San Martino (outside visit only). Lucca's extraordinary cathedral, its façade abuts incongruously on to the campanile. St. Martin is the Roman soldier depicted on the façade dividing his cloak with a sword to share with a needy beggar.

Via Fillungo
The guided portion of your visit concludes at Via Fillungo, Lucca's principal shopping street, which winds its way through the heart of the city towards the Roman Amphitheatre.

Following your walking tour, some free time is made available for exploring the area and browsing the shops at your leisure before re-boarding your coach for the return drive to the pier.

Please note:This tour requires a moderate amount of walking for approximately 3.5km (2.17 miles), some of which is over cobblestone surfaces, and there are steps to climb. It is not suitable for guests with limited mobility or those who utilise a wheelchair. There will be an exterior visit only should a mass be in progress at the church. Guests may be able to enter on an individual basis to view the interior. Tour sequence may vary.

LIV-D / Monuments of Pisa

Difficulty 

Price: $99 - Duration: 4.25 hr(s)

Discover the beauty of Pisa during this scenic, half-day tour of the city's historic landmarks, including the world-renowned Leaning Tower of Pisa.
Since the beginning of the tourist brochure, Pisa has been known for just one thing, the Leaning Tower. However, this world-renowned landmark is but one component of the city's amazing religious core, the Campo dei Miracoli. Here, the Duomo, Baptistery and Camposanto complete an unrivalled quartet of medieval masterpieces. These and a dozen or so churches and *palazzo* scattered about the town belong to Pisa's 'Golden Age', which took place from the 11th to the 13th centuries when the city was still a port, and one of the maritime powers of the Mediterranean.
Pisa
Depart the pier for the approximate 45-minute drive to Pisa. Upon arrival at the parking area, walk to the Campo dei Miracoli and commence the guided portion of your tour.

Campo dei Miracoli
Since it was first laid out, Pisa's ecclesiastical centre has been known as the Campo dei Miracoli, or 'Field of Miracles'. The sight of it is as stunning today as it must have been to medieval travellers. Nowhere in Italy are the key buildings of a city arrayed with such precision, and nowhere else is there so beautiful a contrast of stonework and surrounding meadow.

Leaning Tower of Pisa
Your next stop is the Leaning Tower of Pisa (outside visit only). Underneath the pavement and turf of the Campo dei Miracoli lies a platform of saturated sandy soil, whose instability accounts for the tilting of the Leaning Tower. Begun in 1173, construction of the tower subsided when it had reached just three storeys in height. Over the ensuing 180 years, a succession of architects continued to extend it upwards until it was finally completed and topped with a bell-chamber in 1350. Leaving the Leaning Tower, proceed to the Duomo.

Itinerary, all arrangements, and prices are subject to change without notice. Silversea reserves the right to correct any errors or omissions.

The Duomo
The Duomo was built in 1064, a century before the Campanile. With its four levels of variegated colonnades and subtle interplay of dark grey marble and white stone, the Duomo is the archetype of the Pisan Romanesque style; a model often imitated but never surpassed.

The Baptistery
A visit is then made to the Baptistery. The third building of the Miracoli ensemble, the circular Baptistery is a bizarre mix; its three storeys of Romanesque arcades peak in a crest of Gothic pinnacles and its dome is shaped like the stalk of a lemon.

Piazza dei Cavalieri
Leaving the Campo dei Miracoli, visit the Piazza dei Cavalieri. One of Pisa's most interesting sites, the Piazza dei Cavalieri is a large square that opens unexpectedly from the narrow back streets, and includes the site of the Roman Forum. The central civic square of Medieval Pisa, the Roman Forum was subsequently remodelled by Vasari and became the headquarters of the Knights of St. Stephen.

Palazzo dell'Orologio
On the western side of the square is the Renaissance-adapted Palazzo dell'Orologio. In 1208, the military leader Ugolino della Gherardesca, along his sons and grandsons, was starved to death in its tower as punishment for his alleged duplicity with the Genoese enemy.

Following your guided walking tour, walk back to the parking area and re-board the coach for the approximately 45-minute drive back to the pier.

Please note: This tour requires a moderate amount of walking for approximately 2.6km (1.62 miles) with some steps to climb. It is not recommended for guests with limited mobility or those who utilise a wheelchair. Tour includes an exterior visit of the Leaning Tower only. Recently re-opened, admittance to the Tower is strictly limited and not possible on this excursion.

LIV-R / Scenic Lucca by Bike

Difficulty

Price: $119 - Duration: 4.75 hr(s)

Experience the Old World beauty and landmarks of Lucca in an active new way during this invigorating, half-day bicycle excursion.
Livorno, Lucca
Depart the pier for the scenic, approximately 45-minute drive to Lucca. Erected in a plain crossed by the Serchio River, not far from the sea, Lucca has managed to remain a typical Italian city. Known as the 'Tuscan open-air museum', Lucca stands proudly with its three walls surrounding the old city centre, which kept the precious and original urban structure unchanged. Lucca conveys the impression of a peaceful and happy town. Motorcars have been almost completely banned inside the town walls, making it the ideal setting in which to enjoy your scenic and invigorating bicycle tour. Upon arrival at Lucca, proceed to the bike rental centre. After receiving your safety, riding and tour instructions, begin your picturesque, approximately two-hour guided bicycle tour of Lucca.

City Walls, Piazza San Michele, Palazzo Pretorio, Church of San Michele

LIV-T / TICKET Accademia delle Belle Arti Museum

Difficulty

Price: $35 - Duration: 9.50 hr(s)

In 1784, the Grand Duke of Tuscany, Pietro Leopoldo, converted the friary of San Matteo and the convent of San Niccolò di Cafaggio to house the Gallery so students in the adjoining Accademia delle Belle Arti (Fine Arts Academy) could study the greatest works of the past.Today, it is visited mostly by people who want to see Michelangelo's David. Undoubtedly the world's most famous sculpture, the museum also houses five other Michelangelo sculptures - the four unfinished Prisoners and St. Matthew - and a collection of Gothic and Renaissance paintings that were once in the Medici collections.DavidMichelangelo's David arrived in 1873, moved here from the Piazza della Signoria in order to better conserve it. A copy of the statue still stands in Piazza della Signoria where it formerly was displayed. Despite the familiarity of the statue's image, the sheer size of the marble statue comes as a surprise. Commissioned by the Opera del Duomo in 1501, the work was deliberately designed to symbolize the virtues of Republican Florence and freedom from foreign and papal domination. Recently, it has come to symbolize the ultimate symbol of the artistic and intellectual ambitions of the Renaissance.The 16-foot high block of marble was transformed in 3 years into the work of art that was to establish, along with the Pietà displayed at the Vatican, Michelangelo's reputation as the foremost sculptor of his day. David was always intended as an outdoor sculpture which explains some of the extraordinary physical distortions evident in the statue, such as the overly large hands and head. Even the eyes are made to be looked at from below; when examined from statue eye level, in fact, the two eyes were found to be looking in different directions.AccademiaAmong the other works housed in the Galleria are Giambologna's original plaster copy of the Rape of the Sabines (original marble one located in the Loggia dei Lanzi in Piazza della Signoria), Botticelli's Madonna and Child and Madonna of the Sea, and a few works by Perugino, Filippino Lippi, Pontormo, Domenico Ghirlandaio and Bronzino. There is also an extensive collection of plaster models from the 18th century as well as early 13th century religious works by Giovanni di Milano, the Orcagna brothers, Taddeo Gaddi and others that were followers of Giotto.
Please note: These tickets are for entrance only and not include transfer or guided visit. In order to have the transportation through Silversea, guest must also reserve item code "LIV-B Florence on your Own". Tickets are pre-reserved for 12:00 (Noon) only. Guests touring independently and those on tour, please meet the Silversea representative at the entrance to the museum to obtain your pre -reserved tickets. Although the museum requires a moderate amount of walking, it is wheelchair accessible.

LIV-U / TICKET Uffizi Gallery Museum

Difficulty

Price: $45 - Duration: 9.50 hr(s)

The Uffizi is the most important and visited museum in Florence. The Uffizi palace was designed and begun in 1560 by the architect Giorgio Vasari in the period when Cosimo de' Medici, first Grand Duke of Tuscany, was bureaucratically consolidating his recent takeover of power. Built in the shape of a horseshoe extending from Piazza della Signoria to the Arno River and linked by a bridge over the street with Palazzo Vecchio, the Uffizi were intended to house the administrative offices (*uffizi*) of the Grand Duchy. From the beginning, however, the Medici set aside a few rooms on the third floor to house the finest works of their collections. The Gallery was subsequently enriched by various members of the Medici family. Two centuries later, in 1737, the palace and their collection were left to the city by Anna Maria Luisa, the last Medici heir, and today houses one of the world's great art galleries.
Collection

In its 45 rooms, the Uffizi houses not only the best of Florentine paintings from the 14th and 15th centuries, but masterpieces from other parts of Italy as well as four centuries' worth of works from leading artists in Germany, Spain and Holland. Apart from paintings, the Uffizi exhibits ancient Roman and 16th century sculpture in its frescoed corridors.
Serious art lovers should visit the Uffizi at least twice. The museum is organized in chronological order from the 13th to the 18th centuries. Your first visit should cover Rooms 1-28, dedicated to the Florentine Renaissance (home to the most famous paintings). A second visit could deal with Rooms 29-45, devoted to the High Renaissance and Mannerism in Florence, with works that end in the 18th century.

Please note: The visit at Uffizi Museum is Self guided. Tickets are pre-reserved for 13.30 (1.30 pm). Guests will meet the Silversea representative at the entrance to the museum to obtain the pre -reserved tickets. This tour requires a moderate amount of walking and is not suitable for guest with limited mobility. The coach is not permitted to drop guests into the city centre and a walk of about 15 minutes between the coach park and town is necessary. Guests must meet at the pre-arranged time and place advised by your escort for the return drive to Livorno and your awaiting ship. Guests failing to re-join their coach and escort as advised, will be responsible for returning to Livorno at their own expense. Bring local currency or credit cards for any purchases. Free time in Florence for exploration is approximately 6 hours (total including visits time).

NEW

Guests with international flights departing after 7 p.m. can discover some of the most iconic and hidden treasures of Rome during this immersive, full-day sightseeing excursion.
Civitavecchia, Rome, Trevi Fountain, Pantheon
Depart the pier for the scenic, approximately 1.5-hour drive to Rome. Upon arrival, take a guided walking tour. Along the way, a photo stop with some free time is made at the Trevi Fountain, the largest Baroque fountain in the city and one of the most famous fountains in the world. From here, continue on to the 2nd-century Pantheon. This former Roman temple, now a Catholic church, was erected on the site of an earlier temple commissioned by Marcus Agrippa during the reign of Augustus. It was completed by Emperor Hadrian, and likely dedicated around 126 A.D. After a guided tour inside the temple and some free time to photograph this ancient church, continue on to Navona Square.

Piazza Navona, Fountains

One of the largest and most beautiful piazza squares in Rome, the 15th-century Piazza Navona features three impressive fountains, including the Fontana dei Quattro Fiumi with its large obelisk at the centre, Fontana del Moro and Fontana di Nettuno. Surrounding the square are restaurants, street artists, painters and musicians who add a lively atmosphere to the scene. During a photo stop here, enjoy your guide's commentary and some free time to photograph your surrounds.

Lunch, Jewish Ghetto, Tiberina Island, Tiber River, Trastevere
Next, re-board your coach and proceed for lunch at a local restaurant. After lunch, re-board your coach and head to the Jewish Ghetto for a guided walking tour. Rome has one of the oldest Jewish communities in Europe, dating back to the 2nd century B.C. The Jewish Ghetto was assigned to Jews by Pope Paul IV in the 16th century. Leaving the Jewish Ghetto, your walking tour continues to your final stop, the boat-shaped Tiberina Island. This boat-shaped island is located in the middle of the Tiber, between Trastevere on one side and the Jewish Ghetto on the other. Following your tour, walk back to the coach parking area, re-board your coach and commence the approximately 45-minute drive to the airport for your flight home.
